**Campus Events:**

We are excited to report that our campus took 2<sup>nd</sup> place overall at the most recent UIL competition this past weekend in Fredericksburg. We had many students that placed and lots of first place awards were earned by our students. We are grateful to Stephanie Broussard for coordinating the events and to all the teachers that coached the events.

Our campus checkpoint will take place on Tuesday, February 11. This is the 4-hour checkpoint, so admin has been preparing data, people to interview, etc. for the checkpoint.

We completed our lockdown drill last week and that was done in a quick and successful manner.

Benchmark testing will take place at the end of the month for math, reading, and science. We will have that along with TELPAS the week before. This will be run like a STAAR test in order to prepare students and teachers for the actual test that takes place later this semester. The data will be used to see areas where students are still struggling, where reteaches need to happen, who needs more tutorial time and how we may need to restructure some WIN groups. Teachers will take those low TEKS and determine the next steps.

NIS will celebrate Read Across America the first week of March. We will have activities planned for this week and every single student on our campus will receive a copy of the book "Mysteries According to Humphrey". Mrs. Sindt used money made from the bookfair to purchase these books for our students!

**Counselor's Corner:**

In February my lessons will focus on coping skills. I will be providing a school-wide lesson on the different types of coping skills and when and how to use them. Every Friday in February we will complete projects that support kindness in our school and community. Kindness Club is also going to create a daily kindness advent calendar for everyday in February, so we can complete kindness challenges as a campus. These will be announced each day on the morning announcements.

The February Leader in Me habit is Sharpen the Saw.
