

Babb Board Report

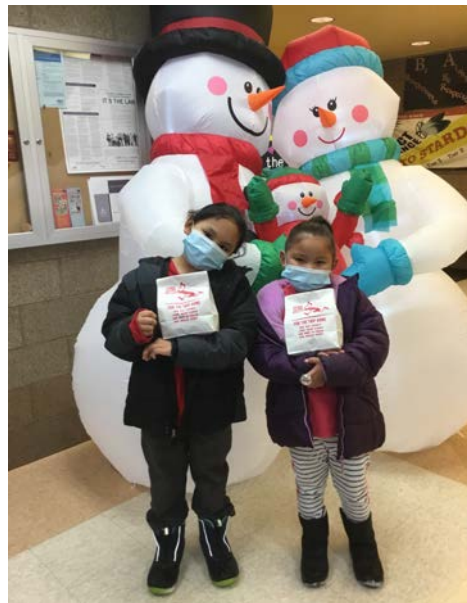

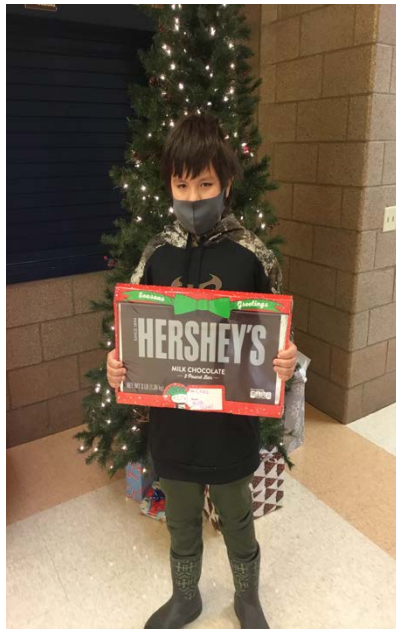

During the month of December, Babb Elementary was able to distribute our iPads to the students. Ms. Julie Hayes did a parent/student virtual lesson for our parents/students so that they could become familiar with Google Classroom. Staff also went over the Do's and Don'ts of online classes. We only had Google meets for our specials during this time. We wanted our students familiar with the format prior to beginning instruction. It also gave them the opportunity to interact with one another.

Besides working on work packets and a couple Google meets, our students were busy completing their Fall Benchmark Testing for ISIP and AimsWebPlus (Math). We were able to get 93% of our students tested in both assessments.

We had our winners for the Gingerbread competition. PTO/JOM added to the prizes. We were able to give out 1st to 3rd places in both classes. Having done the project with both of my girls, this was both fun and messy. I am still finding icing here and there.

Our PD focused on data and planning. Staff also spent much needed time getting their on-line classes going.

Thanks to the PTO/JOM for the candy bags, to Toys for Tots for all of the gifts and to the staff for decorating the building.

All Grades - December 2020
