SUBJECT: Proposed Additions to Board Policy 4370 – Graduation Requirements (1st Reading)

We are requesting an amendment to Policy 4370 - Graduation Requirements. This addition is proposed to be in compliance with amendments made by the Utah State Board of Education to Utah State Board of Education Administrative Rule R277-705, Secondary School Completion and Diplomas. The revised rule now allows a school district to award a Career Development Credential to a student receiving services or support through an Individualized Education Plan (IEP) or 504, if the student meets the criteria outlined in the rule.

**Please refer to Policy 4370 document for proposed language.*
