

BUILDINGS/GROUNDS & TRANSPORTATION REPORT

Date: **October 16, 2023**
To: **Board of Education**
From: **Jeff Stauder**

BUILDINGS/GROUNDS

Facilities Committee

The Facilities Committee did not meet. The next meeting is TBD.

Building Update

Everything is progressing nicely. The roof is almost 100% complete. The interior walls are up and drywall is being hung. Most of the windows are in and the front of the building should be finished up in a few weeks. The parking lot is almost complete. Poettker estimates that they are about two weeks ahead of schedule. Furniture meetings will begin the week of October 23.

Owner Meeting

Washington Furnace Fan

The fan for the furnace is broke. This has to be fixed before the building can have heat. I have been working with Xcell Mechanical to get this fixed.

Crisis Management meeting

The Crisis Management meeting was held on 9-21-23 in the Board Room and I have attached the minutes from that meeting.

Maintenance Grant

I have started the 2024 Maintenance Grant Application. This will be matching grant up to \$50,000. I am working with BLDD to upgrade the door hardware in the High School and possibly replacing the remaining interior doors that were not replaced last year at the Jr. High. I will asking for approval of this Grant at the November meeting.

There is not much to report on this month as September was pretty routine. Just basic maintenance and a few small projects.

Transportation

Safety Hazard Resolution

Every year the Board needs to approve a resolution stating that the District has safety hazards. These being railroad crossings and highways. I would ask the Board to approve this Resolution.

The Transportation Department is still struggling to fill positions. We still need a couple new Drivers. I have hired a new bus aide and she will begin on Tuesday. We still could use a couple more Aides.
