RE: Approval of Board Operating Procedures

Supporting Documents:

1. Board Operating Procedures

This item relates to Policy/Code (if any):

District Goals*:

Bottom of Form

Background Information:

Annually, school boards review and approve their board operating procedures. The operating procedures presented here were based on the Lonestar Governance model board operating procedures, and then edited with the input board members. These procedures can be changed at any time with a majority vote.

In order to clarify the procedures on livestreaming board workshops, I propose to add the following wording: "Regular school board meetings, Board Workshops, and any open meeting where the board conducts business in the form of a vote shall be livestreamed on the internet for the public to view."

Fiscal Implications:

None.

Administrative Recommendation:

We recommend that the board approve the board operating procedures as presented.

Motion Language:

I move that the board approve the Manor ISD Board Operating Procedures as submitted.
