

Superintendent Comments
Board Workshop
October 14, 2025

1. Policy 707 Transportation of Public-School Students
There are times when students require treatment outside of the district. These are generally referred to as care and treatment programs. The district may establish reasonable restrictions on how far we will travel. GCED has established a recommendation that all GCED member districts follow the same restrictions. The district will follow the restrictions set in GCED policy 707, which currently is 60 miles.
2. 2026-27 Building Configurations
I do not have much of an update right now. SiteLogic will be here on Thursday and Friday of this week gathering information. The goal is to have at least a rough estimate of recommendations by the regular board meeting on Oct. 27th.
3. Jefferson Building
I am still in the process of negotiations based on the recommendations of the board. It is not appropriate at this time to discuss those talks.
4. Tower View
I met with Joe and Stephanie of the Anderson Center to discuss revisions to the lease agreement based on changes to the educational space we use for Tower View. Rather than try to further modify the existing contract, it was decided that we should work towards creating a clean document that can be used for the lease. This work will generally be through legal counsel with input from both sides.
5. Transportation RFQ
I will review the proposed timelines and process associated with the Request for Quotes for transportation for the 2026-27 school year and beyond.
6. Proposed Policy 524.1
This is a discussion regarding concerns that were shared during the first reading of Policy 524.1.
7. MSBA Leadership Conference
The MSBA Leadership Conference will be held Jan. 15th and 16th in Minneapolis. We need to know who is going so registration can be submitted.
8. Flight Paths 2030 Update
9. Other Topics - Weapons Threat
