

MHS February Board Report

Our current enrollment is at 98

Our attendance for the month of February is: 86.84

We have had a bunch of sickness running through the school, some days as low as 55%

Within the High School:

We have received a commitment from MIC for a donation of materials for the CTE programs of up to \$15,000. Thank you to the Mayor and Frankie.

Our welding students took a field trip to JAG (VIGOR). Our students got to make vocational connections with the things that they are learning in class. While there, JAG donated more material for the welding class.

Eligibility has been difficult to navigate with issues wrapped around illness and family loss. We have navigated this in the best interest of our students.

The development of the secondary AR program continues to be a collaborative effort between DR. Taylor and myself. We continue to search for stability of student schedules and seek the least restrictive learning environment for our students involved in that programming.

I'm very proud of the High School staff in navigating some tough illnesses, professional issues, and staffing.

We are hosting a wilderness medical training on the 24th and 25th in the library. Thank you to Joe Henry for coordinating this opportunity for our students and community members. We have 11 students participating out of the 24 people.

Games this Thursday and Friday v. Haines. Senior night will be Friday night.

Spring break is next week, and with that we have Pep Band, Pep Club, Cheer, and both basketball teams traveling to Junea.

Please feel free to come to the office or call with any questions.

Mike
