February 2026 - Activities Director Board Report

This winter has been eventful for Hatchet Athletics and Activities, between dodging snow storms, sub-zero temperatures, and the numerous schedule changes and postponements, we have found ourselves on the homestretch of the Winter Activities Season. This winter has continued on the trend of numerous milestones being achieved both individually and team wise as we enter WIAA Post Season play.

Strategic Planning Update:

Please see the live working scorecard for the Activities Department. Key notes listed below:

- **Student-Academic Eligibility Goal:** Percentage of students who have received a failing grade is increased in the High School, but down overall in the district compared to the 2024 - 2025 school year. Still above the desired goal at the end of the year.
 - AD continues to send out notices of D/F list to Head coaches two weeks prior to grades.
 - The main core group of students are continually receiving F's and directly affecting the percentages.
- **Student-Engagement Surveys Goal:** Currently, percentage is above the goal for 2025 - 2026 school year through the completion of the fall activity season.
 - AD has followed the plan, and is getting the surveys out sooner to the students and multiple reminders in regards to filling out so their voices are heard.
- **Student-Participation Numbers Goal:** Currently, percentage is below the goal for 2025 - 2026 school year through the participation levels of clubs and winter athletics.
 - We have added a couple additional clubs for students this year.
 - We are noticing the nationwide trend of students really specializing which is limiting the other items they may want to participate in.
 - We have increased the number of dual sports athletes, and that has been going well.
- **Student Retention in Activities Goal:** Currently below our goal for the year due to a large number of students not returning to volleyball and girls' wrestling
 - Students who did not participate cite team culture and atmosphere resulting in a bad experience while participating.
- **New Coach / Coaching Document Goal:** On Going
 - Continuing to get items in order. I am seeing the same issues pop up in different ways that need to be addressed, such as solid team rules, how to use Activity Account money, and communication with parents / students.
- **Community Communication Goal:** On Going
 - Working on the full switch to Arbiter. Been starting to put the schedule in, learn the system, attending webinars on usage as it will change all the apps, websites, everything we are using for scheduling.
- **Open-Line Communication Goal:** On Going
 - Increased number of community adults / parents calling and filing complaints on Coaching in the District v. following procedure and having a conversation first with the Coaching Staff and their Child.
 - All Fall Coaching evaluations are completed.
- **Coaches / Advisor Satisfaction Goal:** Currently below the goal for the 2025 - 2026 season. As of right now anticipating 80.95% of Fall coaches returning next season to coach.
 - Continue with Head Coach evaluations and implementing the Open-Line Communication Goal so that our Coaches feel valued and their voices are heard.
 - In a bad cycle of parents moving up with their child and child's classes v. the School District hiring employees that want to Coach in our school and stay in those above pay positions.
