To: Corrina Guardipee-Hall &lt;corrinag@bps.k12.mt.us&gt;, Carlene Adamson &lt;carlenea@bps.k12.mt.us&gt;, Brian Gallup &lt;briang@bps.k12.mt.us&gt;

This would be nice to add to the board agenda and make sure our school is a part of this since it will be a historical moment.

thanks

I hope this finds you well.

We are making progress on construction of the Montana Heritage Center. Already, we're setting steel beams in place, and that's where I hope you will come in.

We are bringing a large steel beam to selected schools across Montana during the last week of April through the first week of May. It's the top beam of the structure, and we're asking students to sign it. This top-tier beam will be set in place during our "Topping Off" ceremony in late May, and the students' signatures will be on display.

We'd like to bring the beam to **Browning on May 3 at 1:00 p.m.** for approximately **80 people** (we're thinking students, but it could be students and adults) to sign.

Is this something that interests you? Would you be willing to work with an area school to arrange for students to sign the beam? Alternately, do you have a suggestion of someone I else should contact in Browning to try to arrange this?

Thanks for considering.

Martha
