## **INSTRUCTIONAL PROGRAM LIBRARY MEDIA CENTERS AND CLASSROOM LIBRARIES**

**MAY 22, 2023**

The Livonia Public Schools School District establishes library media centers to provide and promote the intellectual, cultural, social, and ethical development of students and to provide resources which extend and deepen the experiences encompassed in the curriculum. Library Media Center materials are determined through a process based on the American Libraries Association (ALA) guidance for selection of books and other materials of learning which contribute to the growth of individual students. Selection for classroom libraries follows the same guidance criteria.
