Notable Highlights

Students in 5th and 6th grades have been working on origami art projects and Mrs. Sandra Davis has been doing a great job with them. Plans are to have the students' origami projects displayed at ESC 20 in the near future.

Mrs. Cathy Lutz held a GEO Force meeting with 8th grade students and parents who were interested in the joint program between UT and SWTJC to get students involved in the geological sciences. Fourteen people attended the meeting and heard about the program's exciting opportunities.

Principal's General Narrative:

Teachers are working diligently to get the students prepared for the TAKS and SDAA exams coming up. The Intermediate and Jr. High teachers are dedicated to student success.

8th grade student Edward Solis is undergoing treatments Monday through Thursday for his cancer at the Methodist Children's Hospital. He will be at that facility for a good while.

Medina Children's Home has accepted one of our 8th grade students into their program for a second time. This is usually not the case.

Respectfully submitted, Stoney Burks
