

SUBJECT:	Consideration and possible approval of the required resolution for submission of the Harris County Precinct 2 Partnership Project grant application.
BACKGROUND:	Harris County Precinct 2 is currently accepting applications for 2026-2027 Partnership Projects. An approved resolution is required to submit the grant application. The district is considering submitting a proposal to partially fund the Softball Complex. Approval of the resolution is not a commitment to submit an application; it is only a necessary step in the application process. If Pasadena ISD receives the grant award, the district will use the funding to complete the construction of the Softball Complex.
FINANCIAL IMPLICATIONS:	The requested funding will cover half of the cost of the Softball Complex project.
RECOMMENDATION:	We recommend approval of the required resolution for submission of the Harris County Precinct 2 Partnership Project grant application.
