Re: Webster LMC Air Conditioning Replacement - 2013 Bond

I would like to discuss the replacement of the Air Conditioning Unit servicing the Webster LMC and surrounding building areas at the next Committee of the Whole meeting on Monday, October 9, 2017. This was originally discussed at the August 28, 2017 Study Session where the proposal to replace was brought to the Board. The source of funds for this purchase is the 2013 Bond.

We are proposing the replacement of the LMC A/C unit at Webster to Contract Mechanical, Macomb Township, Michigan, for a cost in the amount of \$27,500. This replacement was planned for the Summer 2018 Bond Renovations occurring at Webster. However, this unit failed during the past summer. The Bond Team has decided to replace this unit early, in an effort to ensure cooled air in the LMC and adjoining computer lab and offices this coming Spring. The same planned work for Summer 2018 will simply be performed this Fall instead.

Please contact me if you have questions.
