School Updates

5/29 - Last Day of School/Awards Day/Track & Field Day was a great success. Students enjoyed celebrating year-long achievements and showing off their athleticism out on the track. The percentage of students earning Honor Roll or Honorable Mention for TIII were:

6/9-6/20 - Summer School was held with 125 participants. This is 40% of our CMS student population participating in our two week session. Many students came for fun and safety courses, but we also targeted students needing additional learning support in Math & Reading. We served 135 students during Summer School last year.

6/2 - Present - Amber and I continue to assess fees & fines, prepare schedules, reports, and handbooks for next year. We recently completed the K-12 rollover for 2025-2026. July will begin the majority of our ordering resources for the upcoming school year.

Current Enrollment Numbers:
