PSD Board Technology Update 2011-12

- Finishing up last of the projector/doc cam installs at the hs and then we will have a proj and doc cam in almost every classroom in the district. Will need to start going back around and upgrading the older sets

- We moved 3 labs at the hs this summer and by so doing should get better life from the machines

- Focus for the district technology committee this year is focused professional development (2009-10 was NETS- Student Standards and 2010-11 was NETS-Teacher Standards) First month's pd was on using GDocs for file storage and sharing
- Additional focused professional development going via the building PLC PD plans

- Transition to the new phone system is complete, next step there is to try to reduce the costs of our phone service. We also have the rudiments of an autodialer but will continue to look towards a fully robust system.

- There is continued expansion of interactive whiteboards, iPads and netbook labs at the various schools.
