
**BEAVERTON SCHOOL BOARD GOALS
AND STANDING COMMITTEES
2012-13**

Strategic Plan/Individual Student Growth

By December 2012, the Board shall agree with the Superintendent on a set of individual growth targets and a schedule by which to measure progress on the strategic plan's goal regarding student achievement. Once the targets are established, the Board and the Superintendent will develop and implement a communication plan that promotes understanding and collective responsibility among students, staff, parents and the community.

Community Engagement

1. Evaluate and support compliance with the new Community Engagement policies, including the school-based CEC responsibilities regarding community partnerships and volunteerism.
2. Reconfirm the Board's standing committee on Community Engagement, which shall prioritize and propose action items for the 2012-13 school year.
3. Meet Board performance standards with regard to school visits, with special attention to the effects of budget reductions. Share and discuss information at a future board meeting.

Funding

1. Advocate for stable and adequate state-wide funding for education. Meet with local legislators to discuss recent and future budget consequences.
2. Explore options for district-wide supplemental funding; determine best option(s) and timing.
3. Review policy and practice regarding school-based fundraising.
4. Evaluate and monitor compliance with the updated General Fund Contingency policy.

Board Development

Reconfirm the Board's standing committee on Board Development, which shall prioritize and propose action items for the 2012-13 school year.
