11/1 Time 2 Read Fun Run

HES Homecoming Float

HHS Students helping on campus!

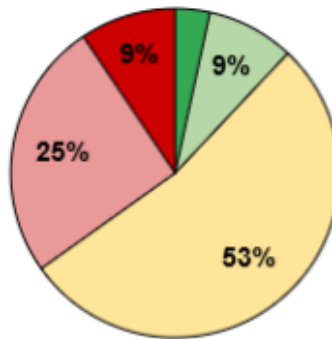

- This past week, our half-day of dedicated planning time allowed teachers to thoroughly review district-provided resources and select activities and materials that will best support our campus in achieving academic excellence. It also provided an opportunity for staff to develop instructional strategies that strengthen student learning. We encouraged all staff to use this time intentionally and productively to ensure that instructional practices remain aligned, rigorous, and impactful.
