

FIS School Board Report March 16th, 2025

Spring Conferences

Parent/Teacher conferences will take place on March 17th and 19th. This is a fantastic time for parents to connect with their students' classroom teachers. It's a great opportunity to continue to develop teacher/family relationships. Additionally, this year, we are hosting a student art show in the FIS media center.

End of Trimester 2

The end of trimester two came to a close last week on March 5th. Students and staff have been working hard to ensure this trimester wraps up smoothly. A huge thank you to our students, staff, and families for making this a successful trimester. We are moving on to trimester three and springtime.

Staff Development Day

On March 6th, FIS had our staff development day. We had a staff breakfast together and had professional development around our Multi-Tier System of Supports (MTSS) process in FIS. We wrapped up our staff development by collecting "Positive Perks", which are positive notes staff members write to one another.

Student Activity Night

On March 12th, FIS held our second Student Activity Night for 6th-8th-grade students. Students met in the field house for a 3-on-3 basketball tournament, two "escape rooms", Bazooka Ball, and much more. It is great to see our students interacting with each other and staff members in this way!
