AREA LEARNING CENTER & OPEN ENROLLED STUDENTS

Lakeview is committed to meeting the needs of all students. However, there are times when an alternate setting is a better fit for the student's needs. Students who attend an area learning center (ALC) with the intent of graduating under Lakeview requirements may attend before and after school events as a Lakeview student. These events include prom, senior excursion, and other class related events. However, ALC students are not allowed to attend school hour activities such as lyceums, homecoming/snow week events, etc. Students who are open enrolled in another district are always welcome to return to Lakeview; however, during their time of open enrollment, they are considered visiting students and therefore are not allowed to attend special school events before and after school unless invited by a Lakeview student per Lakeview Policy.

ATTENDANCE POLICY**A. Philosophy**

Learning is enhanced by regular attendance. The entire process of education requires continuity of instruction, classroom participation, learning experiences and study in order to reach the goal of maximum educational benefits for each individual student. The regular contact of students with the teacher and one another in the classroom and their participation enhances learning and enriches study in order to reach the goal of maximum educational benefits for each individual student; this regular contact and participation in developed instructional activities under the leadership of a competent teacher are vital to this purpose. This is a well-established principle of education which underlines and gives purpose to the requirements of compulsory education in Minnesota and every other state in the nation.

Absence from school can never really be made up. Success at school requires, like success at any job, promptness and dependability. Regular attendance at school is one of the most important items that will be recorded in your permanent record here at Lakeview School. It is checked by prospective employers and by schools to which you may be applying for admission. Attendance may be a deciding factor in securing a job you want, or in getting accepted at a school you want to attend.

B. Spin-Zone sponsored Awards

A local charitable organization, Spin-Zone, sponsors awards handed out at the end of the school year. As sponsor of these awards, the Spin-Zone founder is the creator and supporter of the guidelines delineated here. Awards will be given out for Positive Attitude, Excellence in Curriculum areas and the Outstanding Senior Award. The awards ceremony will take place outside of school hours.

GENERAL STATEMENT OF POLICY**A. Responsibilities.**

1. Student's Responsibility: It is the student's right to be in school. It is also the student's responsibility to attend all assigned classes and study halls every day school is in session and to be aware of and follow the correct procedures when absent from an assigned class or study hall. Finally, *it is the student's responsibility* to request any missed assignments due to an absence. Students should request work at the end of the class period, before school, or after school. The teacher's priority is the students who are present; student absences or requests for work should not interfere with classroom instruction. If a student becomes ill during the school day, parents will be notified and the student must sign out in the High School Office.

2. Parent or Guardian's Responsibility: It is the responsibility of the student's parent or guardian to ensure the student is attending school, to inform the school in the event of a student absence, and to work cooperatively with the school and the student to solve any attendance problems that may arise.

3. Teacher's Responsibility: It is the teacher's responsibility to take daily attendance and to maintain accurate attendance records in each assigned class and study hall. It is also the teacher's responsibility to be familiar with all procedures governing attendance and to apply these procedures uniformly. It is also the teacher's responsibility to provide any student who has been absent with any missed assignments upon request at the end of the class period, before, or after school. Finally, it is the teacher's responsibility to work cooperatively with the student's parent or guardian and the student to solve any attendance problems that may arise.

4. Administrator's Responsibility: It is the administrator's responsibility to require students to attend all assigned classes and study halls. It is the administrator's responsibility to be familiar with all procedures governing attendance and to apply these procedures uniformly to all students, to maintain accurate records on student attendance and to prepare a list of the previous day's absences stating the status of each. Finally, it is the administrator's responsibility to inform the student's parent or guardian of the student's attendance and to work cooperatively with them and the student to solve attendance problems.

5. In accordance with the Minnesota Compulsory Instruction Law, Minn. Stat. § 120A.22, the students of the school district are **REQUIRED** to attend all assigned classes and/or study halls every day school is in session, unless the student has been excused by the school board from attendance because the student has already completed the studies ordinarily required to graduate from high school, has withdrawn, or has a valid excuse for absence.

B. Definitions

1. Absence: A student is “absent” if he or she misses more than *fifteen minutes* of any scheduled class.
2. Unexcused Absence: An absence is unexcused unless a written note stating a *valid reason* is provided to the building principal/building principal’s secretary within two days of returning to school. For a list of approved absences, see page 9.
3. Tardy: A student is “tardy” if he or she enters class after the period was scheduled to begin and does not have a valid excuse or pass. See, also, Section VII, C, D below.

C. Consequences for unexcused absences and tardies

Presence and participation are directly related to academic performance and are essential components of a sound education. Tardiness and unexcused absence reflect, among other things, a lack of responsibility and a lack of academic effort on a student’s behalf. Learning is inevitably lost when a student fails to fully attend class. Additionally, the learning environment for all students may be disrupted. Regular attendance not only provides the foundation for achieving success as a high school student, but also for achieving success as an adult in the working world. **The primary responsibility for assuring that each student fully attends classes and acquires the knowledge and skills necessary for effective citizenship rests with the individual student and his or her parent/guardian.**

1. Unexcused tardies will be considered a Level I offense and be subject to the disciplinary action outlined on page 13 of this hand book. Work is expected to be turned in by the deadline established for the students in attendance.
2. Unexcused absences will be considered a Level II offense and be subject to the disciplinary action on page 13 of this hand book. Work is expected to be turned in by the deadline established for the students in attendance.
3. Extra-curricular participation may be impacted by poor attendance. Repeated attendance violations will be discussed with coaches/advisors and may result in inability to participate in activities.
4. Minnesota Compulsory Attendance Law requires that truancy be reported to law enforcement authorities. (Minn. Stat. 8120.103, subd. 5)

Subd. 19. Habitual Truant. “Habitual truant” means a child under the age of 16 years who is absent from attendance at school without lawful excuse for seven school days (per school year) if the child is in elementary school or for **one or more class periods on seven school days** (per school year) if the child is in middle school, junior high school, or high school, or a child who is 16 or 17 years of age who is absent from attendance at school without lawful excuse for one or more class periods on seven school days (per school year) and who has not lawfully withdrawn from school under section 120A.22, subdivision 8. Referral to county attorney will be made if habitual.

MAKE-UP POLICY

A. Excused Absences (unexpected) Students who miss class work (including assignments, labs, and exams) as a result of an unexpected excused absence will have an opportunity to make up the work. Students will receive credit for any work they make up. Failure to make up work will result in no credit being given for that work. Make up work is due to the instructor no later than two school days after the date of the absence. If the absence covers more than three consecutive days, the make up work is due to the instructor no later than five school days after the student returns to class. Exceptions to this rule may be granted if a student has missed more than ten consecutive school days because of an injury or illness or other condition beyond the student’s control. Exceptions must be cleared by the teacher and/or Principal.

B. Excused Absences (expected) Students who miss class work (including assignments, labs, and exams) as a result of an expected excused absence are expected to collect work *prior* to being gone and make appropriate arrangements with instructors for deadlines. In the case of extracurricular activities, family trips, etc. it is reasonable to expect work to be turned in prior to the absence.

C. Unexcused Absences Students who miss class work (including class assignments, labs, and exams) will be expected to complete the work and submit it by the class deadline.

CLASSIFICATION OF ABSENCES AND TARDIES

A. Excused Absences: With the exception of students who are emancipated from their parents, all students must provide the

building principal with a note which is signed by the student's parent/guardian and which states a valid reason for the absence. An advanced parent phone call is appreciated, but it should be followed with a note as stated above. An emancipated student is one who does not live with and also is not economically dependent upon his or her parent, a guardian, a family member or other adult. An emancipated student must also provide the building principal with a note stating a valid reason for the absence but may sign the note himself or herself. **If a student fails to provide the principal with such a note before or upon the student's return to school or within the next two school days, the absence will be counted as unexcused.** An absence will be excused if the student provides a timely note which is signed by a parent/guardian and states that the absence is/was the result of one of the following conditions:

1. A parent, guardian, or other person having control of a child may apply to a school district to have the child excused from attendance for the whole or any part of the time school is in session during any school year. Application may be made to any member of the board, a truant officer, a principal, or the superintendent. A note from a physician
2. Illness, injury, or hospitalization of the student.
3. Disability of the student. If a student suffers from a permanent or temporary disability which prevents the student from regular attendance, verification from the student's physician specifying the nature of the disability and the anticipated duration of the disabling condition will be required once per school year. For each absence, the student's parent must provide the building principal with a signed note verifying the reason for the absence.
4. Medical, dental, counseling (includes telehealth) and other professional appointments (not haircuts) which cannot be scheduled outside of school hours.
5. Family emergency, serious illness of family member, or death in the family.
6. Work at home. A student may be excused to work at home only when the student's assistance is essential to the family's welfare. **No more than two class periods in the same course will be allowed as excused absences for work during a quarter unless the building principal has a conference with the parent/guardian and determines that extra days are justified.**
7. Religious holidays or trips associated with a religious organization.
8. Attendance at a course of religious instruction for up to three hours each week as provided by Minn. Stat. 120.101, subd. 9(3). Before attending such a program, the parent/guardian must obtain permission from the School Board.
9. Mandatory court appearances.
10. Family trips taken with a parent if the principal, or principal's designee, has approved the trip or visit in advance. A maximum of five days in one quarter, not to exceed a total of ten days per school year, will be excused to permit a student to travel with a parent on a family trip. Parents are strongly encouraged to schedule such trips during school breaks and vacations. At the building principal's discretion, an absence for a family trip which exceeds five days may be counted as excused.
11. Compliance with any provision of a disabled student's Individual Education Program Plan or Section 504 Accommodation Plan.
12. Special education assessment performed by or at the direction of School District personnel.
13. Pre-approved testing, including college testing and military testing. Approval must be sought from the building principal at least twenty-four hours prior to the absence.
14. Any pre-approved absence which, in the principal's opinion, will provide educational value to the student including state fair trips, 4-H events, etc. Approval must be obtained from the building principal at least twenty-four hours prior to the absence.
15. Participation in a school-sponsored activity. Examples include, but are not limited to, absence from class in order to participate in a school-sponsored field trip, foreign exchange program, student council, Knowledge Bowl, athletic contest, fan bus for athletic contest, or school-sponsored music performance. **The student must have been in attendance for the three class periods preceding the school-sponsored event in order for participation to be considered to be excused.**
16. Work on an educational assignment or exam with another teacher in the building which spills over into another class period. In this instance, a note from the teacher rather than from the parent is required.
17. Visits to the principal's or assistant principal's office and scheduled visits to the office of the counselor or school social worker.
18. Suspensions. Absence from class as a result of an in-school or out-of-school suspension is counted as excused.

19. College visits must be approved in advance by the Guidance Counselor. Two college visits will be excused. Additional college visits will need Principal approval.

20. Active duty in any military branch of the United States.

21. that it is the wish of the parent, guardian, or other person having control of the child, that the child attend for a period or periods not exceeding in the aggregate three hours in any week, instruction conducted by a Tribal spiritual or cultural advisor, or a school for religious instruction conducted and maintained by a church, or association of churches, or any Sunday school association incorporated under the laws of this state, or any auxiliary thereof. This instruction must be conducted and maintained in a place other than a public school building, and it must not, in whole or in part, be conducted and maintained at public expense. A child may be absent from school on days

B. Unexcused Absences. Any absence which is not excused under this policy will be counted as unexcused. Oversleeping, a malfunctioning alarm clock, power outage, prom related activities, missing the bus, shopping, visiting friends, appointment at a tanning booth, haircuts, slow restaurant service, work, etc. are not a basis for an excused absence.

C. Excused Tardies. If a student is tardy to class but has a written note from a teacher, counselor, nurse, school psychologist, or school administrator, the tardy will be excused. If a student arrives to school late and has a valid excuse signed by a parent, a school administrator will provide the student with a written note excusing the tardy. An excuse signed by a parent will be deemed valid if it states that the student's tardiness was caused by one or more of the conditions, listed above, which give rise to an excused absence.

D. Unexcused Tardies. Any tardy which is not excused under this policy will be considered unexcused.

E. False Excuses. Any student who submits a false excuse or forges the signature of a parent/guardian or school personnel will be subject to disciplinary action.

F. Excessive Absences. Students who have been absent on a total of 10 days (example: missing 3rd period 10 times) will receive a letter concerning attendance. After missing a class(es) on 14 days, students will be required to present a physician's note; no other absences will be excused. All other absences will be unexcused and count towards habitual truancy. School activities do not count in absence total.

G. Returning to Class. Upon entering the building after being tardy or absent, students must sign in and pick up a pass or admit slip from the Secondary Office before reporting to class.

H. Leaving the Building. Students must have prior permission to leave school. That permission is granted by the Principal, his/her secretary, or the Principal's designated representative. Students are not allowed to come to the office and just "sign out." Notes from home must be brought to the Principal's office before class in the morning or a phone conversation must take place with a parent/guardian before a student is allowed to leave the building. Leaving the building without permission will result in disciplinary action.

I. Time for Time. Absence from school can never really be made up. However, Lakeview Public Schools believes in providing possibilities for recapturing such time as possible. This could include time before school, after school, or during a student's lunch period, as best determined by administration. In the case of seniors, this could result in the loss of open lunch privileges. Records of time owed will be maintained as best possible from the administrative office and shared with students regularly.

A tardy will result in an independent lunch session. An absence will result in two lunch sessions or time served before or after school at the discretion of administration. Series of tardies or absences could result in increased consequences.

THE APPEAL PROCESS

A. Appeal to Building Principal

Within five school days after being informed that an absence or tardy will be counted as unexcused, or within five days after receiving notice of an unexcused absence or unexcused tardies pursuant to section IV of this policy, the student or the student's parent/guardian may make a written request to the building principal, or designee, to schedule a conference to contest, or appeal, the classification of the absence or tardies. The student and the parent/guardian may examine the student's attendance record prior to attending the conference. Individuals who may attend the conference include, but are not limited to, the student, the parent/guardian, the building principal or administrative designee, and the teacher for the class in which the student was counted as having an unexcused absence or unexcused tardies. At the conference, the student and parent/guardian will have the opportunity to present any information relevant to the absences or tardies in question, including any extenuating circumstances. The building principal or administrative designee will provide the student and parent/guardian with written notice of the appeal decision within five school days of the conference. In the event that written notice is not sent within this time period, the

appeal to have the absence and/or tardies counted as excused will be deemed denied. If the principal has investigated the matter, this appeal process may be waived and appeal to the Superintendent may begin.

B. Appeal to Superintendent

A student or parent/guardian who is dissatisfied with the decision of the building principal or administrative designee may appeal the principal's decision to the Superintendent. The appeal must be made in writing within five school days of the principal's decision or, if the principal or administrative designee did not make a written decision, within ten school days of the conference with the principal or administrative designee. The written appeal to the Superintendent must state all facts upon which the appeal is based.

The Superintendent will make a final decision on whether the absence(s) and/or tardies will be counted as unexcused and, consequently, whether consequences will be enforced. The Superintendent's decision may be based upon all relevant evidence, including any written records pertaining to the student; any documents submitted by the student or the parent/guardian; discussions with the building principal or administrative designee, teachers, counselors, the parent/guardian, the student, and others. The Superintendent is not required to hold a conference with the student or the parent/guardian before issuing a decision on the appeal.

The Superintendent will make a decision in writing within five school days of receipt of the written appeal from the student or parent/guardian. In the event that the Superintendent fails to issue a written decision within this period, the appeal to have the absence(s) and/or tardies counted as excused will be deemed denied.

ACTIVITIES OR CLUBS

All students are encouraged to take part in as many extra-curricular activities as possible and are urged to participate in at least one activity outside the academic classroom.

Extra-curricular activities are provided to enrich the school academic program and fulfill the interests shown by the students. Participation in any activity is voluntary. The following activities are offered at Lakeview Secondary.

It is advised that managers and statisticians for fall and winter sports not be members of the band.

ADVISORY

Every junior high student will have an eighteen minute advisory period on a daily basis; senior high students not in band will have a daily advisory period. Senior high students in band, but not in choir will have a time following band similar to advisory period. The purpose of advisory is to establish another time to connect with a faculty member regarding such items as course planning, homework completion, class meetings, or other educational topics. It is not a free-for-all, anything-goes break

in the day. Prior to the school year, students are matched with a faculty advisor most suited to the upcoming year's needs. However, other teachers may communicate with students, requesting temporary advisory attendance for the reasons listed above. All reasonable requests from faculty advisors are to be honored or disciplinary consequences may be assigned.

ANNOUNCEMENTS

Each day the daily bulletin will be sent to each room electronically. This informs each of you of all the activities taking place that week. All students are responsible for all announcements listed on the TV Announcements, daily bulletin and by the intercom system. Students who want announcements to

be made must submit them to the Principal for approval by 8:30 a.m. Any announcement submitted by a student must be signed by the advisor of the group he/she represents. School bulletin boards are meant for school related activities. All notices placed on the school bulletin boards must first be approved by the administration. Announcements will also be on the TV's in the Commons Area.

CLASS DUES

Class Dues are used to support many activities throughout the school year including homecoming activities, dances, prom, and class trips. Failure of an individual to maintain current class dues will result in their exclusion of these events. The class treasurers are responsible for maintaining accurate records of dues paid. Dues, in the amount of \$25 per year, are highly recommended to be paid by the end of the first semester. Foreign exchange students are not required to pay class dues.

CLASS OFFICERS

Each class elects its own president, vice president, treasurer and secretary. Students interested in becoming a student council representative need to fill out an application and selection is made by a Selection Committee. All class organization income must go into the central student activity fund at the main office. The Superintendent has jurisdiction over all money spent. No money of classes, organizations, or groups shall be kept in any other depository. Class treasurers are responsible for collecting class dues and should check their class balance with the District Office Secretary.

CONTROLLED MATERIALS

Our School District personnel may apply pest control materials inside or on school grounds as needed.

Pest control materials are registered by the U.S. Environmental Protection Agency (EPA) and are selected and applied according to label directions. The long-term health effects on children from the application of such pest control materials, or the class of materials to which they belong, may not be fully understood.

An estimated schedule of interior pest control inspections and possible treatments is available for review or copying at each school office. Parents and students may request to receive, at their expense, prior notification of any application of a pest control material, should such an application be deemed necessary on a day different from the days specified in the schedule.

When students know better, they will be expected to do better. Expectations and consequences have been set forth governing the conduct of students while under school supervision have been instituted with the goal of providing a positive, safe, and caring learning environment. All Lakeview students and staff are expected to help promote this environment.

Unforeseen, inappropriate behaviors that arise will be placed in the appropriate level by the principal.

The fact that a student is in an extra curricular activity or is scheduled to work does not excuse him or her from staying

after school.

BULLYING

Bullying means intimidating, threatening, abusive or harming conduct that is objectively offensive and an actual or perceived imbalance of power exists, a pattern is formed, or materially and substantially interferes with a student's educational opportunities, performance, or ability to participate in school functions or activities.

Instances of bullying must be reported immediately, meaning as soon as possible, but in no event longer than 24 hours. This reporting can be done to the school social worker, guidance counselor, building principal, or through our anonymous Care Card reporting system. Care Cards can be found outside the offices of the social worker and guidance counselor. Additionally, you may click [here](#) for an electronic copy.

Because bullying often includes a pattern of behaviors, initial instances of bullying may be categorized according to the behaviors listed above, i.e. inappropriate language towards student, etc.

A copy of the full bullying policy of Lakeview Public Schools is attached as an appendix.

DISTANCE LEARNING

The Minnesota Department of Education Defines Distance Learning as:

Distance Learning Distance Learning defined: Students engaging in distance learning have access to appropriate educational materials and receive daily interaction with their licensed teacher(s). It is important to note that distance learning does not always mean e-learning or online learning. It is critical to provide this learning in a format that can be equitably accessed by all students. Minnesota Department of Education Guidance on Distance Learning MDE expects that students who participate in distance learning have full access to appropriate educational materials.

Distance Learning Days (Short Term School Closures 1- week or less):

Lakeview Public School is fortunate to be able to address a school closing through a Distance Learning. Distance Learning and the development of concrete schedules allows Lakeview to conduct Distance Learning Days as we would during distance learning. Distance Learning Days will be conducted during closing of school for inclement weather and safety is the prevailing factor in reaching this decision. After consultation with officials from the bus company and the neighboring school district superintendents, a decision on school closure is made as early as possible. It is important to note that when the school is closed it may continue to be considered a school day that counts toward student attendance. The decision to close school and conduct a Distance Learning Day will be communicated to you via the emergency messenger calling system, television, radio, the district website, email and/or school social media sites. Teachers will be available via through technological platforms from 8:45am - 3:45pm each Distance Learning Day.

Distance Learning Day (Long Term School Closure Longer than 1 School Week):

In the event of a long term closure detailed plans will be sent out by administration as soon as possible. These long term

closures may require planning days for staff. Lakeview Schools would follow any guidance from MDE when planning these days.

DRIVING AND PARKING CARS AND MOTORIZED VEHICLES – Students and staff must register vehicles in the Secondary Office.

Students who drive to school are asked to cooperate with the school by keeping their cars and motorized vehicles parked. Under no circumstances are students to use cars or motorized vehicles during the day without permission from the Principal or his designee. Any student(s) reported in violation of this policy will serve detention and lose privileges for a period of time. Student vehicles are to be parked in the main parking lot, in front of the building, within a lined parking spot, and in legal parking only. Parking in the fire lane, visitor, handicapped, or other inappropriate spots will result in consequences.

ELIGIBILITY FOR ACTIVITIES

All school activities, other than academic activities, operate under the code established by the Minnesota State High School League and rules established by the Lakeview School Board and School Administration. Examples of other than academic activities include: Enrichment Programs, Destination Imagination, Knowledge Bowl, Spelling Bee, Geography Bee, Art, Music Festival, and other special events.

A. Academic Eligibility

- i. Athletes must maintain academic eligibility to compete in interscholastic events.
- ii. Failing Grades: A student who has one or more failing grades on the most recent midterm or quarter report is ineligible for interscholastic competition for one week starting on Wednesday, 12:00 pm after the grades have been posted to the following Wednesday at 12:00 pm. After one week, if student progress is satisfactory in the class, eligibility will be restored. If not, the student shall remain ineligible for the next full week.
- iii. Incomplete Grades: A student who has one or more Incompletes on the most recent midterm or quarter report is ineligible for interscholastic events until all Incompletes are amended. If the incomplete becomes a failing grade, procedures for eligibility will follow item #2 above.
- iv. Restoring Eligibility. A student is responsible for picking up an eligibility form from the office, coach, or teacher and returning the completed form to the coach or advisor. The teacher will sign off to confirm satisfactory progress; when teachers issuing failing or incomplete grades have signed off, eligibility is restored. The student is responsible for picking up an eligibility form from the office. The student must receive signatures from his/her teacher confirming satisfactory grades have been obtained in their class. The student must turn in signed form to the Activities Director to have eligibility restored. The Activities Director will then inform coach of eligibility status of his/her player. If satisfactory grades have been obtained and form completed, the student will be eligible to participate after the next Wednesday, 12:00 pm. Otherwise, the student remains ineligible until the next Wednesday at 12:00 pm. Eligibility can be restored by the posting of the most recent midterm or quarter report.
- v. Carry Over. Ineligibilities shall carry over from the previous year (4th quarter marking period). A student, who chooses to go out for a fall sport to satisfy their ineligibility requirements, must stay active in that sport for the entire season. If said student quits after the ineligibility period, the ineligibility period will carry over to the next season. The ineligibility will begin on the first Wednesday, 12:00 pm, before the first scheduled event (including scrimmages).
- vi. Students who participate in only Category II activities shall be passing at the time of tryouts, or in the case of music, at the beginning of the grading

period. The students may not lose their eligibility in local music events such as holiday and mid-winter/spring concerts, but will lose eligibility for MSHSL sub-section, section, and state level music events. Students shall not lose eligibility in major drama performances provided they were eligible at the beginning of tryouts or the beginning of the quarter. Category II activities are defined as non-athletic activities.

B. Chemical Eligibility

The suspensions listed apply to alcohol, tobacco and controlled substances. For example, the first violation could be tobacco and the second an alcohol violation. All violations will be enforced on the basis of public performances. Possession of alcohol or tobacco will constitute a violation of this rule. Penalties shall be cumulative beginning with and running throughout the student's participation in activities in grades 9-12. School rules apply during the school year and before school starts at the same time as athletic practice starts. Eligibility is determined on a calendar basis. This means the rules apply all year long including summer vacation.

POLICY ON STUDENT DRUG AND ALCOHOL OFFENSES

No students shall distribute, possess, use, or be under the influence of any alcoholic beverage, malt beverage or fortified wine or other intoxicating-liquor or unlawfully manufacture, distribute, dispense, possess or use, or be under the influence of any narcotic drug, tobacco, e-cigarette/vaping, hallucinogenic drug, amphetamine, barbiturate, marijuana, anabolic steroid, or any other controlled substance, as defined in schedules I through V of section 202 of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation at 21 C.F.R. 1300.11 through 1200.15, before, during or after school hours, at school or in any other school district location as defined below.

"School district location" means in any school building or on any school premises; on any school-owned vehicle or in any other school approved vehicle used to transport students to and from school or school activities; off school property at any school-sponsored or school-approved activity, event or function, such as a field trip or athletic event, where students are under the jurisdiction of the school district.

A student who violates the terms of this policy will be subject to disciplinary action in accordance with the school district's discipline policy and may be suspended or expelled from school.

EMERGENCY DRILLS (A.L.I.C.E)

At Lakeview, the safety of our students, staff, and visitors is among our highest priorities. We work collaboratively to foster a safe, secure learning environment as we deliver on our mission to equip each student with the tools of life. District and school administrators, along with all staff, were trained in August of 2019 on a program called ALICE response. This is a less passive approach to a crisis situation that provides our staff more options based on the circumstances of the incident. The ALICE acronym stands for Alert, Lockdown, Inform, Counter and Evacuate. The threat of an active shooter or intruder in our schools is rare but, in today's society, a reality. Therefore, empowering our staff with proactive response strategies, rather than a passive one-size fits all approach is a positive change to our district's emergency response and crisis management plans. Ultimately, we hope to never have to utilize an emergency response plan, but in the event we do, please be assured that staff will be well prepared to act in the best interests and safety of our students.

What is A.L.I.C.E.?

A.L.I.C.E. is a school safety program created in year 2000 to offer additional options to students and staff in dealing with an armed intruder situation. Two of the individuals who founded and developed the program are long-term law enforcement professionals. A 30-year educational professional is a member of the team and works to ensure that A.L.I.C.E. teaching/training materials are age-appropriate, psychologically sound, and address the issues of individuals with special needs.

What do the letters stand for in the name A.L.I.C.E.?

A.L.I.C.E. is an acronym that stands for:

- ALERT: Get the word out that a threat exists.
- LOCKDOWN: Secure a place to stay as much as possible as a starting point to buy time.
- INFORM: Give constant, real-time information throughout the building using all available technology.
- COUNTER: This is a last resort. Individuals are unable to escape. Countering may be as simple as creating a distraction to allow opportunities to escape.

- **EVACUATE:** The goal is to move students out of the danger zone. It's important to be prepared to escape.

Why do we need to add anything more? Isn't it enough just to lock the building and keep students inside if someone is threatening them?

Traditionally, schools have used a procedure known as "lockdown" which essentially means locking the school building and classrooms and having students and teachers take shelter in their classroom. We believe that offering additional age-appropriate options will allow our students and teachers to be better prepared if a crisis situation occurs. Providing a constant flow of information to everyone in the building can allow opportunities to safely evacuate the building. Rescue by the police can take some time. An important goal of the A.L.I.C.E. program is to evacuate as many people as possible to a safe place.

How much time will the training take away from learning?

A.L.I.C.E. training will take place of the lockdown drills we've been doing. The length of the training time for students may range from 15 to 30 minutes, depending on the age of the students.

The purpose of all emergency drills is to teach self-control in a crisis so that a panic does not occur. Parents should discuss the importance of drills with students and stress that they should be taken seriously.

A. Fire Drill

The purpose is to get all students out of the building in an orderly fashion. Students should keep in line and follow their teacher. **DO NOT RUN!** Do not try to take coats, books, or materials with you. Further instructions will be given by your teachers and should be followed carefully. Fire drills will be held periodically without advance notice. All rooms have rules posted with instructions concerning fire exits.

B. Enhanced Lock Down Drill

A school lock down would occur when there is an intruder in the building, community emergency, or any other time administration feels it is necessary to keep students in their classrooms to ensure their safety. During a drill, students and/or staff in hallways enter the closest classroom, classroom doors are locked, and students will receive instruction from the staff in the classroom/area.

C. Secure Building Drill

A secure building would occur when there is a need to keep student in a classroom/area while something is occurring outside the rooms. (Examples: medical emergency, loss of power, law enforcement present)

D. Tornado Drill

In the event of a tornado students will be directed to the interior areas of the building. Teachers are to escort their students quickly and calmly to the directed area, sit down quietly and wait for further instructions.

E. Shelter-in-Place

In the event of a need to shelter within the building, students will be directed to the large gym. Teachers are to escort their students quickly and calmly to the directed area, sit quietly, and wait for further instructions.

FOOD AND DRINK

Beverages and food items are permitted in the school and students will clean up after themselves, if students fail to do so it will be a Level 1 offense. All staff and students are expected to keep the school clean.

FUNDRAISING

All fundraising activities conducted by student groups and organizations and/or parent groups must be approved in advance by filling out the fundraising form from the main office and approved administration.

Minnesota State Universities High School Preparation Requirements:

The State University Board has adopted a college-preparatory curriculum, which is recommended for study in grades 9 through 12. (The following curriculum is required for students who wish to attend state universities.) It is intended that the competencies gained through this required course of study will prepare secondary-school students for success in post-secondary education and will make it possible for these students to enter almost any degree program or career field without delay.

The required college-preparatory curriculum in Minnesota and many colleges is as follows:

****Four credits of ENGLISH, including writing, grammar, speech, listening, reading, and analysis of literature**

****Three credits of SCIENCE, including a lab science**

****Three credits of SOCIAL SCIENCE, including U.S. and World History and American Government**

****Three credits of MATHEMATICS, including Geometry and Algebra II**

****One credits of ARTS, which develop creative expression, including music, creative writing, drama, painting, drawing, or woodworking**

****Two credits of the same WORLD LANGUAGE – this means 2 consecutive year of the same language; for example 2 years of Spanish**

Additionally, the ACT test is required by most Minnesota colleges. Students are encouraged to take this test in April of their junior year.

Each state has different requirements. If you are thinking about out of state schools you need to consult your counselor or principal to make sure you meet the requirements of the school you wish to attend.

E. All students who graduate from Lakeview High School will have to pass the Minnesota Graduation Standards and the required credits as listed above as adopted by the Lakeview School District. Information regarding graduation requirements will be distributed to students each year and can be periodically checked with their advisor or the secondary principal. Seniors who graduate with a cumulative GPA of 3.700 and above will receive recognition for graduating with high academic honors. Seniors graduating with a cumulative GPA of 3.330 and above receive recognition for graduating with academic honors.

F. Graduation Ceremony Participation:

Participation in a graduation ceremony is a privilege and not a right. In order to be eligible to participate in the Lakeview High School graduation ceremony, students must have earned at least twenty-six (26) of the twenty-seven (27) total credits required for graduation. Students who are eligible to participate in commencement but who have not fulfilled all of the graduation requirements shall not receive their diplomas until they have earned twenty-seven (27) credits. Following graduation years will require participants to be within one credit of graduating in order to participate in commencement. To graduate, 27 credits will be required in 2015-16 and beyond. Additionally, in order to participate in the graduation ceremony, a student must attend the last semester of their senior year on campus at Lakeview. Extenuating circumstances, such as PSEO enrollment or a late move into the district, etc., are at the discretion of the principal. Valedictorian and Salutatorian student speakers will be identified at the end of the third quarter.

HALLWAYS

Hallways are to be kept clear of back packs, book bags, athletic bags, and other items. These items are to be placed in lockers. If the bag does not fit it, contents should be emptied and transferred to your locker so that the bag may then be placed in your locker as well. Items found in the hallway will be confiscated. Repeated violations will result in disciplinary action.

HEALTH OFFICE

Visit the Health Office website: <https://www.lakeview2167.com/students-and-parents/health-office> for up to date information and answers to frequently asked questions or contact the health office at: healthoffice@lakeview2167.com or 507-423-5164 ext. 1154.

Hours: Usually open during regular school hours and days. The health office is not open for after school activities. For emergencies after school, notify your coach, athletic trainer, or 911.

Overall Health and Safety at School:

The Health Office is generally open during regular school hours and days. However, Lakeview can NOT guarantee the availability of a nurse/provider for every bump, bruise, fall, scrape, collision, or mishap that occurs in school. There are multiple first aid kits located around the school and most of the staff are trained in first aid. They are also trained to handle many other emergencies like CPR, seizures, and allergic reactions. Minor injuries may be managed by self-care with the assistance of any staff member utilizing any of the first aid kits located around the school. The goal will be for the Health Office to also provide age appropriate first aid training for the students as time/staffing and class schedules permit.

More serious concerns and injuries will be evaluated in the Health Office or by a health professional. Parents are only notified if the injury requires more than basic first aid, if the injury requires monitoring or care at home, or if the student needs further evaluation/ treatment. For emergency care, the parent/guardian will be notified as soon as possible and a staff member will stay with the student until the parent arrives.

Parent(s)/Guardians are required to update their student's Health History yearly by completing...one of the following: the Online Registration in Parent-View, submitting a paper or electronic Health History Form, or providing a similar history form from their doctor or early childhood screening.

Updated vaccination records if any received in the last 12 months

Provide the last date of Eye, Hearing, and Dental screenings/exams done outside of school

If the student has ANY significant medical conditions, contact the Health Office and have a copy of the last provider's notes. Most complex medical issues, special diets, food allergies, etc. require YEARLY updates, paperwork, and discussions with the teachers/staff BEFORE the start of school.

Notifications should be done far in advance to allow for planning and training as needed to ensure a safe learning environment for the student.

Illness: See Also prior section on Illness and Injury

Parents/Guardians need to call in/email daily to the high school office to inform the secretary of the absence. The secretary will then pass on the information to the Health Office. Parents should also inform the bus garage if needed.

The Health Office is mandated by the state to track illness/symptom rates in the school. When you call or email, please provide the secretary with symptoms: fever, sore throat, headache, cough, vomiting, diarrhea, severe muscle aches, severe fatigue etc. Be as detailed as possible. If the student has had positive test results, please notify the secretary or the Health Office immediately. Your privacy is protected. In certain situations a report to the State Health Department is required but they will contact the family outside of school. Examples include Strep, influenza, COVID, measles, chicken pox, pertussis, salmonella, e. Coli etc.

To reduce the risk of spreading infection to the rest of the school...

Students who have symptoms of respiratory or gastrointestinal infections, such as cough, fever, sore throat, vomiting, or diarrhea, should stay home. (The first 5 days of illness are the most contagious).

Stay home until symptoms have significantly improved.

AND you can effectively participate in the school day.

AND, and you are fever free for at least 24 hours without fever reducing medications.

Currently there is no mandated quarantine or mask requirement. However, 5 days of isolation and a mask is recommended by the Centers for Disease Control for the above symptoms to help reduce spread of infections.

Test for COVID, Flu, RSV, Strep and other infections early in the illness. Treatment is sometimes available and can shorten the duration of the illness. (Submit those doctor's notes) If you have any positive results, please notify the health office.

If someone in your household is waiting on test results or tests positive for a viral illness monitor the rest of the family closely for symptoms. Infections are most contagious in the first few days so consider keeping the student home and/or wearing a mask even with minor symptoms.

Get vaccinated to help your body fight infections. However, vaccination status does not affect these guidelines.

Uncomfortable or new rash, student should stay at home until it has been evaluated and/or treatment is controlling the symptoms (stay home until symptoms have significantly improved and fever free, etc.)

If your child has strep throat, ear infection, eye infection, or other bacterial infection that requires antibiotics, they should be on antibiotics for a minimum of 24 hours before returning to school. (fever free 24 hours and symptoms significantly improved etc.)

A child with impetigo or an open wound must keep the wounds covered at all times while at school and at sports.

If a child has head/body lice, fleas, or bedbug bites, they may only return to school after their body has been treated with medicated shampoo/soap and/or their clothes/backpacks and household has also been treated.

For more information on a specific illness, get instructions from your medical provider, visit the Health Office website:

<https://www.lakeview2167.com/students-and-parents/health-office> or contact the Health Office directly at healthoffice@lakeview2167.com or 507-423-5164 ext. 1154. If you are unsure if your child should return to school after an illness, contact the Health Office or Elementary Office Secretary and do NOT send the student to school until you hear back from us.

A student will be sent home if they have fever/chills, vomiting, excessive diarrhea, or other symptoms that impair his/her ability to participate in class. Students may also be sent home for undiagnosed rashes or other infectious disease concerns. Each student is evaluated independently and the Health Office may contact the parent/guardian for further discussion.

Recurrent visits to the Health Office and excessive absences are taken into consideration. Students without fevers and only minor, resolving, or vague symptoms may be encouraged to stay. If that student decides to contact their parents and go home anyway, that absence may not be excused if that student already has excessive absences. Students are only allowed to go home ill after they are evaluated in the Health Office or in some cases they will be sent home by teaching or office staff. The Health Office, teacher, or other assigned staff will contact the parent/guardian. Students should not call their parents/guardians to go home directly, unless they have approval; doing so could result in an unexcused absence.

Ill students that can not drive will remain in the Health Office located in the Elementary Office until parents/guardians/emergency contact can pick them up. Students need to be picked up in a timely fashion. The offices are not routinely staffed past 3:30. Neither the school nor Palmer Bus Service can transport sick students. Please have transportation issues worked out in advance.

Students that are stable and able to drive home will be allowed to do so once parents/guardians have been contacted.

SCREENINGS

Screenings do not diagnose vision/hearing loss and they are not a substitute for a complete exam done by a specialist.

Screenings are meant only to catch losses that a child might not recognize as abnormal.

Vision screening is NOT recommended for children with known vision loss

glasses/contacts

medical condition/history frequently related to vision complications (ex. Diabetes, premature delivery)

who have active complaints such as eye pain, discharge, or blurry vision

Who have significant developmental delays or unable to follow directions to complete a matching game

These children should establish care or continue to see their outside eye doctor and supply the Health Office with the updated notes for the student's health records.

Hearing screening is NOT recommended for children with

Known hearing loss, hearing aides, cochlear implants

History of chronic ear infections and/or tubes and has not passed a formal hearing test by an audiologist previously

Medical condition/ history or family history associated with hearing loss

Has speech or developmental delays impairing his/her ability to follow instructions and give test responses

Suspect current hearing loss, ringing in the ears, ear pain, ear drainage etc.

These children should see their primary care provider, pediatrician, or ENT provider for a formal audiology referral. Copy of the results should be provided to the Health Office.

Per the Minnesota Department of Health, vision and hearing screening is not required in MN schools except for..

Children must have both hearing and vision screening at least one time before or shortly after starting kindergarten. This may have been done in early childhood (preschool) screening.

New students should have vision and hearing screening unless their records indicate they have had it done recently elsewhere.

Students being evaluated for special education/ Individualized Education Plans (unless they need to be referred for formal evaluations based on the criteria above)

As time and staffing permits, the Health Office staff may complete additional vision and hearing screening for students throughout the year, focusing on the younger students first. The general recommendations are to check vision in grades 1, 3, 5, 7 and 10. Hearing screening is recommended in grades 1, 3, 5, 8 and 11.

Parents may opt out of school screenings and obtain screenings elsewhere. The Health Office asks that you please provide the results on the updated health histories, in Parent-vue, or by forwarding to the health office.

MEDICATION

Medications are most safely given in the home setting. Your child should be medicated at home rather than at school for most acute illnesses. For example, if your child needs an antibiotic for an infection and the doctor has prescribed medication to be given three times a day, give one dose before school, one dose right after school, and one dose before bedtime. For ADHD meds, ask about long acting medication that can be taken before school.

Medications are stored in the Health Office. Medications that must be given during school hours will be administered by the Health Office Staff or school staff members trained to administer medications under the supervision of the Health Office Professional.

The Health Office staff will administer the medication according to the prescription and/or label. Therefore, it is the responsibility of the parent to ensure the Health Office receives updated orders/notes/prescription information to prevent errors. The Health Office reserves the right to refuse to accept/give a medication that is not properly labeled, if there are concerns about interactions, side effects, or dosage, or if further documentation/clarification is needed.

A Medication Administration Form must be completed for all medications (prescription, emergency, respiratory, and over-the-counter) to be given at school or that are left in the Health Office. The second page of the form is a permission form and should be completed yearly even if you do not leave any medication at school.

Please bring to the health office over-the-counter medications your child might need. Particularly if they are prone to indigestion, headaches, allergy congestion, eczema, hives, etc. If your child is not seriously ill, giving your child the same medication they normally get at home can help them stay in school.

High school students (7-12th grade) can carry and self administer small amounts of over-the-counter medication in their bag for personal use with their parent/guardian's signed permission on file in the Health Office. This needs to be updated yearly. (This is the second page of the medication administration form and can be done via on-line registration or by signing the paper form and emailing it or delivering it to one of the Health Offices.)

The student must keep the medication in its original container and use the medication responsibly in accordance with the label. Medications cannot list ephedrine or pseudoephedrine as the only or the primary active ingredient. Liquid cold medications are not permitted to be carried by the student. Cannabis (CBD, THC) containing products are prohibited.

The school district may revoke a student's privilege to possess and use non-prescription medications if the district determines that the student is abusing the privilege.

is underwritten by Security Life Insurance Company of America. The premium for this coverage for both the athletics and school coverage is payable by the parent. An information letter will be sent home at the beginning of the year and enrollments forms are available at the school. Athletic team members will be required to enroll in this program of sign a waiver form provided to them prior to the athletic season.

Access to the Internet enables students to explore thousands of libraries, databases, bulletin boards and other resources. It is the student's responsibility to use the internet appropriately. Each student must have an "Acceptable Use" form completed and on file each year. Failure to follow the rules listed on the "Acceptable Use" will result in restriction and/or suspension of lab privileges and may involve further consequences. In addition, the library may be used by students earning privileges during their free periods. Books must be checked out before being taken from the library. If books are not returned on time and in good condition, fines will be levied according to library policy. Students who receive failing grades on their report cards will not be allowed to use the library for recreational purposes. They may work on special research assignments with permission from the Principal or from the teacher who has given them the assignment. PSEO and MRVED students will be held to the same expectations as any other classroom. This includes the media center guidelines, electronic devices/cell phones and discipline policy.

LOCKERS

Lockers assigned to students are the property of the school. Any locker is subject to periodic inspection for cleanliness and may be entered by the principal or his designated representative at any time should it be suspected of containing alcohol, tobacco, narcotics, explosives or other items unlawfully obtained or considered potentially harmful to others or to the school building. Lockers may also be entered by the administration to recover property or to prevent disruption to the educational process. Lockers must be kept tidy at all times. Only school spirit promotion/ recognition memorabilia may be placed on the outside of lockers. Students are expected to use their assigned locker for the entire year. Teachers may recommend and/or deny a retake based on the prerequisite work and professional judgment. Teachers will provide timely feedback and facilitate the retake process fairly and consistently.

INCOMPLETE ASSIGNMENTS: Incomplete assignments are the responsibility of the student. Every effort must be made to finish incompletes before report cards are sent out. Incomplete assignments which have not been completed will be accessed as a zero, one week after the end of the grading period. Exceptions must make arrangements through the teacher and the Principal's office.

MEDICATION

Whenever possible, the parent or guardian should make arrangements so that it is not necessary for school personnel to administer medication at school. If your doctor recommends giving a medication at 8:00 a.m., 12:00, 4:00 p.m. and 8:00 p.m., ask him/her if the hours could be changed slightly to accommodate school hours. In many cases this is possible. However, there are cases when a student's health could be compromised by not getting medication at school. In those cases, prescription medication will be administered by school personnel, only with written instructions from the doctor and school nurse that this medication must be administered during school hours. The medication must be in a container labeled by the pharmacy or physician stating the child's name, the medication, the dosage and the physician's name. We also require that the medication be brought to school by a responsible adult. Students involved in self-medication must report this to the teacher, principal, or school nurse in order to make arrangements for storing the medication in a safe place. A parent's request must also accompany medication which will be self-administered. The school office will not furnish aspirin or Tylenol to students.

A. Student possession and use of asthma inhalers

In 1988, the legislature enacted a law that governed administration of drugs and medicines to students at school. Minn. Stat. 121A.22. This law required school boards to develop procedures for the administration of medication at schools which complied with the statute.

The 2001 Legislature amended the statute by adding prescription asthma inhalers to the list of drugs and medicines excluded from the statutory requirements.

B. Lakeview School District has adopted a Medication Policy, which among other things requires: "All medication except asthma inhalers approved by the school nurse, must be kept in the office." The School District will develop a procedure for the

school nurse to approve a student having an asthma inhaler at school. Lakeview Schools will arrange to have a school nurse or other appropriate individuals assess the student's knowledge and skills to safely use an asthma inhaler at school and enter into the student's record a plan to implement safe possession and use of the inhaler.

C. The health office hours are from 8:15-3:15, Monday through Friday, and can be reached at extension 1154 or the e-mail healthoffice@lakeview2167.com.

NATIONAL HONOR SOCIETY

Students are eligible to apply for acceptance to Lakeview Junior High and High School Honor Society if they have a cumulative GPA of 3.5 and are a 7th or 8th grader, or a sophomore, junior or senior. Students who meet the initial academic criteria of induction into the honor society will receive a letter inviting them to submit additional information if they wish to be considered for induction. If interested, the student may provide information explaining their qualities of leadership, service, and character. Those completing the information sheets will be screened by a faculty council of at least three secondary instructors, and the selection process will be completed. Individual students and their parents will be invited to a spring banquet for the induction ceremony. More information regarding this selection process may be gathered from the NHS/NJHS faculty advisor or the principal. Current NHS and NJHS membership rosters will be posted in the commons at the start of the school year.

PARENT-TEACHER CONFERENCES

Parent-Teacher Conferences will be held once a year in the fall so teachers can confer with parents. Each conference gives parents an excellent opportunity to discuss with their child's teacher his/her physical, emotional, social and educational needs and concerns. Students are encouraged to be active participants in their conference. Conference dates will be determined by the master calendar.

PARTIES AND SOCIAL FUNCTIONS

All class social events must be cleared through the class advisors and be approved by the administration. There are to be no school sponsored events (dances) during the week. All secondary school social events will end by 12:00 a.m.

PASSES

Students are not allowed in the corridors unless they have a properly signed building electronic pass and/or written pass. The building pass is to be used by all students leaving classes or study halls for other parts of the building. You should fill out the pass completely and ask the teacher in charge to authorize it. Out-of-the-building passes will only be issued out of the Principal's office. Both the Principal's Office and parent/guardian must grant permission before a student may leave the building.

PEP FESTS

- A. Academic: One time during the school year, the faculty may host an academic pep fest. The purpose of this pep fest is to recognize the previous year's academic successes of the students as well as those competitive activities that are not in the realm of athletic competitions. Additionally, the pep fest will serve as an encouraging event for students to do their best in any upcoming testing sessions.
- B. Athletic: During an athletic season, athletic pep fests may take place during the designated dress up week, homecoming or snow week, for all athletic contests during that week. Additionally, one athletic pep fest may take place during an athletic team's playoff run. Suggestions for the placement of this athletic pep fest include in preparation of a subsection, section, or state playoff game and will be discussed and approved by the Activities Director and building principal.

PICTURES

Individual student and group classroom pictures are taken during the year. Information will be sent to you before each picture day.

PLAYS

An All-School Play and one-act plays will be presented each year. The play is selected by the director and the cast is selected from the student body through tryouts.

PLEDGE OF ALLEGIANCE

Minnesota Statutes 121A.11 mandates that all public schools in Minnesota recite the Pledge of Allegiance weekly. "Anyone who does not wish to participate in reciting the Pledge of Allegiance for any personal reason may elect not to do so. Students must respect another person's right to make that choice."

POST SECONDARY ENROLLMENT OPTION - LAKEVIEW ACADEMY (PSEO) (COLLEGE NOW)

Any senior, junior or sophomore high school student interested in the Post-Secondary Enrollment Options program should check with the School Counselor for further information about our Lakeview Academy. Our academy is made up of College Now, Project Lead the Way and PSEO Courses in which students will earn college credit. You must be sure you will have adequate credits for high school graduation. All students must submit the Lakeview Academy Application by the deadline set to seek approval for all PSEO classes from the school counselor. Students must carry a minimum of 12 college credits while attending PSEO full time. PSEO students are encouraged to seek assistance from the teachers they know in-house. However, such assistance should not disrupt a regularly scheduled class or unduly inconvenience the in-house instructors. Additionally, PSEO students are encouraged to use the resources at the school such as the media center; in the event of use, a sign in sheet is located in the high school office for attendance accountability. If students leave the building for their PSEO opportunity, they will sign out and sign in according to procedure in the high school office. PSEO students will follow the Lakeview Add/Drop Policy. SAFETY AND SECURITY

In the summer of 2014, the Minnesota Legislation enacted the Safe and Supportive Schools Act; commonly, this is known as the bullying law. In compliance with this piece of legislation, the school board approved revised Policy #514 in July of 2014, which can be found on the school web site as well as in this document as an appendix. A paper copy can be made available upon request; further supporting documents are posted in the offices of the school as well on administrative web pages. In addition to these changes, in consultation with local law enforcement, the following directives are issued:

1. Backpacks, drawstring bags may be carried during the school day.
2. Earbuds/headphones are allowed in the building; however, due to safety recommendations, one ear should be uncovered/free at all times to hear teacher directives or public address announcements.

SCHEDULE CHANGES

Lakeview Public Schools strives to provide each student with a schedule meeting graduation requirements and the student's interests. Due to the work of the guidance counselor in the spring of the year, few schedule changes should be necessary once the semester has begun. However, with extenuating circumstances, a student will have the first five days to change their schedule. The change must be signed by the teachers the change will affect and the guidance counselor. A form for such a change will be available in the counselor's office.

SCHOOL CLOSINGS

In the event that a snowstorm or emergency arises during the day requiring school to be dismissed early, an attempt will be made to allow buses to leave soon enough to enable them to make their normal routes. If this is not feasible, children will stay at the homes designated on the Snow Home Form. All emergency announcements will be sent to families using the School Messenger System. Messages will be made by a phone call and email. Announcements will also be made on local radio and TV stations. The announcements will include the closing of school due to inclement weather, blocked or impassable roads, or failure at school building causing shut-down.

Students will not be allowed to be in the school hallways after 3:45pm. If they are waiting for practice or school activities the commons area is available.

SEARCHES

If a search yields contraband, school officials will seize the item(s) and, when appropriate, give the item(s) to legal officials for ultimate disposition. Travel provides a different educational setting which reinforces the information taught within the school walls. Additionally, life lessons such as cultural awareness, responsibility, budgeting, planning, and decision making are all part of a travel experience. Even though travel is viewed as important it also carries increased risk. Therefore, the district reserves the right to deny travel privileges of any kind if a student is in poor disciplinary standing with the district. Disciplinary standing will be determined by the principal using the following guidelines: 2 or more detentions within 9 weeks of the outing, in-school suspension within 9 weeks of the outing, or out-of-school suspension within 18 weeks of the outing. Extended travel requiring overnight stays carry additional risk; therefore the guideline is no behavior requiring any disciplinary action within 18 weeks of the event.

Chapter 183 – Student dismissal from School; Removal from class (Act effective August 1, 2001)

This Act revises the ground for Pupil Fair Dismissal Act for which a pupil may be dismissed from school. It provides that a pupil may be dismissed for willful conduct that significantly (rather than materially and substantially) disrupts the rights of others to an education, or disrupts the ability of school personnel to perform their duties, or disrupts school sponsored extra curricular activities. It also makes for willful conduct that endangers the pupil of other pupils, or surrounding persons, including school district employees, or property of the school a ground for dismissal.

The Act provides that if a pupil's total days of removal from school exceeds ten (10) cumulative days in a school year, the school district must make reasonable attempts to convene a meeting with the pupil and the pupil's parent or guardian prior to subsequently removing the pupil from school. The purpose of this meeting is to attempt to determine the pupil's need for assessment or other services.

The Act amends the law related to grounds for removal of a pupil from class. It provides that the required policy on removal from class must include a procedure for notifying and meeting with a student's parent or guardian to discuss the problem that is causing the student to be removed from class after the student has been removed from class more than ten (10) times in one school year. It also amends the grounds for removal from class to include willful conduct that significantly (rather than materially and substantially) disrupts the rights of others to an education, including conduct that interferes with a teacher's ability to teach or communicate effectively with students in a class or with the ability of other students to learn. It also makes willful conduct that endangers surrounding persons, including school district employees, the student or other students or the property of the school a ground from removal from class.

The purpose of this policy is to provide for a safe and healthful educational environment by enforcing the school district's policies against contraband.

II. GENERAL STATEMENT OF POLICY

A. Lockers and Personal Possessions within a Locker. Pursuant to Minnesota statutes, school lockers are the property of the school district. Inspection of the interior of lockers may be conducted by school authorities for any reason, at any time, without notice, without consent, and without a search warrant. The personal possessions of students within a school locker may be searched only when school authorities have a reasonable suspicion that the search will uncover evidence of a violation of law or school rules. As soon as practicable after the search of a student's personal possessions, the school authorities must provide notice of the search to students whose lockers were searched unless disclosure would impede an ongoing investigation by police or school officials.

B. Desks. Schools desks are property of the school district. At no time does the school district relinquish its exclusive control of desks provided for the convenience of students. Inspection of the interior of desks may be conducted by school authorities for any reason, at any time, without notice, without student consent, and without a search warrant.

C. Personal Possessions and Student's Person.

The personal possessions of students and/or student's person may be searched when school authorities have a reasonable suspicion that the search will uncover a violation of law or school rules. The search will be reasonable in its scope and intrusiveness.

It shall be a violation of this policy for student(s) to use lockers and desks for unauthorized purposes or to store contraband. It shall be a violation for student(s) to carry contraband on their person or in their personal possession.

III. DEFINITIONS

A. "Contraband" means any unauthorized item possession of which is prohibited by school district policy and/or law. It includes but is not limited to weapons and "look-alikes", alcoholic beverages, controlled substances and "look-alikes", overdue books and other materials belonging to the school district, and stolen property.

B." Personal possessions" includes but is not limited to purses, backpacks, book bags, packages, and clothing.

C." Reasonable suspicion" means that a school official has reason or grounds to believe that the search will result in evidence of a violation of school district policy, rules, and/or law. Reasonable suspicion may be based on a student's suspicious behavior, a student's age and past history or record of conduct, both in and out of the school context, or other reliable sources of information.

D." Reasonable scope" means that the scope and/or intrusiveness of the search is reasonably related to the objectives of the search. Factors to consider in determining what is reasonable include the seriousness of the suspected infraction, the reliability of the information, the necessity of acting without delay, the existence of exigent circumstances necessitating an immediate search and further investigation (e.g. to prevent violence, serious and immediate risk of harm or destruction of evidence), and the age of the student.

IV. PROCEDURES

A. School officials may inspect the interiors of lockers and desks for any reason at any time, without notice, without student consent, and without a search warrant.

B. School officials may inspect the personal possessions of student's and/or a student's person based on a reasonable suspicion that the search will uncover a violation of law or school rules. A search of personal possessions of a student and/or a student's person will be reasonable in its scope and intrusiveness.

C. As soon as practicable after a search of personal possessions within a locker pursuant to this policy, the school authorities must provide notice of the search to students whose possessions were searched unless disclosure would impede an on going investigation by police or school officials.

D. Whenever feasible, a search of a person shall be conducted in private by a school official of the same sex.

E. A school official conducting any other search may determine when it is appropriate to have a second official present as an observer.

E. A copy of this policy will be printed in the student handbook or disseminated in any other way which school officials deem appropriate. The school district shall provide a copy of this policy to a student when the student is given use of a locker.

V. DIRECTIVES AND GUIDELINES

School administration may establish reasonable directives and guidelines which address specific needs of the school district, such as use of tape in locker, standards of cleanliness and care, posting pin-ups and posters which may constitute sexual harassment, etc.

VI. SEIZURE OF CONTRABAND

If search yields contraband, school officials will seize the item, and where appropriate, turn it over to legal authorities of ultimate disposition.

VII. VIOLATION OF POLICY

A student found to have violated this policy and/or the directives and guidelines implementing it shall be subject to discipline in accordance with the school district's Student Discipline Policy, which may include exclusion, or expulsion, and the student may, when appropriate, be referred to legal authorities.

The purpose of this policy is to assure a safe school environment for students, staff and the public.

II. GENERAL STATEMENT OF POLICY

No student or nonstudent, including adults and visitors, shall possess, use or distribute a weapon when in a school location except as provided in this policy. The school district will act to enforce this policy and to discipline or take appropriate action against any student, teacher, administrator, school employee, volunteer, or member of the public who violates this policy.

III. DEFINITIONS

A. "Weapon"

1. A "weapon" means any object, device or instrument designed as a weapon or through its use is capable of threatening or producing bodily harm or which may be used to inflict self-injury including, but not limited to, any firearm, whether loaded or unloaded; airguns; pellet guns; BB guns; all knives; blades; clubs; metal knuckles; numchucks; throwing stars; explosives; fireworks; mace and other propellants; stunguns; ammunition; poisons; chains; arrows; and objects that have been modified to serve as a weapon.
2. No person shall possess, use or distribute any object, device or instrument having the appearance of a weapon and such objects, devices or instruments shall be treated as weapons including, but not limited to, weapons listed above which are broken or non-functional, look-alike guns; toy guns; and any object that is a facsimile of a real weapon.
3. No person shall use articles designed for other purposes (i.e., lasers or laser pointers, belts, combs, pencils, files, scissors, etc.), to inflict bodily harm and/or intimidate and such use will be treated as the possession and use of a weapon.

B. "School Location" includes any school building or grounds, whether leased, rented, owned or controlled by the school, locations of school activities or trips, bus stops, school buses or school vehicles, school-contracted vehicles, the area of entrance or departure from school premises or events, all locations where school-related functions are conducted, and anywhere students are under the jurisdiction of the school district.

C. "Possession" means having a weapon on one's person or in an area subject to one's control in a school location.

IV. EXCEPTIONS

A. A student who finds a weapon on the way to school or in a school location, or a student who discovers that he or she accidentally has a weapon in his or her possession, and takes the weapon immediately to the principal's office shall not be considered to possess a weapon. If it would be impractical or dangerous to take the weapon to the principal's office, a student shall not be considered to possess a weapon if he or she immediately turns the weapon over to an administrator, teacher or head coach or immediately notifies an administrator, teacher or head coach of the weapon's location.

B. It shall not be a violation of this policy if a non student falls within one of the following categories:

1. Licensed peace officers, military personnel, or students participating in military training, who are on duty performing official duties;
2. Persons authorized to carry a pistol under Minn. Stat., Section 624.714, while in a motor vehicle or outside of a motor vehicle for the purpose of directly placing a firearm in, or retrieving it from, the trunk or rear area of the vehicle;
3. Persons who keep or store in a motor vehicle pistols in accordance with Minn. Stat., Sections 624.714 or 624.715, or other firearms in accordance with Section 97B.045;
 - a. Section 624.714 specifies procedures and standards for obtaining pistol permits and penalties for the failure to do so. Section 624.715 defines an exception to the pistol permit requirements for "antique firearms which are carried or possessed as curiosities or for their historical significance or value."
 - b. Section 97B.045 generally provides that a firearm may not be transported in a motor vehicle unless it is (1) unloaded and in a gun case without any portion of the firearm exposed; (2) unloaded and in the closed trunk; or (3) a handgun carried in compliance with Sections 624.714 and 624.715.
4. Firearm safety or marksmanship courses or activities conducted on school property;

8. Persons who are on unimproved property owned or leased by a child care center, school or school district unless the person knows that a student is currently present on the land for a school-related activity.

F. Policy Application to Instructional Equipment/Tools

While the school district takes a firm "Zero Tolerance" position on the possession, use or distribution of weapons by students, and a similar position with regard to non students, such a position is not meant to interfere with instruction or the use of appropriate equipment and tools by students or non students. Such equipment and tools, when properly possessed, used and stored, shall not be considered in violation of the rule against the possession, use or distribution of weapons. However, when authorized instructional and work equipment and tools are used in a potentially dangerous or threatening manner, such possession and use will be treated as the possession and use of a weapon.

E. Firearms in School Parking Lots and Parking Facilities

A school district may not prohibit the lawful carry or possession of firearms in a school parking lot or parking facility. For purposes of this policy, the “lawful” carry or possession of a firearm in a school parking lot or parking facility is specifically limited to non student permit-holders authorized under Minn. Stat., Section 624.714, to carry a pistol in the interior of a vehicle or outside the motor vehicle for the purpose of directly placing a firearm in, or retrieving it from, the trunk or rear area of the vehicle. Any possession or carry of a firearm beyond the immediate vicinity of a permit-holder’s vehicle shall constitute a violation of this policy.

V. CONSEQUENCES FOR STUDENT WEAPON POSSESSION / USE / DISTRIBUTION

A. The school district and the school takes a position of “Zero Tolerance” in regard to the possession, use or distribution of weapons by students. Consequently, the minimum consequence for students possessing, using or distributing weapons shall include:

1. Immediate out-of-school suspension;
2. Confiscation of the weapon;
3. Immediate notification of police;
4. Parent or guardian notification; and
5. Recommendation to the superintendent of dismissal for a period of time not to exceed one year.

B. Pursuant to Minnesota law, a student who brings a firearm, as defined by federal law, to school will be expelled for at least one year. The school board may modify this requirement on a case-by-case basis.

C. Administrative Discretion

While the school district and the school takes a “Zero Tolerance” position on the possession, use or distribution of weapons by students, the superintendent may use discretion in determining whether, under the circumstances, a course of action other than the minimum consequences specified above is warranted. If so, other appropriate action may be taken, including consideration of a recommendation for lesser discipline.

VI. CONSEQUENCES FOR WEAPON POSSESSION/USE/DISTRIBUTION BY NONSTUDENTS

A. Employees

1. An employee who violates the terms of this policy is subject to disciplinary action, including non renewal, suspension, or discharge as deemed appropriate by the school board.
2. Sanctions against employees, including non renewal, suspension, or discharge shall be pursuant to and in accordance with applicable statutory authority, collective bargaining agreements, and school district policies.
3. When an employee violates the weapons policy, law enforcement may be notified, as appropriate.

B. Other Non students

1. Any member of the public who violates this policy shall be informed of the policy and asked to leave the school location. Depending on the circumstances, the person may be barred from future entry to school locations. In addition, if the person is a student in another school district, that school district may be contacted concerning the policy violation.
2. If appropriate, law enforcement will be notified of the policy violation by the member of the public and may be asked to provide an escort to remove the member of the public from the school location.

514 BULLYING PROHIBITION POLICY

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student’s ability to learn and/or a teacher’s ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the

educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by either an individual student or a group of students, is expressly prohibited on school premises, on school district property, at school functions or activities, or on school transportation. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources.
- B. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate bullying.
- C. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.
- D. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
- E. False accusations or reports of bullying against another student are prohibited.
- F. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures, including the school district's discipline policy (See MSBA/MASA Model Policy 506). The school district may take into account the following factors:
 - 1. The developmental ages and maturity levels of the parties involved;
 - 2. The levels of harm, surrounding circumstances, and nature of the behavior;
 - 3. Past incidences or past or continuing patterns of behavior;
 - 4. The relationship between the parties involved; and
 - 5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.

- G. The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

For purposes of this policy, the definitions included in this section apply.

- A. “Bullying” means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:
1. an actual or perceived imbalance of power exists between the student engaging in the prohibited conduct and the target of the prohibited conduct, and the conduct is repeated or forms a pattern; or
 2. materially and substantially interferes with a student’s educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges.

The term, “bullying,” specifically includes cyberbullying as defined in this policy.

- B. “Cyberbullying” means bullying using technology or other electronic communication, including, but not limited to, a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network Internet website or forum, transmitted through a computer, cell phone, or other electronic device. The term applies to prohibited conduct which occurs on school premises, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists, or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.

- C. “Immediately” means as soon as possible but in no event longer than 24 hours.

- D. “Intimidating, threatening, abusive, or harming conduct” means, but is not limited to, conduct that does the following:

1. Causes physical harm to a student or a student’s property or causes a student to be in reasonable fear of harm to person or property;
2. Under Minnesota common law, violates a student’s reasonable expectation of privacy, defames a student, or constitutes intentional infliction of emotional distress against a student; or
3. Is directed at any student or students, including those based on a person’s actual or perceived race, ethnicity, color, creed, religion, national origin, immigration status, sex, marital status, familial status, socioeconomic status, physical appearance, sexual orientation including gender identity and expression, academic status related to student performance, disability, or status with regard to public assistance, age, or any additional characteristic defined in the Minnesota Human Rights Act (MHRA). However, prohibited conduct need not be based on any particular characteristic defined in this paragraph or the MHRA.

- E. “On school premises, on school district property, at school functions or activities, or on school transportation” means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for school district purposes, the area of entrance or departure from school grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student’s walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.

- F. “Prohibited conduct” means bullying or cyberbullying as defined in this policy or retaliation or reprisal for asserting, alleging, reporting, or providing information about such conduct or knowingly making a false report about bullying.
- G. “Remedial response” means a measure to stop and correct prohibited conduct, prevent prohibited conduct from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of prohibited conduct.
- H. “Student” means a student enrolled in a public school or a charter school.

IV. REPORTING PROCEDURE

- A. Any person who believes he or she has been the target or victim of bullying or any person with knowledge or belief of conduct that may constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report bullying anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The school district encourages the reporting party or complainant to use the report form available “Care Card” from the principal, counselor, social worker, or available on the school district website, but oral reports shall be considered complaints as well.
- C. The building principal or the principal’s designee (hereinafter the “building report taker”) is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any person may report bullying or other prohibited conduct directly to a school district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the school district shall be responsible for the investigation. The building report taker shall provide information about available community resources to the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.

- D. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.
- E. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.
- F. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant’s or reporter’s future employment, grades, work assignments, or educational or work environment.
- G. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district’s obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

V. SCHOOL DISTRICT ACTION

- A. Within three days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.
- B. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.
- C. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy (See Lakeview School District Policy 506) and other applicable school district policies; and applicable regulations.
- E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.
- F. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

VII. TRAINING AND EDUCATION

- A. The school district shall discuss this policy with school personnel and volunteers and provide appropriate training to school district personnel regarding this policy. The school district shall establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed

school personnel must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.

- B. The school district shall require ongoing professional development, consistent with Minn. Stat. § 122A.60, to build the skills of all school personnel who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to, the following:
 - 1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;
 - 2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct;
 - 3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school;
 - 4. The incidence and nature of cyberbullying; and
 - 5. Internet safety and cyberbullying.
- C. The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.
- D. The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.
- E. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

- 1. Engage all students in creating a safe and supportive school environment;
- 2. Partner with parents and other community members to develop and implement prevention and intervention programs;
- 3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;
- 4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person;
- 5. Teach students to advocate for themselves and others;

6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct; and
 7. Foster student collaborations that, in turn, foster a safe and supportive school climate.
- F. The school district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.
 - G. The school district shall inform affected students and their parents of rights they may have under state and federal data practices laws to obtain access to data related to an incident and their right to contest the accuracy or completeness of the data. The school district may accomplish this requirement by inclusion of all or applicable parts of its protection and privacy of pupil records policy (See MSBA/MASA Model Policy 515) in the student handbook.

VIII. NOTICE

- A. The school district will give annual notice of this policy to students, parents or guardians, and staff, and this policy shall appear in the student handbook.
- B. This policy or a summary thereof must be conspicuously posted in the administrative offices of the school district and the office of each school.
- C. This policy must be given to each school employee and independent contractor who regularly interacts with students at the time of initial employment with the school district.
- D. Notice of the rights and responsibilities of students and their parents under this policy must be included in the student discipline policy (See MSBA/MASA Model Policy 506) distributed to parents at the beginning of each school year.
- E. This policy shall be available to all parents and other school community members in an electronic format in the language appearing on the school district's or a school's website.
- F. The school district shall provide an electronic copy of its most recently amended policy to the Commissioner of Education.

IX. POLICY REVIEW

To the extent practicable, the school board shall, on a cycle consistent with other school district policies, review and revise this policy. The policy shall be made consistent with Minn. I. PURPOSE

The purpose of this policy is to ensure that students are aware of and comply with the school district's expectations for student conduct. Such compliance will enhance the school district's ability to maintain discipline and ensure that there is no interference with the educational process. The school district will take appropriate disciplinary action when students fail to adhere to the Code of Student Conduct established by this policy.

II. GENERAL STATEMENT OF POLICY

The school board recognizes that individual responsibility and mutual respect are essential components of the educational process. The school board further recognizes that nurturing the maturity of each student is of primary importance and is closely linked with the balance that must be maintained between authority and self-discipline as the individual progresses from a child's dependence on authority to the more mature behavior of self-control.

All students are entitled to learn and develop in a setting which promotes respect of self, others and property. Proper positive discipline can only result from an environment which provides options and stresses student self-direction, decision-making and responsibility. Schools can function effectively only with internal discipline based on mutual understanding of rights and responsibilities.

Students must conduct themselves in an appropriate manner that maintains a climate in which learning can take place. Overall decorum affects student attitudes and influences student behavior. Proper student conduct is necessary to facilitate the education process and to create an atmosphere conducive to high student achievement.

Although this policy emphasizes the development of self-discipline, it is recognized that there are instances when it will be necessary to administer disciplinary measures. It is the position of the school district that a fair and equitable district-wide student discipline policy will contribute to the quality of the student's educational experience. This discipline policy is adopted in accordance with and subject to the Minnesota Pupil Fair Dismissal Act, Minn. Stat. §§ 121A.40-121A.56.

In view of the foregoing and in accordance with Minn. Stat. § 121A.55, the school board, with the participation of school district administrators, teachers, employees, students, parents, community members, and such other individuals and organizations as appropriate, has developed this policy which governs student conduct and applies to all students of the school district.

Any guidelines or directives established to implement this policy shall be submitted to the school board for approval and shall be attached as an addendum to this policy.

C. Principal. The school principal is given the responsibility and authority to formulate building rules and regulations necessary to enforce this policy, subject to final school board approval. The principal shall give direction and support to all school personnel performing their duties within the framework of this policy. The principal shall consult with parents of students conducting themselves in a manner contrary to the policy. The principal shall also involve other professional employees in the disposition of behavior referrals and shall make use of those agencies appropriate for assisting students and parents. E. Other School District Personnel. All school district personnel shall be responsible for contributing to the atmosphere of mutual respect within the school. Their responsibilities relating to student behavior shall be as authorized and directed by the superintendent. A school employee, school bus driver, or other agent of a school district, in exercising his or her lawful authority, may use reasonable force when it is necessary under the circumstances to restrain a student or prevent bodily harm or death to another.

F. Parents or Legal Guardians. Parents and guardians shall be held responsible for the behavior of their children as determined by law and community practice. They are expected to cooperate with school authorities and to participate regarding the behavior of their children.

Lakeview students are expected to treat people, property, and themselves with respect. Students and staff are encouraged to help those engaging in inappropriate behavior by identifying the disrespectful action(s) to the attention of the student acting inappropriately. - H. The fact that a student is in an extra curricular activity or is scheduled to work does not excuse him or her from staying after school.

VII. REMOVAL OF STUDENTS FROM CLASS

A. Teachers have the responsibility of attempting to modify disruptive student behavior by such means as conferring with the student, using positive reinforcement, assigning detention or other consequences, or contacting the student's parents. When such measures fail, or when the teacher determines it is otherwise appropriate based upon the student's conduct, the teacher shall have the authority to remove the student from class pursuant to the procedures established by this discipline policy. "Removal from class" and "removal" mean any actions taken by a teacher, principal, or other school district employee to prohibit a student from attending a class or activity period for a period of time not to exceed five (5) days, pursuant to this discipline policy.

Grounds for removal from class shall include any of the following:

1. Willful conduct that significantly disrupts the rights of others to an education, including conduct that interferes with a teacher's ability to teach or communicate effectively with students in a class or with the ability of other students to learn;
2. Willful conduct that endangers surrounding persons, including school district employees, the student or other students, or the property of the school;
3. Willful violation of any school rules, regulations, policies or procedures, including the Code of Student Conduct in this policy; or
4. Other conduct, which in the discretion of the teacher or administration, requires removal of the student from class.

Such removal shall be for at least one (1) activity period or class period of instruction for a given course of study and shall not exceed five (5) such periods.

B. If a student is removed from class more than ten (10) times in a school year, the school district shall notify the parent or guardian of the student's tenth removal from class and make reasonable attempts to convene a meeting with the student's parent or guardian to discuss the problem that is causing the student to be removed from class.

[Note: The following Sections C. - K. must be developed and inserted by each school district based upon individual district practices, procedures and preferences.]

C. Procedures for Removal of a Student From a Class.

1. In the event a student needs to be removed from class, the teacher will first direct the student to report to the office. The office staff will be notified via phone that the student is on his or her way to the office. If no phone contact is made, an e-mail will be sent to office staff and administration, notifying that the student will be in the office area. If the student is non-compliant in this request, administration will be called to assist in removing the student from the classroom. Failure to comply with administration may result in other actions including, but not limited to, continued monitoring and additional consequences for insubordination, the CASH Team, removal of the rest of the students, and/or law enforcement.

2. Before removing a student from the classroom setting, teachers will evaluate the educational environment to determine the best course of action, not only for the individual student, but for the classroom as a whole. The removed student will still have the opportunity to work on schoolwork and responsibility to complete that schoolwork.
 3. The removal of a student from the classroom setting will be recorded in the online behavior system.
- D. Responsibility for and Custody of a Student Removed From Class.
1. A student will go to the office area when removed from a class.
 2. Students will walk to the office area.
 3. This walk to the office area may occur independently; however, in other cases, a teacher escort or administrative escort may be provided. In rare cases, the CASH Team will assist in this transportation.
 4. When removed, the student will share the events leading up to the removal from class; after sharing this information, the student may be allowed time to regather his or her composure. Additionally, the student is still responsible for school work. Time in the office may be used for that purpose.
 5. When a student is removed from a classroom, the administrator or his or her designee has control and responsibility for the student.
- E. Procedures for Return of a Student to a Class From Which the Student Was Removed.
1. During the time spent in the office, the student will be interviewed by administration or an administrative designee. This conference will include an evaluation of the student's ability to reenter a classroom setting. If a student is unable to reenter the classroom setting, administration or the administrative designee will provide a quiet study area for the student and continue to monitor the student's progress towards classroom reentry.
- F. Procedures for Notification.
1. In the event of a classroom removal, information will be recorded in the online behavior management system.
- G. Disabled Students; Special Provisions.
1. If a disabled student were to be removed from the classroom setting, the student's case manager would be consulted immediately regarding the situation and be called in for interview, intervention, and consultation.
 2. During that work, the consulting team will determine a need for an IEP review, Behavior Plan creation or revision, or other appropriate action.
- H. Procedures for Detecting and Addressing Chemical Abuse Problems of Students While on School Premises.
1. Anyone who suspects chemical abuse by students while on school premises should immediately report to a school administrator. School administration or their designee will contact the student's parents/guardians.
 2. Law Enforcement may be notified if chemical use is suspected or confirmed by school administration. A secured building may be necessary to provide law enforcement the proper time and space to perform required duties.
- I. Procedures for Immediate and Appropriate Interventions Tied to Violations of the Code of Student Conduct.
1. As part of the student interview process, administration or the administrative designee will assist the student in formulating scenario actions alternative to what had happened.

2. Additional conversations between the student and teacher may occur, facilitated by the administrator or administrative designee.

3. A plan of future action may be developed collaboratively with the student and administrator or administrative designee.

J. Any Procedures Determined Appropriate for Encouraging Early Involvement of Parents or Guardians in Attempts to Improve a Student's Behavior.

1. Teachers are encouraged to maintain open communication with parents from the start of the school year regarding academic progress as well as behavior in the classroom.

2. Teachers and administrators will keep records of student behaviors in the online system.

3. Parents are encouraged to monitor academic progress and behavior notes on a regular basis through the parent portal online system.

VIII. DISMISSAL

A. "Dismissal" means the denial of the current educational program to any student, including exclusion, expulsion and suspension. Dismissal does not include removal from class.

The school district shall not deny due process or equal protection of the law to any student involved in a dismissal proceeding which may result in suspension, exclusion or expulsion.

The school district shall not dismiss any student without attempting to provide alternative educational services before dismissal proceedings, except where it appears that the student will create an immediate and substantial danger to self or to surrounding persons or property.

B. Violations leading to suspension, based upon severity, may also be grounds for actions leading to expulsion, and/or exclusion. A student may be dismissed on any of the following grounds:

1. Willful violation of any reasonable school board regulation, including those found in this policy;

2. Willful conduct that significantly disrupts the rights of others to an education, or the ability of school personnel to perform their duties, or school sponsored extracurricular activities; or

3. Willful conduct that endangers the student or other students, or surrounding persons, including school district employees, or property of the school.

C. Suspension Procedures

1. "Suspension" means an action by the school administration, under rules promulgated by the School Board, prohibiting a student from attending school for a period of no more than ten (10) school days; provided, however, if a suspension is longer than five (5) school days, the suspending administrator shall provide the superintendent with a reason for the longer term of suspension. This definition does not apply to dismissal for one (1) school day or less, except as may be provided in federal law for a student with a disability.

2. If a student's total days of removal from school exceed ten (10) cumulative days in a school year, the school district shall make reasonable attempts to convene a meeting with the student and the student's parent or guardian before subsequently removing the student from school and, with the permission of the parent or guardian, arrange for a mental health screening for the student at the parent or guardian's expense. The purpose of this meeting is to attempt to determine the pupil's need for assessment or other services or whether the parent or guardian should have the student assessed or diagnosed to determine whether the student needs treatment for a mental health disorder.

3. Each suspension action may include a readmission plan. The plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission which must not be used to extend the current suspension. A readmission plan must not obligate a parent or guardian to provide psychotropic drugs to their student as a condition of

readmission. School administration must not use the refusal of a parent or guardian to consent to the administration of psychotropic drugs to their student or to consent to a psychiatric evaluation, screening, or examination of the student as a ground, by itself, to prohibit the student from attending class or participating in a school-related activity, or as a basis of a charge of child abuse, child neglect, or medical or educational neglect. The school administration may not impose consecutive suspensions against the same student for the same course of conduct, or incident of misconduct, except where the student will create an immediate and substantial danger to self or to surrounding persons or property or where the school district is in the process of initiating an expulsion, in which case the school administration may extend the suspension to a total of fifteen (15) days.

4. In the case of a student with a disability, the student's individual education plan team shall meet immediately but not more than ten (10) school days after the date on which the decision to remove the student from the student's current education placement is made. The individual education plan team must review all relevant information in the student's file to determine if the conduct in question was (i) caused by, or had a direct and substantial relationship to, the child's disability, or (ii) the direct result of the school's failure to implement the individual education plan.

The requirements of the individual education plan team meeting apply when: (1) the parent requests a meeting; (2) the student is removed from the student's current placement for five (5) or more consecutive days; or (3) the student's total days of removal from the student's placement during the school year exceed ten (10) cumulative days in a school year. The school administration shall implement alternative educational services when the suspension exceeds five (5) days. A separate administrative conference shall be conducted for each period of suspension.

5. The school administration shall implement alternative educational services when the suspension exceeds five (5) days. Alternative educational services may include, but are not limited to, special tutoring, modified curriculum, modified instruction, other modifications or adaptations, instruction through electronic media, special education services as indicated by appropriate assessments, homebound instruction, supervised homework, or enrollment in another district or in an alternative learning center under Minn. Stat. § 123A.05 selected to allow the pupil to progress toward meeting graduation standards under Minn. Stat. § 120B.02, although in a different setting.

6. The school administration shall not suspend a student from school without an informal administrative conference with the student. The informal administrative conference shall take place before the suspension, except where it appears that the student will create an immediate and substantial danger to self or to surrounding persons or property, in which case the conference shall take place as soon as practicable following the suspension. At the informal administrative conference, a school administrator shall notify the student of the grounds for the suspension, provide an explanation of the evidence the authorities have, and the student may present the student's version of the facts. A separate administrative conference is required for each period of suspension.

7. After school administration notifies a student of the grounds for suspension, school administration may, instead of imposing the suspension, do one or more of the following:

a. strongly encourage a parent or guardian of the student to attend school with the student for one day;

b. assign the student to attend school on Saturday as supervised by the principal or the principal's designee; and

c. petition the juvenile court that the student is in need of services under Minn. Stat. Ch. 260C.

8. A written notice containing the grounds for suspension, a brief statement of the facts, a description of the testimony, a readmission plan, and a copy of the Minnesota Pupil Fair Dismissal Act, Minn. Stat. §§ 121A.40-121A.56, shall be personally served upon the student at or before the time the suspension is to take effect, and upon the student's parent or guardian by mail within forty-eight (48) hours of the conference. (See attached sample Notice of Suspension.)

9. The school administration shall make reasonable efforts to notify the student's parent or guardian of the suspension by telephone as soon as possible following suspension.

10. In the event a student is suspended without an informal administrative conference on the grounds that the student will create an immediate and substantial danger to surrounding persons or property, the written notice shall be served upon the

student and the student's parent or guardian within forty-eight (48) hours of the suspension. Service by mail shall be complete upon mailing.

11. Notwithstanding the foregoing provisions, the student may be suspended pending the school board's decision in an expulsion or exclusion proceeding, provided that alternative educational services are implemented to the extent that suspension exceeds five (5) days.

D. Expulsion and Exclusion Procedures

1. "Expulsion" means a school board action to prohibit an enrolled student from further attendance for up to twelve (12) months from the date the student is expelled. The authority to expel rests with the school board.

2. "Exclusion" means an action taken by the school board to prevent enrollment or re-enrollment of a student for a period that shall not extend beyond the school year. The authority to exclude rests with the school board.

3. All expulsion and exclusion proceedings will be held pursuant to and in accordance with the provisions of the Minnesota Pupil Fair Dismissal Act, Minn. Stat. §§121A.40-121A.56.

4. No expulsion or exclusion shall be imposed without a hearing, unless the right to a hearing is waived in writing by the student and parent or guardian.

5. The student and parent or guardian shall be provided written notice of the school district's intent to initiate expulsion or exclusion proceedings. This notice shall be served upon the student and his or her parent or guardian personally or by mail, and shall contain a complete statement of the facts; a list of the witnesses and a description of their testimony; state the date, time and place of hearing; be accompanied by a copy of the Pupil Fair Dismissal Act, Minn. Stat. §§ 121A.40-121A.56; describe alternative educational services accorded the student in an attempt to avoid the expulsion proceedings; and inform the student and parent or guardian of their right to: (1) have a representative of the student's own choosing, including legal counsel at the hearing; (2) examine the student's records before the hearing; (3) present evidence; and (4) confront and cross-examine witnesses. The school district shall advise the student's parent or guardian that free or low-cost legal assistance may be available and that a legal assistance resource list is available from the Minnesota Department of Education (MDE).

6. The hearing shall be scheduled within ten (10) days of the service of the written notice unless an extension, not to exceed five (5) days, is requested for good cause by the school district, student, parent or guardian.

7. All hearings shall be held at a time and place reasonably convenient to the student, parent or guardian and shall be closed, unless the student, parent or guardian requests an open hearing.

8. The school district shall record the hearing proceedings at district expense, and a party may obtain a transcript at its own expense.

9. The student shall have a right to a representative of the student's own choosing, including legal counsel, at the student's sole expense. The school district shall advise the student's parent or guardian that free or low-cost legal assistance may be available and that a legal assistance resource list is available from MDE. The school board may appoint an attorney to represent the school district in any proceeding.

10. If the student designates a representative other than the parent or guardian, the representative must have a written authorization from the student and the parent or guardian providing them with access to and/or copies of the student's records.

11. All expulsion or exclusion hearings shall take place before and be conducted by an independent hearing officer designated by the school district. The hearing shall be conducted in a fair and impartial manner. Testimony shall be given under oath and the hearing officer shall have the power to issue subpoenas and administer oaths.

12. At a reasonable time prior to the hearing, the student, parent or guardian, or authorized representative shall be given access to all school district records pertaining to the student, including any tests or reports upon which the proposed dismissal action may be based.

13. The student, parent or guardian, or authorized representative, shall have the right to compel the presence of any school district employee or agent or any other person who may have evidence upon which the proposed dismissal action may be based, and to confront and cross-examine any witnesses testifying for the school district.

14. The student, parent or guardian, or authorized representative, shall have the right to present evidence and testimony, including expert psychological or educational testimony.
15. The student cannot be compelled to testify in the dismissal proceedings.
16. The hearing officer shall prepare findings and a recommendation based solely upon substantial evidence presented at the hearing, which must be made to the school board and served upon the parties within two (2) days after the close of the hearing.
17. The school board shall base its decision upon the findings and recommendation of the hearing officer and shall render its decision at a meeting held within five (5) days after receiving the findings and recommendation. The school board may provide the parties with the opportunity to present exceptions and comments to the hearing officer's findings and recommendation provided that neither party presents any evidence not admitted at the hearing. The decision by the school board must be based on the record, must be in writing, and must state the controlling facts on which the decision is made in sufficient detail to apprise the parties and the Commissioner of Education (Commissioner) of the basis and reason for the decision.
18. A party to an expulsion or exclusion decision made by the school board may appeal the decision to the Commissioner within twenty-one (21) calendar days of school board action pursuant to Minn. Stat. § 121A.49. The decision of the school board shall be implemented during the appeal to the Commissioner.
19. The school district shall report any suspension, expulsion or exclusion action taken to the appropriate public service agency, when the student is under the supervision of such agency.
20. The school district must report, through the MDE electronic reporting system, each expulsion or exclusion within thirty (30) days of the effective date of the action to the Commissioner. This report must include a statement of alternative educational services given the student and the reason for, the effective date, and the duration of the exclusion or expulsion. The report must also include the student's age, grade, gender, race, and special education status. The dismissal report must include state student identification numbers of affected students.
21. Whenever a student fails to return to school within ten (10) school days of the termination of dismissal, a school administrator shall inform the student and his/her parent or guardian by mail of the student's right to attend and to be reinstated in the school district.

IX. ADMISSION OR READMISSION PLAN

A school administrator shall prepare and enforce an admission or readmission plan for any student who is excluded or expelled from school. The plan may include measures to improve the student's behavior, including completing a character education program consistent with Minn. Stat. § 120B.232, Subd. 1, and require parental involvement in the admission or readmission process, and may indicate the consequences to the student of not improving the student's behavior. The readmission plan must not obligate parents to provide a sympathomimetic medication for their child as a condition of readmission.

X. NOTIFICATION OF POLICY VIOLATIONS

Notification of any violation of this policy and resulting disciplinary action shall be as provided herein, or as otherwise provided by the Pupil Fair Dismissal Act or other applicable law. The teacher, principal or other school district official may provide additional notification as deemed appropriate.

XI. STUDENT DISCIPLINE RECORDS

It is the policy of the school district that complete and accurate student discipline records be maintained. The collection, dissemination, and maintenance of student discipline records shall be consistent with applicable school district policies and federal and state law, including the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13.

XII. DISABLED STUDENTS

Students who are currently identified as eligible under the IDEA or Section 504 will be subject to the provisions of this policy, unless the student's IEP or 504 plan specifies a necessary modification.

Where a student is dismissed for five (5) or more consecutive days, or has accumulated more than ten (10) days of dismissal over the course of the school year, the school district will convene a meeting to determine whether the student's educational program is appropriate and to review all relevant information in order to determine whether the behavior subject to discipline is a manifestation of the student's disability. Such a meeting must be held within ten (10) school days of the school district's decision to remove the student from his or her current educational placement and must be held before commencing an expulsion or exclusion of the student. If the student's educational program is appropriate and the behavior is not a manifestation of the student's disability, the school district will proceed with discipline – up to and including expulsion – as if the student did not have a disability, unless the student's educational program provides otherwise. If the team determines that the behavior subject to discipline is a manifestation of the student's disability, the team shall conduct a functional behavioral assessment and implement a behavioral intervention plan for such student provided that the school district had not conducted such assessment prior to the manifestation determination before the behavior that resulted in a change of placement. Where a behavioral intervention plan previously has been developed, the team will review the behavioral intervention plan and modify it as necessary to address the behavior. If the student was placed in a 45-day interim alternative educational setting pending the manifestation determination, the student will be returned to the placement from which the student was removed unless the student and school district agree to a change of placement as part of the modification of the behavioral intervention plan.

When a student who has an IEP is excluded or expelled for misbehavior that is not a manifestation of the student's disability, the school district shall continue to provide special education and related services during the period of expulsion or exclusion.

XIII. OPEN ENROLLED STUDENTS

The school district may terminate the enrollment of a nonresident student enrolled under an Enrollment Option Program (Minn. Stat. § 124D.03) or Enrollment in Nonresident District (Minn. Stat. § 124D.08) at the end of a school year if the student meets the definition of a habitual truant, the student has been provided appropriate services for truancy (Minn. Stat. Ch. 260A), and the student's case has been referred to juvenile court. The school district may also terminate the enrollment of a nonresident student over the age of seventeen (17) enrolled under an Enrollment Options Program if the student is absent without lawful excuse for one or more periods on fifteen (15) school days and has not lawfully withdrawn from school.

XIV. DISTRIBUTION OF POLICY

The school district will notify students and parents of the existence and contents of this policy in such manner as it deems appropriate. Copies of this discipline policy shall be made available to all students and parents at the commencement of each school year and to all new students and parents upon enrollment. This policy shall also be available upon request in each principal's office.

XV. REVIEW OF POLICY

The principal and representatives of parents, students and staff in each school building shall confer at least annually to review this discipline policy, determine if the policy is working as intended, and to assess whether the discipline policy has been enforced. Any recommended changes shall be submitted to the superintendent for consideration by the school board, which shall conduct an annual review of this policy.

A. Any person who believes he or she has been the target or victim of harassment or violence on the basis of Protected Class by a student, teacher, administrator, or other school district personnel, or any person with knowledge or belief of conduct which may constitute harassment or violence prohibited by this policy toward a student, teacher, administrator, or other school district personnel or group of students, teachers, administrators, or other school district personnel should report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report conduct that may constitute harassment or violence anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.

B. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or

available from the school district office, but oral reports shall be considered complaints as well.

C. Nothing in this policy shall prevent any person from reporting harassment or violence directly to a school district human rights officer or to the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

D. In Each School Building. The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving oral or written reports of harassment or violence prohibited by this policy at the building level. Any adult school district personnel who receives a report of harassment or violence prohibited by this policy shall inform the building report taker immediately. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant. The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as a primary contact on policy and procedural matters.

E. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include acts of harassment or violence. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute harassment or violence shall make reasonable efforts to address and resolve the harassment or violence and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute harassment or violence or who fail to make

413-6
reasonable efforts to address and resolve the harassment or violence in a timely manner may be subject to disciplinary action.

F. Upon receipt of a report, the building report taker must notify the school district human rights officer immediately, without screening or investigating the report. The building report taker may request, but may not insist upon, a written complaint. A written statement of the facts alleged will be forwarded as soon as practicable by the building report taker to the human rights officer. If the report was given verbally, the building report taker shall personally reduce it to written form within 24 hours and forward it to the human rights officer. Failure to forward any harassment or violence report or complaint as provided herein may result in disciplinary action against the building report taker.

G. In the District. The school board hereby designates as the school district human rights officer(s) to receive reports or complaints of harassment or violence prohibited by this policy. If the complaint involves a human rights officer, the complaint shall be filed directly with the superintendent.¹

H. The school district shall conspicuously post the name of the human rights officer(s), including mailing addresses and telephone numbers.

I. Submission of a good faith complaint or report of harassment or violence prohibited by this policy will not affect the complainant or reporter's future employment, grades, work assignments, or educational or work environment.

J. Use of formal reporting forms is not mandatory.

K. Reports of harassment or violence prohibited by this policy are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law.

L. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's legal obligations to investigate, to take appropriate action, and to comply with any discovery or disclosure obligations.

M. Retaliation against a victim, good faith reporter, or a witness of violence or harassment is prohibited.

N. False accusations or reports of violence or harassment against another person are

prohibited.

O. A person who engages in an act of violence or harassment, reprisal, retaliation, or false reporting of violence or harassment, or permits, condones, or tolerates

413-7

violence or harassment shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures.

Consequences for students who commit, or are a party to, prohibited acts of violence or harassment or who engage in reprisal or intentional false reporting may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion.

Consequences for employees who permit, condone, or tolerate violence or harassment or engage in an act of reprisal or intentional false reporting of violence or harassment may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of violence or harassment may include, but not be limited to, exclusion from school district property and events and/or termination of services and/or contracts.

V. INVESTIGATION

A. By authority of the school district, the human rights officer, within three (3) days of the receipt of a report or complaint alleging harassment or violence prohibited by this policy, shall undertake or authorize an investigation. The investigation may be conducted by school district officials or by a third party designated by the school district.

B. The investigation may consist of personal interviews with the complainant, the individual(s) against whom the complaint is filed, and others who may have knowledge of the alleged incident(s) or circumstances giving rise to the complaint. The investigation may also consist of any other methods and documents deemed pertinent by the investigator.

C. In determining whether alleged conduct constitutes a violation of this policy, the school district should consider the surrounding circumstances, the nature of the behavior, past incidents or past or continuing patterns of behavior, the relationships between the parties involved, and the context in which the alleged incidents occurred. Whether a particular action or incident constitutes a violation of this policy requires a determination based on all the facts and surrounding circumstances.

D. In addition, the school district may take immediate steps, at its discretion, to protect the target or victim, the complainant, and students, teachers, administrators, or other school district personnel pending completion of an investigation of alleged harassment or violence prohibited by this policy.

E. The alleged perpetrator of the act(s) of harassment or violence shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.

413-8

F. The investigation will be completed as soon as practicable. The school district human rights officer shall make a written report to the superintendent upon completion of the investigation. If the complaint involves the superintendent, the report may be filed directly with the school board. The report shall include a determination of whether the allegations have been substantiated as factual and whether they appear to be violations of this policy.

VI. SCHOOL DISTRICT ACTION

A. Upon completion of an investigation that determines a violation of this policy has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline

prohibited behavior. School district action taken for violation of this policy will be consistent with requirements of applicable collective bargaining agreements, Minnesota and federal law, and applicable school district policies and regulations.

B. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the targets or victims and alleged perpetrators of harassment or violence, the parent(s) or guardian(s) of targets or victims of harassment or violence and the parent(s) or guardian(s) of alleged perpetrators of harassment or violence who have been involved in a reported and confirmed harassment or violence incident of the remedial or disciplinary action taken, to the extent permitted by law.

C. In order to prevent or respond to acts of harassment or violence committed by or directed against a child with a disability, the school district shall, where determined appropriate by the child's individualized education program (IEP) or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in acts of harassment or violence.

VII. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, or other school district personnel who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged harassment or violence prohibited by this policy, who testifies, assists, or participates in an investigation of retaliation or alleged harassment or violence, or who testifies, assists, or participates in a proceeding or hearing relating to such harassment or violence. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the harassment or violence. Remedial responses to the harassment or violence shall be 413-9

tailored to the particular incident and nature of the conduct.

VIII. RIGHT TO ALTERNATIVE COMPLAINT PROCEDURES

These procedures do not deny the right of any individual to pursue other avenues of recourse which may include filing charges with the Minnesota Department of Human Rights or another state or federal agency, initiating civil action, or seeking redress under state criminal statutes and/or federal law.

IX. HARASSMENT OR VIOLENCE AS ABUSE

A. Under certain circumstances, alleged harassment or violence may also be possible abuse under Minnesota law. If so, the duties of mandatory reporting under Minnesota Statutes Chapter. 260E may be applicable.

B. Nothing in this policy will prohibit the school district from taking immediate action to protect victims of alleged harassment, violence, or abuse.

X. DISSEMINATION OF POLICY AND TRAINING

A. This policy shall be conspicuously posted throughout each school building in areas accessible to students and staff members.

B. This policy shall be given to each school district employee and independent contractor who regularly interacts with students at the time of initial employment with the school district.

C. This policy shall appear in the student handbook.

D. The school district will develop a method of discussing this policy with students and employees.

E. The school district may implement violence prevention and character development education programs to prevent and reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, resourcefulness, and/or sexual abuse prevention.

F. This policy shall be reviewed at least annually for compliance with state and federal law.

514 BULLYING PROHIBITION POLICY

[Note: School districts are required by statute to have a policy addressing bullying.]

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by either an individual student or a group of students, is expressly prohibited:
1. on the school premises, at the school functions or activities, on the school transportation;
 2. by the use of electronic technology and communications on the school premises, during the school functions or activities, on the school transportation, or on the school computers, networks, forums, and mailing lists; or
 3. by use of electronic technology and communications off the school premises to the extent such use substantially and materially disrupts student learning or the school environment.
- B. A school-aged child who voluntarily participates in a public school activity, such as a cocurricular or extracurricular activity, is subject to the policy provisions applicable to the public school students participating in the activity.
- C. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources. This policy also applies to sexual exploitation.
- D. Malicious and sadistic conduct involving race, color, creed, national origin, sex, age, marital status, status with regard to public assistance, disability, religion, sexual harassment, and sexual orientation and gender identity as defined in Minnesota Statutes, chapter 363A is prohibited. This prohibition applies to students, independent contractors, teachers, administrators, and other school personnel.
- Malicious and sadistic conduct and sexual exploitation by a school district or school staff member, independent contractor, or enrolled student against a staff member, independent contractor, or student that occurs as described in Article II.A above is prohibited.
- E. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate bullying.
- F. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.
- G. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
- H. False accusations or reports of bullying against another student are prohibited.
- I. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures, including the school district's discipline policy (See MSBA/MASA Model Policy 506). The school district may take into account the following factors:
1. The developmental ages and maturity levels of the parties involved;
 2. The levels of harm, surrounding circumstances, and nature of the behavior;
 3. Past incidences or past or continuing patterns of behavior;
 4. The relationship between the parties involved; and
 5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based

developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.

J. The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

For purposes of this policy, the definitions included in this section apply.

A. “Bullying” means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:

1. an actual or perceived imbalance of power exists between the student engaging in the prohibited conduct and the target of the prohibited conduct, and the conduct is repeated or forms a pattern; or
2. materially and substantially interferes with a student’s educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges.

The term “bullying” specifically includes cyberbullying, malicious and sadistic conduct, and sexual exploitation.

B. “Cyberbullying” means bullying using technology or other electronic communication, including, but not limited to, a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network Internet website or forum, transmitted through a computer, cell phone, or other electronic device. The term applies to prohibited conduct which occurs on school premises, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists, or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.

C. “Immediately” means as soon as possible but in no event longer than 24 hours.

D. “Intimidating, threatening, abusive, or harming conduct” means, but is not limited to, conduct that does the following:

1. Causes physical harm to a student or a student’s property or causes a student to be in reasonable fear of harm to person or property;

However, prohibited conduct need not be based on any particular characteristic defined in this paragraph or the MHRA.

E. “Malicious and sadistic conduct” means creating a hostile learning environment by acting with the intent to cause harm by intentionally injuring another without just cause or reason or engaging in extreme or excessive cruelty or delighting in cruelty.

F. “On school premises, on school district property, at school functions or activities, or on school transportation” means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for school district purposes, the area of entrance or departure from school grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student’s walking route to or from school for purposes of

attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.

G. “Prohibited conduct” means bullying, cyberbullying, malicious and sadistic conduct, sexual exploitation, or retaliation or reprisal for asserting, alleging, reporting, or providing information about such conduct or knowingly making a false report about prohibited conduct.

H. “Remedial response” means a measure to stop and correct prohibited conduct, prevent prohibited conduct from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of prohibited conduct.

I. “Student” means a student enrolled in a public school or a charter school.

IV. REPORTING PROCEDURE

A. Any person who believes he or she has been the target or victim of bullying or any person with knowledge or belief of conduct that may constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report bullying anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.

B. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available in the school district office, but oral reports shall be considered complaints as well.

C. The building principal, the principal’s designee, or the building supervisor (hereinafter the “building report taker”) is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any person may report bullying or other prohibited conduct directly to a school district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the school district shall be responsible for the investigation. The building report taker shall provide information about available community resources to the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.

D. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.

E. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.

F. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant’s or reporter’s future employment, grades, work assignments, or educational or work environment.

G. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district’s obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

V. SCHOOL DISTRICT ACTION

A. Within three days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.

B. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.

C. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.

D. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy (See MSBA/MASA Model Policy 506) and other applicable school district policies; and applicable regulations.

E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.

F. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

VII. TRAINING AND EDUCATION

A. The school district shall discuss this policy with school personnel and volunteers and provide appropriate training to school district personnel regarding this policy. The school district shall establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed school personnel must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.

B. The school district shall require ongoing professional development, consistent with Minnesota Statutes section 122A.60, to build the skills of all school personnel who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to, the following:

1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;
2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct;

3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school;

4. The incidence and nature of cyberbullying; and

5. Internet safety and cyberbullying.

C. The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.

D. The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.

E. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

1. Engage all students in creating a safe and supportive school environment;

2. Partner with parents and other community members to develop and implement prevention and intervention programs;

3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;

4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person;

5. Teach students to advocate for themselves and others;

6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct; and

7. Foster student collaborations that, in turn, foster a safe and supportive school climate.

F. The school district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.

G. The school district shall inform affected students and their parents of rights they may have under state and federal data practices laws to obtain access to data related to an incident and their right to contest the accuracy or completeness of the data. The school district may accomplish this requirement by inclusion of all or applicable parts of its protection and privacy of pupil records policy (See MSBA/MASA Model Policy 515) in the student handbook.

VIII. NOTICE

A. The school district will give annual notice of this policy to students, parents or guardians, and staff, and this policy shall appear in the student handbook.

- B. This policy must be conspicuously posted throughout each school building, in the administrative offices of the school district, and in the office of each school.
- C. This policy must be distributed to each school district or school employee and independent contractor at the time of hiring or contracting.
- D. Notice of the rights and responsibilities of students and their parents under this policy must be included in the student discipline policy (See MSBA/MASA Model Policy 506) distributed to parents at the beginning of each school year.
- E. This policy shall be available to all parents and other school community members in an electronic format in the language appearing on the school district's or a school's website.
- F. Each school must develop a process for discussing this policy with students, parents of students, independent contractors, and school employees.
- G. The school district shall provide an electronic copy of its most recently amended policy to the Minnesota Commissioner of Education.

IX. POLICY REVIEW

To the extent practicable, the school board shall, on a cycle consistent with other school district policies, review and revise this policy. The policy shall be made consistent with Minnesota Statutes, sections 121A.031 and 121A.0312 and other applicable law. Revisions shall be made in consultation with students, parents, and community organizations.

I. PURPOSE

The school district recognizes its responsibility in regard to the collection, maintenance, and dissemination of pupil records and the protection of the privacy rights of students as provided in federal law and state statutes.

II. GENERAL STATEMENT OF POLICY

The following procedures and policies regarding the protection and privacy of parents and students are adopted by the school district, pursuant to the requirements of 20 United States Code, section 1232g, et seq., (Family Educational Rights and Privacy Act (FERPA)) 34 Code of Federal Regulations part 99 and consistent with the requirements of the Minnesota Government Data Practices Act, Minnesota Statutes, chapter 13, and Minnesota Rules, parts 1205.0100-1205.2000.

III. DEFINITIONS

A. Authorized Representative

“Authorized representative” means any entity or individual designated by the school district, state, or an agency headed by an official of the Comptroller of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or state and local educational authorities to conduct, with respect to federal or state supported education programs, any audit or evaluation or any compliance or enforcement activity in connection with federal legal requirements that relate to these programs.

B. Biometric Record

“Biometric record,” as referred to in “Personally Identifiable,” means a record of one or more measurable biological or behavioral characteristics that can be used for automated recognition of an individual (e.g., fingerprints, retina and iris patterns, voiceprints, DNA sequence, facial characteristics, and handwriting).

C. Dates of Attendance

“Dates of attendance,” as referred to in “Directory Information,” means the period of time during which a student attends or attended a school or schools in the school district, including attendance in person or by paper correspondence, videoconference, satellite, Internet, or other electronic information and telecommunications technologies for students who are not in the classroom, and including the period during which a student is working under a work-study program. The term does not include specific daily records of a student’s attendance at a school or schools in the school district.

D. Directory Information

1. “Directory information,” under federal law, means information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. It includes the student’s name; address; telephone listing; electronic mail address; photograph; date and place of birth; major field of study; dates of attendance; grade level; enrollment status (i.e., full-time or part-time); participation in officially recognized activities and sports; weight and height of members of athletic teams; degrees, honors and awards received; and the most recent educational agency or institution attended. It also includes the name, address, and telephone number of the student’s parent(s). Directory information does not include:

- a. a student’s social security number;
- b. a student’s identification number (ID), user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems if the identifier may be used to access education records without use of one or more factors that authenticate the student’s identity such as a personal identification number (PIN), password, or other factor known or possessed only by the authorized user;

- c. a student ID or other unique personal identifier that is displayed on a student ID badge if the identifier can be used to gain access to educational records when used in conjunction with one or more factors that authenticate the student's identity, such as a PIN, password, or other factor known or possessed only by the student;
 - d. personally identifiable data which references religion, race, color, social position, or nationality; or
 - e. data collected from nonpublic school students, other than those who receive shared time educational services, unless written consent is given by the student's parent or guardian.
2. Under Minnesota law, a school district may not designate a student's home address, telephone number, email address, or other personal contact information as "directory information."

E. Education Records

1. What constitutes "education records." Education records means those records that are: (1) directly related to a student; and (2) maintained by the school district or by a party acting for the school district.
2. What does not constitute education records. The term "education records" does not include:
- a. Records of instructional personnel that are:
 - (1) kept in the sole possession of the maker of the record;
 - (2) used only as a personal memory aid;
 - (3) not accessible or revealed to any other individual except a temporary substitute teacher; and
 - (4) destroyed at the end of the school year.
 - b. Records of a law enforcement unit of the school district, provided education records maintained by the school district are not disclosed to the unit, and the law enforcement records are:
 - (1) maintained separately from education records;
 - (2) maintained solely for law enforcement purposes; and
 - (3) disclosed only to law enforcement officials of the same jurisdiction.
 - c. Records relating to an individual, including a student, who is employed by the school district which:
 - (1) are made and maintained in the normal course of business;
 - (2) relate exclusively to the individual in that individual's capacity as an employee; and
 - (3) are not available for use for any other purpose.

However, records relating to an individual in attendance at the school district who is employed as a result of his or her status as a student are education records.

- d. Records relating to an eligible student, or a student attending an institution of post-secondary education, that are:
 - (1) made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his or her professional or paraprofessional capacity or assisting in that capacity;
 - (2) made, maintained, or used only in connection with the provision of treatment to the student; and
 - (3) disclosed only to individuals providing the treatment; provided that the records can be personally reviewed by a physician or other appropriate professional of the student's choice. For the purpose of this definition, "treatment" does not include remedial educational activities or activities that are a part of the program of instruction within the school district.

e. Records created or received by the school district after an individual is no longer a student at the school district and that are not directly related to the individual's attendance as a student.

f. Grades on peer-related papers before the papers are collected and recorded by a teacher.

F. Education Support Services Data

"Education support services data" means data on individuals collected, created, maintained, used, or disseminated relating to programs administered by a government entity or entity under contract with a government entity designed to eliminate disparities and advance equities in educational achievement for youth by coordinating services available to participants, regardless of the youth's involvement with other government services. Education support services data does not include welfare data under Minnesota Statutes, section 13.46.

Unless otherwise provided by law, all education support services data are private data on individuals and must not be disclosed except according to Minnesota Statutes, section 13.05 or a court order.

2. Perform a supervisory or instructional task directly related to the student's education;
3. Perform a service or benefit for the student or the student's family such as health care, counseling, student job placement, or student financial aid; or
4. Perform a task directly related to responding to a request for data.

J. Parent

"Parent" means a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent of the student in the absence of a parent or guardian. The school district may presume the parent has the authority to exercise the rights provided herein, unless it has been provided with evidence that there is a state law or court order governing such matters as marriage dissolution, separation or child custody, or a legally binding instrument which provides to the contrary.

K. Personally Identifiable

"Personally identifiable" means that the data or information includes, but is not limited to: (a) a student's name; (b) the name of the student's parent or other family member; (c) the address of the student or student's family; (d) a personal identifier such as the student's social security number or student number or biometric record; (e) other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; (f) other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or (g) information requested by a person who the school district reasonably believes knows the identity of the student to whom the education record relates.

L. Record

“Record” means any information or data recorded in any way including, but not limited to, handwriting, print, computer media, video or audio tape, film, microfilm, and microfiche.

P. Summary Data

“Summary data” means statistical records and reports derived from data on individuals but in which individuals are not identified and from which neither their identities nor any other characteristic that could uniquely identify the individual is ascertainable.

Q. Other Terms and Phrases

All other terms and phrases shall be defined in accordance with applicable state and federal law or ordinary customary usage.

IV. GENERAL CLASSIFICATION

State law provides that all data collected, created, received, or maintained by a school district are public unless classified by state or federal law as not public or private or confidential. State law classifies all data on individuals maintained by a school district which relates to a student as private data on individuals. This data may not be disclosed to parties other than the parent or eligible student without consent, except pursuant to a valid court order, certain state statutes authorizing access, and the provisions of FERPA and the regulations promulgated thereunder.

V. STATEMENT OF RIGHTS

A. Rights of Parents and Eligible Students

Parents and eligible students have the following rights under this policy:

B. Eligible Students

All rights and protections given to parents under this policy transfer to the student when he or she reaches eighteen (18) years of age or enrolls in an institution of post-secondary education. The student then becomes an “eligible student.” However, the parents of an eligible student who is also a “dependent student” are entitled to gain access to the education records of such student without first obtaining the consent of the student. In addition, parents of an eligible student may be given access to education records in connection with a health or safety emergency if the disclosure meets the conditions of any provision set forth in 34 Code of Federal Regulations section 99.31(a).

C. Students with a Disability

The school district shall follow 34 Code of Federal Regulations sections 300.610-300.617 with regard to the privacy, notice, access, recordkeeping, and accuracy of information related to students with a disability.

4. A signed and dated written consent may include a record and signature in electronic form that:

 - b. indicates such person’s approval of the information contained in the electronic consent.

5. If the responsible authority seeks an individual's informed consent to the release of private data to an insurer or the authorized representative of an insurer, informed consent shall not be deemed to have been given unless the statement is:
- a. in plain language;

B. Prior Consent for Disclosure Not Required

The school district may disclose personally identifiable information from the education records of a student without the written consent of the parent of the student or the eligible student unless otherwise provided herein, if the disclosure is:

1. To other school officials, including teachers, within the school district whom the school district determines have a legitimate educational interest in such records;
2. To a contractor, consultant, volunteer, or other party to whom the school district has outsourced institutional services or functions provided that the outside party:

 - c. will not disclose the information to any other party without the prior consent of the parent or eligible student and uses the information only for the purposes for which the disclosure was made;
3. To officials of other schools, school districts, or post-secondary educational institutions in which the student seeks or intends to enroll, or is already enrolled, as long as the disclosure is for purposes related to the student's enrollment or transfer. 4. To authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or the Commissioner of the State Department of Education or his or her representative, subject to the conditions relative to such disclosure provided under federal law;

5. In connection with financial aid for which a student has applied or has received, if the information is necessary for such purposes as to:

- a. determine eligibility for the aid;
- b. determine the amount of the aid;
- c. determine conditions for the aid; or
- d. enforce the terms and conditions of the aid.

“Financial aid” for purposes of this provision means a payment of funds provided to an individual or a payment in kind of tangible or intangible property to the individual that is conditioned on the individual’s attendance at an educational agency or institution;

6. To state and local officials or authorities to whom such information is specifically allowed to be reported or disclosed pursuant to state statute adopted:

- a. before November 19, 1974, if the allowed reporting or disclosure concerns the juvenile justice system and such system’s ability to effectively serve the student whose records are released; or
- b. after November 19, 1974, if the reporting or disclosure allowed by state statute concerns the juvenile justice system and the system’s ability to effectively serve, prior to adjudication, the student whose records are released, provided the officials and authorities to whom the records are disclosed certify in writing to the school district that the data will not be disclosed to any other party, except as provided by state law, without the prior written consent of the parent of the student. At a minimum, the school district shall disclose the following information to the juvenile justice system under this paragraph: a student’s full name, home address, telephone number, and date of birth; a student’s school schedule, attendance record, and photographs, if any; and parents’ names, home addresses, and telephone numbers;

7. To organizations conducting studies for or on behalf of educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, or improving instruction; provided that the studies are conducted in a manner which does not permit the personal identification of parents or students by individuals other than representatives of the organization who have a legitimate interest in the information, the information is destroyed when no longer needed for the purposes for which the study was conducted, and the school district enters into a written agreement with the organization that: (a) specifies the purpose, scope, and duration of the study or studies and the information to be disclosed; (b) requires the organization to use personally identifiable information from education records only to meet the purpose or purposes of the study as stated in the written agreement; (c) requires the organization to conduct the study in a manner that does not permit personal identification of parents and students by anyone other than representatives of the organization with legitimate interests; and (d) requires the organization to destroy all personally identifiable information when information is no longer needed for the purposes for which the study was conducted and specifies the time period in which the information must be destroyed. For purposes of this provision, the term, “organizations,” includes, but is not limited to, federal, state, and local agencies and independent organizations. In the event the Department of Education determines that a third party outside of the school district to whom information is disclosed violates this provision, the school district may not allow that third party access to personally identifiable information from education records for at least five (5) years;

8. To accrediting organizations in order to carry out their accrediting functions;

9. To parents of a student eighteen (18) years of age or older if the student is a dependent of the parents for income tax purposes;

10. To comply with a judicial order or lawfully issued subpoena, provided, however, that the school district makes a reasonable effort to notify the parent or eligible student of the order or subpoena in advance of compliance therewith so that the parent or eligible student may seek protective action, unless the disclosure is in compliance with a federal grand jury subpoena, or any other subpoena issued for law enforcement purposes, and the court or other issuing agency has ordered that the existence

or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed, or the disclosure is in compliance with an ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18 United States Code section 2332b(g)(5)(B), an act of domestic or international terrorism as defined in 18 U.S.C. § 2331, or a parent is a party to a court proceeding involving child abuse and neglect or dependency matters, and the order is issued in the context of the proceeding. If the school district initiates legal action against a parent or student, it may disclose to the court, without a court order or subpoena, the education records of the student that are relevant for the school district to proceed with the legal action as a plaintiff. Also, if a parent or eligible student initiates a legal action against the school district, the school district may disclose to the court, without a court order or subpoena, the student's education records that are relevant for the school district to defend itself;

11. To appropriate parties, including parents of an eligible student, in connection with an emergency if knowledge of the information is necessary to protect the health, including the mental health, or safety of the student or other individuals. The decision is to be based upon information available at the time the threat occurs that indicates that there is an articulable and significant threat to the health or safety of a student or other individuals. In making a determination whether to disclose information under this section, the school district may take into account the totality of the circumstances pertaining to a threat and may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other students. A record of this disclosure must be maintained pursuant to Section XIII.E. of this policy. In addition, an educational agency or institution may include in the education records of a student appropriate information concerning disciplinary action taken against the student for conduct that posed a significant risk to the safety or well-being of that student, other students, or other members of the school community. This information may be disclosed to teachers and school officials within the school district and/or teachers and school officials in other schools who have legitimate educational interests in the behavior of the student;

12. To the juvenile justice system if information about the behavior of a student who poses a risk of harm is reasonably necessary to protect the health or safety of the student or other individuals;

13. Information the school district has designated as "directory information" pursuant to Section VII. of this policy;

14. To military recruiting officers and post-secondary educational institutions pursuant to Section XI. of this policy;

15. To the parent of a student who is not an eligible student or to the student himself or herself;

16. To appropriate health authorities to the extent necessary to administer immunization programs and for bona fide epidemiologic investigations which the commissioner of health determines are necessary to prevent disease or disability to individuals in the public educational agency or institution in which the investigation is being conducted;

17. To volunteers who are determined to have a legitimate educational interest in the data and who are conducting activities and events sponsored by or endorsed by the educational agency or institution for students or former students;

18. To the juvenile justice system, on written request that certifies that the information will not be disclosed to any other person except as authorized by law without the written consent of the parent of the student:

a. the following information about a student must be disclosed: a student's full name, home address, telephone number, date of birth; a student's school schedule, daily attendance record, and photographs, if any; and any parents' names, home addresses, and telephone numbers;

b. the existence of the following information about a student, not the actual data or other information contained in the student's education record, may be disclosed provided that a request for access must be submitted on the statutory form and it must contain an explanation of why access to the information is necessary to serve the student: (1) use of a controlled substance, alcohol, or tobacco; (2) assaultive or threatening conduct that could result in dismissal from school under the Pupil Fair Dismissal Act; (3) possession or use of weapons or look-alike weapons; (4) theft; or (5) vandalism or other damage to property. Prior to releasing this information, the principal or chief administrative officer of a school who receives such a request must, to the extent permitted by federal law, notify the student's parent or guardian by certified mail of the request to disclose information. If the student's parent or guardian notifies the school official of an objection to the disclosure within ten (10) days of receiving certified notice, the school official must not disclose the information and instead must inform the requesting member of the juvenile justice system of the objection. If no objection from the parent or guardian is received within fourteen (14) days, the school official must respond to the request for information.

The written requests of the juvenile justice system member(s), as well as a record of any release, must be maintained in the student's file;

19. To the principal where the student attends and to any counselor directly supervising or reporting on the behavior or progress of the student if it is information from a disposition order received by a superintendent under Minnesota Statutes, section 260B.171, subdivision 3. The principal must notify the counselor immediately and must place the disposition order in the student's permanent education record. The principal also must notify immediately any teacher or administrator who directly supervises or reports on the behavior or progress of the student whom the principal believes needs the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. The principal may also notify other school district employees, substitutes, and volunteers who are in direct contact with the student if the principal determines that these individuals need the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. Such notices from the principal must identify the student, outline the offense, and describe any conditions of probation about which the school must provide information if this information is provided in the disposition order. Disposition order information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. The information may not be further disseminated by the counselor, teacher, administrator, staff member, substitute, or volunteer except as necessary to serve the student, to protect students and staff, or as otherwise required by law, and only to the student or the student's parent or guardian;

20. To the principal where the student attends if it is information from a peace officer's record of children received by a superintendent under Minnesota Statutes, section 260B.171, subdivision 5. The principal must place the information in the student's education record. The principal also must notify immediately any teacher, counselor, or administrator directly supervising the student whom the principal believes needs the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. The principal may also notify other district employees, substitutes, and volunteers who are in direct contact with the student if the principal determines that these individuals need the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. Such notices from the principal must identify the student and describe the alleged offense if this information is provided in the peace officer's notice. Peace officer's record information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. The information must not be further disseminated by the counselor, teacher administrator, staff member, substitute, or volunteer except to communicate with the student or the student's parent or guardian as necessary to serve the student, to protect students and staff, or as otherwise required by law.

The principal must delete the peace officer's record from the student's education record, destroy the data, and make reasonable efforts to notify any teacher, counselor, staff member, administrator, substitute, or volunteer who received information from the peace officer's record if the county attorney determines not to proceed with a petition or directs the student into a diversion or mediation program or if a juvenile court makes a decision on a petition and the county attorney or juvenile court notifies the superintendent of such action;

21. To the Secretary of Agriculture, or authorized representative from the Food and Nutrition Service or contractors acting on behalf of the Food and Nutrition Service, for the purposes of conducting program monitoring, evaluations, and performance measurements of state and local educational and other agencies and institutions receiving funding or providing benefits of one or more programs authorized under the National School Lunch Act or the Child Nutrition Act of 1966 for which the results will be reported in an aggregate form that does not identify any individual, on the conditions that: (a) any data collected shall be protected in a manner that will not permit the personal identification of students and their parents by other than the authorized representatives of the Secretary; and (b) any personally identifiable data shall be destroyed when the data are no longer needed for program monitoring, evaluations, and performance measurements; or

22. To an agency caseworker or other representative of a State or local child welfare agency, or tribal organization (as defined in 25 United States Code section 5304), who has the right to access a student's case plan, as defined and determined by the State or tribal organization, when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student, provided that the education records, or the personally identifiable information contained in such records, of the student will not be disclosed by such agency or organization, except to an individual or entity engaged in addressing the student's education needs and authorized by such agency or organization to receive such disclosure and such disclosure is consistent with the State or tribal laws applicable to protecting the confidentiality of a student's education records.

C. Nonpublic School Students

The school district may disclose personally identifiable information from the education records of a nonpublic school student, other than a student who receives shared time educational services, without the written consent of the parent of the student or the eligible student unless otherwise provided herein, if the disclosure is:

1. Pursuant to a valid court order;
2. Pursuant to a statute specifically authorizing access to the private data; or
3. To appropriate health authorities to the extent necessary to administer immunization programs and for bona fide epidemiological investigations which the commissioner of health determines are necessary to prevent disease or disability to individuals in the public educational agency or institution in which the investigation is being conducted.

VII. RELEASE OF DIRECTORY INFORMATION

A. Educational Data

1. Educational data designated as directory information is public data on individuals to the extent required under federal law. Directory information must be designated pursuant to the provisions of:

- a. Minnesota Statutes, section 13.32, subdivision 5; and
 - b. United States Code, title 20, section 1232g, and Code of Federal Regulations, title 34, section 99.37, which were in effect on January 3, 2012.
2. The school district may not designate a student's home address, telephone number, email address, or other personal contact information as directory information under this section.

3. When requested, the school district must share personal contact information and directory information, whether public or private, with the Minnesota Department of Education, as required for federal reporting purposes.

[Note: This section became effective on the day following final enactment (May 19, 2023). Beginning on the effective date, a student's personal contact information subject to this section must be treated as private educational data under Minnesota Statutes, section 13.32, regardless of whether that contact information was previously designated as directory information under Minnesota Statutes, section 13.32, subdivision 5].

B. Former Students

Unless a former student validly opted out of the release of directory information while the student was in attendance and has not rescinded the opt out request at any time, the school district may disclose directory information from the education records generated by it regarding the former student without meeting the requirements of Paragraph C. of this section. In addition, under an explicit exclusion from the definition of an "education record," the school district may release records that only contain information about an individual obtained after he or she is no longer a student at the school district and that are not directly related to the individual's attendance as a student (e.g., a student's activities as an alumnus of the school district).

C. Present Students and Parents

The school district may disclose directory information from the education records of a student and information regarding parents without prior written consent of the parent of the student or eligible student, except as provided herein.

1. When conducting the directory information designation and notice process required by federal law, the school district shall give parents and students notice of the right to refuse to let the district designate specified data about the student as directory information.
2. The school district shall give annual notice by any means that are reasonably likely to inform the parents and eligible students of:
 - a. the types of personally identifiable information regarding students and/or parents that the school district has designated as directory information;

b. the parent's or eligible student's right to refuse to let the school district designate any or all of those types of information about the student and/or the parent as directory information; and

c. the period of time in which a parent or eligible student has to notify the school district in writing that he or she does not want any or all of those types of information about the student and/or the parent designated as directory information.

[Note: Federal law allows a school district to specify that the disclosure of directory information will be limited to specific parties, for specific purposes, or both. If the school district chooses to impose these limitations, it is advisable to add a new paragraph VII.C.1.d. that specifies that disclosures of directory information will be limited to specific parties and/or for specific purposes and identify those parties and/or purposes. To the extent a school district adds these restrictions, it must then limit its directory information disclosures to those individuals and/or purposes specified in this public notice. Procedures to address how these restrictions will be enforced by the school district are advised. This is an important policy decision for the local school board which must balance not only the privacy interests of the student against public disclosure, but also the additional administrative requirements such restrictions will place on the school district.]

2. Allow a reasonable period of time after such notice has been given for a parent or eligible student to inform the school district in writing that any or all of the information so designated should not be disclosed without the parent's or eligible student's prior written consent, except as provided in Section VI. of this policy.

3. A parent or eligible student may not opt out of the directory information disclosures to:

a. prevent the school district from disclosing or requiring the student to disclose the student's name, ID, or school district e-mail address in a class in which the student is enrolled; or

b. prevent the school district from requiring a student to wear, to display publicly, or to disclose a student ID card or badge that exhibits information that may be designated as directory information and that has been properly designated by the school district as directory information.

4. The school district shall not disclose or confirm directory information without meeting the written consent requirements contained in Section VI.A. of this policy if a student's social security number or other non-directory information is used alone or in combination with other data elements to identify or help identify the student or the student's records.

D. Procedure for Obtaining Nondisclosure of Directory Information

The parent's or eligible student's written notice shall be directed to the responsible authority and shall include the following:

1. Name of the student and/or parent, as appropriate;

2. Home address;

3. School presently attended by student;

4. Parent's legal relationship to student, if applicable; and

5. Specific categories of directory information to be made not public without the parent's or eligible student's prior written consent, which shall only be applicable for that school year.

E. Duration

The designation of any information as directory information about a student or parents will remain in effect for the remainder of the school year unless the parent or eligible student provides the written notifications provided herein.

VIII. DISCLOSURE OF PRIVATE RECORDS

A. Private Records

For the purposes herein, education records are records which are classified as private data on individuals by state law and which are accessible only to the student who is the subject of the data and the student's parent if the student is not an eligible

student. The school district may not disclose private records or their contents except as summary data, or except as provided in Section VI. of this policy, without the prior written consent of the parent or the eligible student. The school district will use reasonable methods to identify and authenticate the identity of parents, students, school officials, and any other party to whom personally identifiable information from education records is disclosed.

B. Private Records Not Accessible to Parent

In certain cases, state law intends, and clearly provides, that certain information contained in the education records of the school district pertaining to a student be accessible to the student alone, and to the parent only under special circumstances, if at all.

1. The responsible authority may deny access to private data by a parent when a minor student who is the subject of that data requests that the responsible authority deny such access. The minor student's request must be submitted in writing setting forth the reasons for denying access to the parent and must be signed by the minor. Upon receipt of such request the responsible authority shall determine if honoring the request to deny the parent access would be in the best interest of the minor data subject. In making this determination the responsible authority shall consider the following factors:

- a. whether the minor is of sufficient age and maturity to be able to explain the reasons for and understand the consequences of the request to deny access;
- b. whether the personal situation of the minor is such that denying parental access may protect the minor data subject from physical or emotional harm;
- c. whether there are grounds for believing that the minor data subject's reasons for precluding parental access are reasonably accurate;
- d. whether the data in question is of such a nature that disclosure of it to the parent may lead to physical or emotional harm to the minor data subject; and
- e. whether the data concerns medical, dental or other health services provided pursuant to Minnesota Statutes, sections 144.341-144.347, in which case the data may be released only if the failure to inform the parent would seriously jeopardize the health of the minor.

C. Private Records Not Accessible to Student

Students shall not be entitled to access to private data concerning financial records and statements of the student's parent or any information contained therein.

D. Military-Connected Youth Identifier

When a school district updates its enrollment forms in the ordinary course of business, the school district must include a box on the enrollment form to allow students to self-identify as a military-connected youth. For purposes of this section, a "military-connected youth" means having an immediate family member, including a parent or sibling, who is currently in the armed forces either as a reservist or on active duty or has recently retired from the armed forces. Data collected under this provision is private data on individuals, but summary data may be published by the Department of Education.

IX. DISCLOSURE OF CONFIDENTIAL RECORDS

A. Confidential Records

Confidential records are those records and data contained therein which are made not public by state or federal law, and which are inaccessible to the student and the student's parents or to an eligible student.

B. Reports Under the Maltreatment of Minors Reporting Act

Pursuant to Minnesota Statutes, chapter 260E, written copies of reports pertaining to a neglected and/or physically and/or sexually abused child shall be accessible only to the appropriate welfare and law enforcement agencies. In respect to other parties, such data shall be confidential and will not be made available to the parent or the subject individual by the school

district. The subject individual, however, may obtain a copy of the report from either the local welfare agency, county sheriff, or the local police department subject to the provisions of Minnesota Statutes, chapter 260E.

Regardless of whether a written report is made under Minnesota Statutes, chapter 260E, as soon as practicable after a school receives information regarding an incident that may constitute maltreatment of a child in a school facility, the school shall inform the parent, legal guardian, or custodian of the child that an incident occurred that may constitute maltreatment of the child, when the incident occurred, and the nature of the conduct that may constitute maltreatment.

C. Investigative Data

Data collected by the school district as part of an active investigation undertaken for the purpose of the commencement or defense of pending civil legal action, or are retained in anticipation of a pending civil legal action are classified as protected nonpublic data in the case of data not on individuals, and confidential data in the case of data on individuals.

1. The school district may make any data classified as protected non-public or confidential pursuant to this subdivision accessible to any person, agency, or the public if the school district determines that such access will aid the law enforcement process, promote public health or safety, or dispel widespread rumor or unrest.
2. A complainant has access to a statement he or she provided to the school district.
3. Parents or eligible students may have access to investigative data of which the student is the subject, but only to the extent the data is not inextricably intertwined with data about other school district students, school district employees, and/or attorney data as defined in Minnesota Statutes, section 13.393.
4. Once a civil investigation becomes inactive, civil investigative data becomes public unless the release of the data would jeopardize another pending civil legal action, except for those portions of such data that are classified as not public data under state or federal law. Any civil investigative data presented as evidence in court or made part of a court record shall be public. For purposes of this provision, a civil investigation becomes inactive upon the occurrence of any of the following events:
 - a. a decision by the school district, or by the chief attorney for the school district, not to pursue the civil legal action. However, such investigation may subsequently become active if the school district or its attorney decides to renew the civil legal action;
 - b. the expiration of the time to file a complaint under the statute of limitations or agreement applicable to the civil legal action; or
 - c. the exhaustion or expiration of rights of appeal by either party to the civil legal action.
5. A “pending civil legal action” for purposes of this subdivision is defined as including, but not limited to, judicial, administrative, or arbitration proceedings.

D. Chemical Abuse Records

To the extent the school district maintains records of the identity, diagnosis, prognosis, or treatment of any student which are maintained in connection with the performance of any drug abuse prevention function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, such records are classified as confidential and shall be disclosed only for the purposes and under the circumstances expressly authorized by law.

X. DISCLOSURE OF SCHOOL RECORDS PRIOR TO EXCLUSION OR EXPULSION HEARING

At a reasonable time prior to any exclusion or expulsion hearing, the student and the student’s parent or guardian or representative shall be given access to all school district records pertaining to the student, including any tests or reports upon which the action proposed by the school district may be based, pursuant to the Minnesota Pupil Fair Dismissal Act, Minnesota Statutes, section 121A.40, et seq.

XI. DISCLOSURE OF DATA TO MILITARY RECRUITING OFFICERS AND POST-SECONDARY EDUCATIONAL INSTITUTIONS

A. The school district will release the names, addresses, electronic mail address (which shall be the electronic mail addresses provided by the school district, if available, that may be released to military recruiting officers only), and home telephone numbers of students in grades 11 and 12 to military recruiting officers and post-secondary educational institutions within sixty (60) days after the date of the request unless a parent or eligible student has refused in writing to release this data pursuant to Paragraph C. below.

B. Data released to military recruiting officers under this provision:

1. may be used only for the purpose of providing information to students about military service, state and federal veterans' education benefits, and other career and educational opportunities provided by the military;
2. cannot be further disseminated to any other person except personnel of the recruiting services of the armed forces; and
3. copying fees shall not be imposed.

C. A parent or eligible student has the right to refuse the release of the name, address, electronic mail addresses (which shall be the electronic mail addresses provided by the school, if available, that may be released to military recruiting officers only) or home telephone number to military recruiting officers and post-secondary educational institutions. To refuse the release of the above information to military recruiting officers and post-secondary educational institutions, a parent or eligible student must notify the responsible authority [designate title of individual, i.e., building principal] in writing by [date] each year. The written request must include the following information:

1. Name of student and parent, as appropriate;
2. Home address;
3. Student's grade level;
4. School presently attended by student;
5. Parent's legal relationship to student, if applicable;
6. Specific category or categories of information which are not to be released to military recruiting officers and post-secondary educational institutions; and
7. Specific category or categories of information which are not to be released to the public, including military recruiting officers and post-secondary educational institutions.

D. Annually, the school district will provide public notice by any means that are reasonably likely to inform the parents and eligible students of their rights to refuse to release the names, addresses, and home phone numbers of students in grades 11 and 12 without prior consent.

E. A parent or eligible student's refusal to release the above information to military recruiting officers and post-secondary educational institutions does not affect the school district's release of directory information to the rest of the public, which includes military recruiting officers and post-secondary educational institutions. In order to make any directory information about a student private, the procedures contained in Section VII. of this policy also must be followed. Accordingly, to the extent the school district has designated the name, address, home phone number, and grade level of students as directory information, absent a request from a parent or eligible student not to release such data, this information will be public data and accessible to members of the public, including military recruiting officers and post-secondary educational institutions.

XII. LIMITS ON REDISCLOSURE

A. Redisclosure

Consistent with the requirements herein, the school district may only disclose personally identifiable information from the education records of a student on the condition that the party to whom the information is to be disclosed will not disclose the information to any other party without the prior written consent of the parent of the student or the eligible student, except that

the officers, employees, and agents of any party receiving personally identifiable information under this section may use the information, but only for the purposes for which the disclosure was made.

B. Redisclosure Not Prohibited

1. Subdivision A. of this section does not prevent the school district from disclosing personally identifiable information under Section VI. of this policy with the understanding that the party receiving the information may make further disclosures of the information on behalf of the school district provided:

- a. The disclosures meet the requirements of Section VI. of this policy; and
- b. The school district has complied with the record-keeping requirements of Section XIII. of this policy.

2. Subdivision A. of this section does not apply to disclosures made pursuant to court orders or lawfully issued subpoenas or litigation, to disclosures of directory information, to disclosures to a parent or student or to parents of dependent students, or to disclosures concerning sex offenders and other individuals required to register under 42 United States Code section 14071. However, the school district must provide the notification required in Section XII.D. of this policy if a redisclosure is made based upon a court order or lawfully issued subpoena.

[Note: 42 United States Code section§ 14071 was repealed. School districts should retain this statutory reference, however, as it remains a reference in FERPA and the Minnesota Government Data Practices Act and still may apply to individuals required to register prior to the repeal of this law.]

C. Classification of Disclosed Data

The information disclosed shall retain the same classification in the hands of the party receiving it as it had in the hands of the school district.

D. Notification

The school district shall inform the party to whom a disclosure is made of the requirements set forth in this section, except for disclosures made pursuant to court orders or lawfully issued subpoenas, disclosure of directory information under Section VII. of this policy, disclosures to a parent or student, or disclosures to parents of a dependent student. In the event that the Family Policy Compliance Office determines that a state or local educational authority, a federal agency headed by an official listed in 34 Code of Federal Regulations section 99.31(a)(3), or an authorized representative of a state or local educational authority or a federal agency headed by an official listed in section 99.31(a)(3), or a third party outside of the school district improperly rediscloses personally identifiable information from education records or fails to provide notification required under this section of this policy, the school district may not allow that third party access to personally identifiable information from education records for at least five (5) years.

XIII. RESPONSIBLE AUTHORITY; RECORD SECURITY; AND RECORD KEEPING

A. Responsible Authority

The responsible authority shall be responsible for the maintenance and security of student records.

B. Record Security

The principal of each school subject to the supervision and control of the responsible authority shall be the records manager of the school, and shall have the duty of maintaining and securing the privacy and/or confidentiality of student records.

C. Plan for Securing Student Records

The building principal shall submit to the responsible authority a written plan for securing students records by September 1 of each school year. The written plan shall contain the following information:

- 1. A description of records maintained;
- 2. Titles and addresses of person(s) responsible for the security of student records;

3. Location of student records, by category, in the buildings;
4. Means of securing student records; and
5. Procedures for access and disclosure.

D. Review of Written Plan for Securing Student Records

The responsible authority shall review the plans submitted pursuant to Paragraph C. of this section for compliance with the law, this policy, and the various administrative policies of the school district. The responsible authority shall then promulgate a chart incorporating the provisions of Paragraph C. which shall be attached to and become a part of this policy.

E. Record Keeping

1. The principal shall, for each request for and each disclosure of personally identifiable information from the education records of a student, maintain a record, with the education records of the student, that indicates:

- a. the parties who have requested or received personally identifiable information from the education records of the student;
- b. the legitimate interests these parties had in requesting or obtaining the information; and
- c. the names of the state and local educational authorities and federal officials and agencies listed in Section VI.B.4. of this policy that may make further disclosures of personally identifiable information from the student's education records without consent.

2. In the event the school district discloses personally identifiable information from an education record of a student pursuant to Section XII.B. of this policy, the record of disclosure required under this section shall also include:

- a. the names of the additional parties to which the receiving party may disclose the information on behalf of the school district;
- b. the legitimate interests under Section VI. of this policy which each of the additional parties has in requesting or obtaining the information; and
- c. a copy of the record of further disclosures maintained by a state or local educational authority or federal official or agency listed in Section VI.B.4. of this policy in accordance with 34 Code of Federal Regulations section 99.32 and to whom the school district disclosed information from an education record. The school district shall request a copy of the record of further disclosures from a state or local educational authority or federal official or agency to whom education records were disclosed upon a request from a parent or eligible student to review the record of requests for disclosure.

3. Section XIII.E.1. does not apply to requests by or disclosure to a parent of a student or an eligible student, disclosures pursuant to the written consent of a parent of a student or an eligible student, requests by or disclosures to other school officials under Section VI.B.1. of this policy, to requests for disclosures of directory information under Section VII. of this policy, or to a party seeking or receiving the records as directed by a federal grand jury or other law enforcement subpoena and the issuing court or agency has ordered that the existence or the contents of the subpoena or the information provided in response to the subpoena not be disclosed or as directed by an ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18 United States Code section 2332b(g)(5)(B) or an act of domestic or international terrorism.

[Note: While Section XIII.E.1. does not apply to requests for or disclosures of directory information under Section VII. of this policy, to the extent the school district chooses to limit the disclosure of directory information to specific parties, for specific purposes, or both, it is advisable that records be kept to identify the party to whom the disclosure was made and/or purpose for the disclosure.]

4. The record of requests of disclosures may be inspected by:
 - a. the parent of the student or the eligible student;

- b. the school official or his or her assistants who are responsible for the custody of the records; and
 - c. the parties authorized by law to audit the record-keeping procedures of the school district.
5. The school district shall record the following information when it discloses personally identifiable information from education records under the health or safety emergency exception:
- a. the articulable and significant threat to the health or safety of a student or other individual that formed the basis for the disclosure; and
 - b. the parties to whom the school district disclosed the information.
6. The record of requests and disclosures shall be maintained with the education records of the student as long as the school district maintains the student's education records.

XIV. RIGHT TO INSPECT AND REVIEW EDUCATION RECORDS

A. Parent of a Student, an Eligible Student or the Parent of an Eligible Student Who is Also a Dependent Student

The school district shall permit the parent of a student, an eligible student, or the parent of an eligible student who is also a dependent student who is or has been in attendance in the school district to inspect or review the education records of the student, except those records which are made confidential by state or federal law or as otherwise provided in Section VIII. of this policy.

B. Response to Request for Access

The school district shall respond to any request pursuant to Subdivision A. of this section immediately, if possible, or within ten (10) days of the date of the request, excluding Saturdays, Sundays, and legal holidays.

C. Right to Inspect and Review

The right to inspect and review education records under Subdivision A. of this section includes:

- 1. The right to a response from the school district to reasonable requests for explanations and interpretations of records; and
- 2. If circumstances effectively prevent the parent or eligible student from exercising the right to inspect and review the education records, the school district shall provide the parent or eligible student with a copy of the records requested or make other arrangements for the parent or eligible student to inspect and review the requested records.
- 3. Nothing in this policy shall be construed as limiting the frequency of inspection of the education records of a student with a disability by the student's parent or guardian or by the student upon the student reaching the age of majority.

D. Form of Request

Parents or eligible students shall submit to the school district a written request to inspect education records which identify as precisely as possible the record or records he or she wishes to inspect.

E. Collection of Student Records

If a student's education records are maintained in more than one location, the responsible authority may collect copies of the records or the records themselves from the various locations so they may be inspected at one site. However, if the parent or eligible student wishes to inspect these records where they are maintained, the school district shall attempt to accommodate those wishes. The parent or eligible student shall be notified of the time and place where the records may be inspected.

F. Records Containing Information on More Than One Student

If the education records of a student contain information on more than one student, the parent or eligible student may inspect and review or be informed of only the specific information which pertains to that student.

G. Authority to Inspect or Review

The school district may presume that either parent of the student has authority to inspect or review the education records of a student unless the school district has been provided with evidence that there is a legally binding instrument or a state law or court order governing such matters as marriage dissolution, separation, or custody which provides to the contrary.

H. Fees for Copies of Records

1. The school district shall charge a reasonable fee for providing photocopies or printed copies of records unless printing a copy is the only method to provide for the inspection of data. In determining the amount of the reasonable fee, the school district shall consider the following:

- a. the cost of materials, including paper, used to provide the copies;
 - b. the cost of the labor required to prepare the copies;
 - c. any schedule of standard copying charges established by the school district in its normal course of operations;
 - d. any special costs necessary to produce such copies from machine-based record-keeping systems, including but not limited to computers and microfilm systems; and
 - e. mailing costs.
2. If 100 or fewer pages of black and white, letter or legal size paper copies are requested, actual costs shall not be used, and, instead, the charge shall be no more than 25 cents for each page copied.
3. The cost of providing copies shall be borne by the parent or eligible student.
4. The responsible authority, however, may not impose a fee for a copy of an education record made for a parent or eligible student if doing so would effectively prevent or, in the case of a student with a disability, impair the parent or eligible student from exercising their right to inspect or review the student's education records.

XV. REQUEST TO AMEND RECORDS; PROCEDURES TO CHALLENGE DATA

A. Request to Amend Education Records

The parent of a student or an eligible student who believes that information contained in the education records of the student is inaccurate, misleading, or violates the privacy rights of the student may request that the school district amend those records.

1. The request shall be in writing, shall identify the item the requestor believes to be inaccurate, misleading, or in violation of the privacy or other rights of the student, shall state the reason for this belief, and shall specify the correction the requestor wishes the school district to make. The request shall be signed and dated by the requestor.
2. The school district shall decide whether to amend the education records of the student in accordance with the request within thirty (30) days after receiving the request.
3. If the school district decides to refuse to amend the education records of the student in accordance with the request, it shall inform the parent of the student or the eligible student of the refusal and advise the parent or eligible student of the right to a hearing under Subdivision B. of this section.

B. Right to a Hearing

If the school district refuses to amend the education records of a student, the school district, on request, shall provide an opportunity for a hearing in order to challenge the content of the student's education records to ensure that information in the education records of the student is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student. A hearing shall be conducted in accordance with Subdivision C. of this section.

1. If, as a result of the hearing, the school district decides that the information is inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student, it shall amend the education records of the student accordingly and so inform the parent of the student or the eligible student in writing.

2. If, as a result of the hearing, the school district decides that the information is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why he or she disagrees with the decision of the school district, or both.

3. Any statement placed in the education records of the student under Subdivision B. of this section shall:

a. be maintained by the school district as part of the education records of the student so long as the record or contested portion thereof is maintained by the school district; and

b. if the education records of the student or the contested portion thereof is disclosed by the school district to any party, the explanation shall also be disclosed to that party.

C. Conduct of Hearing

1. The hearing shall be held within a reasonable period of time after the school district has received the request, and the parent of the student or the eligible student shall be given notice of the date, place, and time reasonably in advance of the hearing.

2. The hearing may be conducted by any individual, including an official of the school district who does not have a direct interest in the outcome of the hearing. The school board attorney shall be in attendance to present the school board's position and advise the designated hearing officer on legal and evidentiary matters.

3. The parent of the student or eligible student shall be afforded a full and fair opportunity for hearing to present evidence relative to the issues raised under Subdivisions A. and B. of this section and may be assisted or represented by individuals of his or her choice at his or her own expense, including an attorney.

4. The school district shall make a decision in writing within a reasonable period of time after the conclusion of the hearing. The decision shall be based solely on evidence presented at the hearing and shall include a summary of evidence and reasons for the decision.

D. Appeal

The final decision of the designated hearing officer may be appealed in accordance with the applicable provisions of Minnesota Statutes, chapter 14 relating to contested cases.

XVI. PROBLEMS ACCESSING DATA

A. The data practices compliance official is the designated employee to whom persons may direct questions or concerns regarding problems in obtaining access to data or other data practices problems.

B. Data practices compliance official means [designate title and actual name of individual].

C. Any request by an individual with a disability for reasonable modifications of the school district's policies or procedures for purposes of accessing records shall be made to the data practices compliance official.

XVII. COMPLAINTS FOR NONCOMPLIANCE WITH FERPA

A. Where to File Complaints

Complaints regarding alleged violations of rights accorded parents and eligible students by FERPA, and the rules promulgated thereunder, shall be submitted in writing to the U.S. Department of Education, Student Privacy Policy Office, 400 Maryland Avenue S.W., Washington, D.C. 20202-8520.

B. Content of Complaint

A complaint filed pursuant to this section must contain specific allegations of fact giving reasonable cause to believe that a violation of FERPA and the rules promulgated thereunder has occurred.

XVIII. WAIVER

A parent or eligible student may waive any of his or her rights provided herein pursuant to FERPA. A waiver shall not be valid unless in writing and signed by the parent or eligible student. The school district may not require such a waiver.

XIX. ANNUAL NOTIFICATION OF RIGHTS

A. Contents of Notice

The school district shall give parents of students currently in attendance and eligible students currently in attendance annual notice by such means as are reasonably likely to inform the parents and eligible students of the following:

1. That the parent or eligible student has a right to inspect and review the student's education records and the procedure for inspecting and reviewing education records;
2. That the parent or eligible student has a right to seek amendment of the student's education records to ensure that those records are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights and the procedure for requesting amendment of records;
3. That the parent or eligible student has a right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that federal and state law and the regulations promulgated thereunder authorize disclosure without consent;
4. That the parent or eligible student has a right to file a complaint with the U.S. Department of Education regarding an alleged failure by the school district to comply with the requirements of FERPA and the rules promulgated thereunder;
5. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest for purposes of disclosing education records to other school officials whom the school district has determined to have legitimate educational interests; and
6. That the school district forwards education records on request to a school in which a student seeks or intends to enroll or is already enrolled as long as the disclosure is for purposes related to the student's enrollment or transfer and that such records may include suspension and expulsion records pursuant to the federal Every Student Succeeds Act and, if applicable, a student's history of violent behavior.

B. Notification to Parents of Students Having a Primary Home Language Other Than English

The school district shall provide for the need to effectively notify parents of students identified as having a primary or home language other than English.

C. Notification to Parents or Eligible Students Who are Disabled

The school district shall provide for the need to effectively notify parents or eligible students identified as disabled.

XX. DESTRUCTION AND RETENTION OF RECORDS

520 STUDENT SURVEYS

I. PURPOSE

Occasionally the school district utilizes surveys to obtain student opinions and information about students. The purpose of this policy is to establish the parameters of information that may be sought in student surveys.

II. GENERAL STATEMENT OF POLICY

Student surveys may be conducted as determined necessary by the school district.
 Surveys, analyses and evaluations conducted as part of any program funded through the U.S. Department of Education must comply with 20 U.S.C. § 1232h.

III. STUDENT SURVEYS IN GENERAL

A. Student surveys will be conducted anonymously and in an indiscernible fashion.
 No mechanism will be used for identifying the participating student in any way.
 No attempt will be made in any way to identify a student survey participant.
 There will be no requirement that the student return the survey, and no record of the student's returning a survey will be maintained.

B. The superintendent may choose not to approve any survey that seeks probing personal and/or sensitive information that could result in identifying the survey

participant, or is discriminatory in nature based on age, race, color, sex, disability, religion, or national origin.

C. Surveys containing questions pertaining to the student's or the student's parent(s) or guardian(s) personal beliefs or practices in sex, family life, morality and religion will not be administered to any student unless the parent or guardian of the student is notified in writing that such survey is to be administered and the parent or guardian of the student gives written permission for the student to participate or the opportunity to opt out of the survey depending upon how the survey is funded. Any and all documents containing the written permission of a parent for a student to participate in a survey will be maintained by the school district in a file separate from the survey responses.

D. Although the survey is conducted anonymously, potential exists for personally identifiable information to be provided in response thereto. To the extent that personally identifiable information of a student is contained in his or her

520-2
responses to a survey, the school district will take appropriate steps to ensure the data is protected in accordance with Minn. Stat. Ch. 13 (Minnesota Government Data Practices Act), 20 U.S.C. § 1232g (Family Educational Rights and Privacy Act) and 34 C.F.R. Part 99.

IV. STUDENT SURVEYS CONDUCTED AS PART OF DEPARTMENT OF EDUCATION PROGRAM

A. All instructional materials, including teacher's manuals, films, tapes, or other supplementary material which will be used in connection with any survey, analysis, or evaluation as part of any program funded in whole or in part by the U.S. Department of Education, shall be available for inspection by the parents or guardians of the students.

B. No student shall be required, as part of any program funded in whole or in part by the U.S. Department of Education, without the prior consent of the student (if the student is an adult or emancipated minor), or in the case of an unemancipated minor, without the prior written consent of the parent, to submit to a survey that reveals information concerning:

1. political affiliations or beliefs of the student or the student's parent;
2. mental and psychological problems of the student or the student's family;
3. sex behavior or attitudes;
4. illegal, antisocial, self-incriminating, or demeaning behavior;
5. critical appraisals of other individuals with whom respondents have close family relationships;
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
7. religious practices, affiliations, or beliefs of the student or the student's parent; or
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

C. A school district that receives funds under any program funded by the U.S. Department of Education shall develop local policies consistent with Sections IV.A. and IV.B., above, concerning student privacy, parental access to information, and administration of certain physical examinations to minors.

520-3

1. The following policies are to be adopted in consultation with parents:

- a. The right of a parent to inspect, on request, a survey, including an evaluation, created by a third party before the survey is administered or distributed by a school to a student, including procedures for granting a parent's request for reasonable access to such survey within a reasonable period of time after the request is received.

"Parent" means a legal guardian or other person acting in loco parentis (in place of a parent), such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible

for the welfare of the child.

b. Arrangements to protect student privacy in the event of the administration or distribution of a survey, including an evaluation, to a student which contains one or more of the items listed in Section IV.B., above, including the right of a parent of a student to inspect, on request, any such survey.

c. The right of a parent of a student to inspect, on request, any instructional material used as part of the educational curriculum for the student and procedures for granting a request by a parent for such access within a reasonable period of time after the request is received.

“Instructional material” means instructional content that is provided to a student, regardless of format, including printed or representational materials, audio-visual materials, and materials in electronic or digital formats (i.e., materials accessible through the Internet). The term does not include academic tests or academic assessments.

d. The administration of physical examinations or screenings that the school district may administer to a student. This provision does not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (20 U.S.C. § 1400, et seq.).

e. The collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing the information to others for that purpose), including arrangements to protect student privacy that are provided by the school district in the event of such collection, disclosure, or use.

520-4

(1) “Personal information” means individually identifiable information including a student or parent’s first and last name; a home or other physical address (including street name and the name of the city or town); a telephone number; or a Social Security identification number.

(2) This provision does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as:

(a) college or other postsecondary education recruitment or military;

(b) book clubs, magazines, and programs providing access to low cost literary products;

(c) curriculum and instructional materials used by elementary and secondary schools;

(d) tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students, or to generate other statistically useful data for the purpose of securing such tests and assessments and the subsequent analysis and public release of the aggregate data from such tests and assessments;

(e) the sale by students of products or services to raise funds for school-related or education-related activities; and

(f) student recognition programs.

(3) The right of a parent to inspect, on request, any instrument used in the collection of information, as described in

Section IV.C.1., Subparagraph e., above, before the instrument is administered or distributed to a student and procedures for granting a request by a parent for reasonable access to such an instrument within a reasonable period of time after the request is received.

2. The policies adopted under Section IV.C., Subparagraph 1., above, shall provide for reasonable notice of the adoption or continued use of such

520-5
policies directly to parents of students enrolled in or served by the school district.

a. The notice will be provided at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in a policy.

b. The notice will provide parents with an opportunity to opt out of participation in the following activities:

(1) Activities involving the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information, or otherwise providing that information to others for that purpose.

(2) The administration of any third-party survey (nonDepartment of Education funded) containing one or more of the items contained in Section IV.B., above.

(3) Any nonemergency, invasive physical examination or screening that is required as a condition of attendance, administered by the school and scheduled by the school in advance, and not necessary to protect the immediate health and safety of the student or other students.

“Invasive physical examination” means any medical examination that involves the exposure of private body parts, or act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, or scoliosis screening.

c. The notice will advise students of the specific or approximate dates during the school year when the activities in Section IV.C.2., Subparagraph b., above, are scheduled, or expected to be scheduled.

d. The notice provisions shall not be construed to preempt applicable provisions of state law that require parental notification and do not apply to any physical examination or screening that is permitted or required by applicable state law, including physical examinations or screenings that are permitted without parental notification.

D. The school district shall give parents and students notice of their rights under this section.

[Note: School districts are required by statute to have a policy addressing these issues.]

I. PURPOSE

The purpose of this policy is to set forth policies and guidelines for access to the school district computer system and acceptable and safe use of the Internet, including electronic communications.

II. GENERAL STATEMENT OF POLICY

In making decisions regarding student and employee access to the school district computer system and the Internet, including electronic communications, the school district considers its own stated educational mission, goals, and objectives. Electronic information research skills are now fundamental to preparation of citizens and future employees. Access to the school district computer system and to the Internet enables students and employees to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging messages with people around the world. The school district expects that faculty will blend thoughtful use of the school district computer system and the Internet throughout the curriculum and will provide guidance and instruction to students in their use.

III. LIMITED EDUCATIONAL PURPOSE

The school district is providing students and employees with access to the school district computer system, which includes Internet access. The purpose of the system is more specific than providing students and employees with general access to the Internet. The school district system has a limited educational purpose, which includes use of the system for classroom activities, educational research, and professional or career development activities. Users are expected to use Internet access through the district system to further educational and personal goals consistent with the mission of the school district and school policies. Uses which might be acceptable on a user's private personal account on another system may not be acceptable on this limited-purpose network.

IV. USE OF SYSTEM IS A PRIVILEGE

The use of the school district system and access to use of the Internet is a privilege, not a right. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of the school district system or the Internet may result in one or more of the following consequences: suspension or cancellation of use or access privileges; payments for damages and repairs; discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment; or civil or criminal liability under other applicable laws.

V. UNACCEPTABLE USES

A. While not an exhaustive list, the following uses of the school district system and Internet resources or accounts are considered unacceptable:

1. Users will not use the school district system to access, review, upload, download, store, print, post, receive, transmit, or distribute:

- a. pornographic, obscene, or sexually explicit material or other visual depictions that are harmful to minors;
- b. obscene, abusive, profane, lewd, vulgar, rude, inflammatory, threatening, disrespectful, or sexually explicit language;
- c. materials that use language or images that are inappropriate in the education setting or disruptive to the educational process;
- d. information or materials that could cause damage or danger of disruption to the educational process;
- e. materials that use language or images that advocate violence or discrimination toward other people (hate literature) or that may constitute harassment or discrimination.

2. Users will not use the school district system to knowingly or recklessly post, transmit, or distribute false or defamatory information about a person or organization, or to harass another person, or to engage in personal attacks, including prejudicial or discriminatory attacks.

3. Users will not use the school district system to engage in any illegal act or violate any local, state, or federal statute or law.
4. Users will not use the school district system to vandalize, damage, or disable the property of another person or organization, will not make deliberate attempts to degrade or disrupt equipment, software, or system performance by spreading computer viruses or by any other means, will not tamper with, modify, or change the school district system software, hardware, or wiring or take any action to violate the school district's security system, and will not use the school district system in such a way as to disrupt the use of the system by other users.
5. Users will not use the school district system to gain unauthorized access to information resources or to access another person's materials, information, or files without the implied or direct permission of that person.
6. Users will not use the school district system to post private information about another person, personal contact information about themselves or other persons, or other personally identifiable information, including, but not limited to, addresses, telephone numbers, school addresses, work addresses, identification numbers, account numbers, access codes or passwords, labeled photographs, or other information that would make the individual's identity easily traceable, and will not repost a message that was sent to the user privately without permission of the person who sent the message.
 - a. This paragraph does not prohibit the posting of employee contact information on school district webpages or communications between employees and other individuals when such communications are made for education-related purposes (i.e., communications with parents or other staff members related to students).
 - b. Employees creating or posting school-related webpages may include personal contact information about themselves on a webpage. However, employees may not post personal contact information or other personally identifiable information about students unless:
 - (1) such information is classified by the school district as directory information and verification is made that the school district has not received notice from a parent/guardian or eligible student that such information is not to be designated as directory information in accordance with Policy 515; or
 - (2) such information is not classified by the school district as directory information but written consent for release of the information to be posted has been obtained from a parent/guardian or eligible student in accordance with Policy 515.
- In addition, prior to posting any personal contact or personally identifiable information on a school-related webpage, employees shall obtain written approval of the content of the postings from the building administrator.
- c. These prohibitions specifically prohibit a user from utilizing the school district system to post personal information about a user or another individual on social networks, including, but not limited to, social networks such as "Facebook," "Twitter," "Instagram," "Snapchat," "TikTok," "Reddit," and similar websites or applications.
7. Users must keep all account information and passwords on file with the designated school district official. Users will not attempt to gain unauthorized access to the school district system or any other system through the school district system, attempt to log in through another person's account, or use computer accounts, access codes, or network identification other than those assigned to the user. Messages and records on the school district system may not be encrypted without the permission of appropriate school authorities.
8. Users will not use the school district system to violate copyright laws or usage licensing agreements, or otherwise to use another person's property without the person's prior approval or proper citation, including the downloading or exchanging of pirated software or copying software to or from any school computer, and will not plagiarize works they find on the Internet.
9. Users will not use the school district system for conducting business, for unauthorized commercial purposes, or for financial gain unrelated to the mission of the school district. Users will not use the school district system to offer or provide goods or services or for product advertisement. Users will not use the school district system to purchase goods or services for personal use without authorization from the appropriate school district official.
10. Users will not use the school district system to engage in bullying or cyberbullying in violation of the school district's Bullying Prohibition Policy. This prohibition includes using any technology or other electronic communication off school premises to the extent that student learning or the school environment is substantially and materially disrupted.

B. The school district has a special interest in regulating off-campus speech that materially disrupts classwork or involves substantial disorder or invasion of the rights of others. A student or employee engaging in the foregoing unacceptable uses of the Internet when off school district premises also may be in violation of this policy as well as other school district policies. Examples of such violations may include, but are not limited to, serious or severe bullying or harassment targeting particular individuals, threats aimed at teachers or other students, failure to follow rules concerning lessons, the writing of papers, the use of computers, or participation in other online school activities, and breaches of school security devices. If the school district receives a report of an unacceptable use originating from a non-school computer or resource, the school district may investigate such reports to the best of its ability. Students or employees may be subject to disciplinary action for such conduct, including, but not limited to, suspension or cancellation of the use or access to the school district computer system and the Internet and discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment.

C. If a user inadvertently accesses unacceptable materials or an unacceptable Internet site, the user shall immediately disclose the inadvertent access to an appropriate school district official. In the case of a school district employee, the immediate disclosure shall be to the employee's immediate supervisor and/or the building administrator. This disclosure may serve as a defense against an allegation that the user has intentionally violated this policy. In certain rare instances, a user also may access otherwise unacceptable materials if necessary to complete an assignment and if done with the prior approval of and with appropriate guidance from the appropriate teacher or, in the case of a school district employee, the building administrator.

VI. FILTER

A. With respect to any of its computers with Internet access, the school district will monitor the online activities of both minors and adults and employ technology protection measures during any use of such computers by minors and adults. The technology protection measures utilized will block or filter Internet access to any visual depictions that are:

1. Obscene;
2. Child pornography; or
3. Harmful to minors.

B. The term "harmful to minors" means any picture, image, graphic image file, or other visual depiction that:

1. Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or
2. Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
3. Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

C. Software filtering technology shall be narrowly tailored and shall not discriminate based on viewpoint.

D. An administrator, supervisor, or other person authorized by the Superintendent may disable the technology protection measure, during use by an adult, to enable access for bona fide research or other lawful purposes.

E. The school district will educate students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response.

[Note: Although school districts are not required to adopt the more restrictive provisions contained in either Alternative No. 2 or No. 3 if they do not seek state or federal funding, they may choose to adopt the more restrictive provisions as a matter of school policy.]

VII. CONSISTENCY WITH OTHER SCHOOL POLICIES

Use of the school district computer system and use of the Internet shall be consistent with school district policies and the mission of the school district.

VIII. LIMITED EXPECTATION OF PRIVACY

- A. By authorizing use of the school district system, the school district does not relinquish control over materials on the system or contained in files on the system. Users should expect only limited privacy in the contents of personal files on the school district system.
- B. Routine maintenance and monitoring of the school district system may lead to a discovery that a user has violated this policy, another school district policy, or the law.
- C. An individual investigation or search will be conducted if school authorities have a reasonable suspicion that the search will uncover a violation of law or school district policy.
- D. Parents may have the right at any time to investigate or review the contents of their child's files and e-mail files in accordance with the school district's Protection and Privacy of Pupil Records Policy. Parents have the right to request the termination of their child's individual account at any time.
- E. School district employees should be aware that the school district retains the right at any time to investigate or review the contents of their files and e-mail files. In addition, school district employees should be aware that data and other materials in files maintained on the school district system may be subject to review, disclosure, or discovery under Minnesota Statutes chapter 13 (Minnesota Government Data Practices Act).
- F. The school district will cooperate fully with local, state and federal authorities in any investigation concerning or related to any illegal activities or activities not in compliance with school district policies conducted through the school district system.

IX. INTERNET USE AGREEMENT

- A. The proper use of the Internet, and the educational value to be gained from proper Internet use, is the joint responsibility of students, parents, and employees of the school district.
- B. This policy requires the permission of and supervision by the school's designated professional staff before a student may use a school account or resource to access the Internet.
- C. The Internet Use Agreement form for students must be read and signed by the user, the parent or guardian, and the supervising teacher. The Internet Use Agreement form for employees must be signed by the employee. The form must then be filed at the school office. As supervising teachers change, the agreement signed by the new teacher shall be attached to the original agreement.

X. LIMITATION ON SCHOOL DISTRICT LIABILITY

Use of the school district system is at the user's own risk. The system is provided on an "as is, as available" basis. The school district will not be responsible for any damage users may suffer, including, but not limited to, loss, damage, or unavailability of data stored on school district diskettes, tapes, hard drives, or servers, or for delays or changes in or interruptions of service or misdeliveries or nondeliveries of information or materials, regardless of the cause. The school district is not responsible for the accuracy or quality of any advice or information obtained through or stored on the school district system. The school district will not be responsible for financial obligations arising through unauthorized use of the school district system or the Internet.

XI. USER NOTIFICATION

- A. All users shall be notified of the school district policies relating to Internet use.
- B. This notification shall include the following:
 - 1. Notification that Internet use is subject to compliance with school district policies.
 - 2. Disclaimers limiting the school district's liability relative to:

- a. Information stored on school district diskettes, hard drives, or servers.
- b. Information retrieved through school district computers, networks, or online resources.
- c. Personal property used to access school district computers, networks, or online resources.
- d. Unauthorized financial obligations resulting from use of school district resources/accounts to access the Internet.
3. A description of the privacy rights and limitations of school sponsored/managed Internet accounts.
4. Notification that, even though the school district may use technical means to limit student Internet access, these limits do not provide a foolproof means for enforcing the provisions of this acceptable use policy.
5. Notification that goods and services can be purchased over the Internet that could potentially result in unwanted financial obligations and that any financial obligation incurred by a student through the Internet is the sole responsibility of the student and/or the student's parents.
6. Notification that the collection, creation, reception, maintenance, and dissemination of data via the Internet, including electronic communications, is governed by Public and Private Personnel Data Policy, and Protection and Privacy of Pupil Records Policy.
7. Notification that, should the user violate the school district's acceptable use policy, the user's access privileges may be revoked, school disciplinary action may be taken and/or appropriate legal action may be taken.
8. Notification that all provisions of the acceptable use policy are subordinate to local, state, and federal laws.

XII. PARENTS' RESPONSIBILITY; NOTIFICATION OF STUDENT INTERNET USE

- A. Outside of school, parents bear responsibility for the same guidance of Internet use as they exercise with information sources such as television, telephones, radio, movies, and other possibly offensive media. Parents are responsible for monitoring their student's use of the school district system and of the Internet if the student is accessing the school district system from home or a remote location.
- B. Parents will be notified that their students will be using school district resources/accounts to access the Internet and that the school district will provide parents the option to request alternative activities not requiring Internet access. This notification should include:
 1. A copy of the user notification form provided to the student user.
 2. A description of parent/guardian responsibilities.
 3. A notification that the parents have the option to request alternative educational activities not requiring Internet access and the material to exercise this option.
 4. A statement that the Internet Use Agreement must be signed by the user, the parent or guardian, and the supervising teacher prior to use by the student.
 5. A statement that the school district's acceptable use policy is available for parental review.

XIII. NOTIFICATION REGARDING TECHNOLOGY PROVIDERS

- A. "Technology provider" means a person who:
 1. contracts with the school district, as part of a one-to-one program or otherwise, to provide a school-issued device for student use; and
 2. creates, receives, or maintains educational data pursuant or incidental to a contract with the school district.

B. “Parent” means a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent in the absence of a parent or a guardian.

C. Within 30 days of the start of each school year, the school district must give parents and students direct and timely notice, by United States mail, e-mail, or other direct form of communication, of any curriculum, testing, or assessment technology provider contract affecting a student’s educational data. The notice must:

1. identify each curriculum, testing, or assessment technology provider with access to educational data;
2. identify the educational data affected by the curriculum, testing, or assessment technology provider contract; and
3. include information about the contract inspection and provide contact information for a school department to which a parent or student may direct questions or concerns regarding any program or activity that allows a curriculum, testing, or assessment technology provider to access a student’s educational data.

D. The school district must provide parents and students an opportunity to inspect a complete copy of any contract with a technology provider.

E. A contract between a technology provider and the school district must include requirements to ensure appropriate security safeguards for educational data. The contract must require that:

1. the technology provider’s employees or contractors have access to educational data only if authorized; and
2. the technology provider’s employees or contractors may be authorized to access educational data only if access is necessary to fulfill the official duties of the employee or contractor.

F. All educational data created, received, maintained, or disseminated by a technology provider pursuant or incidental to a contract with a public educational agency or institution are not the technology provider’s property.

XIV. SCHOOL-ISSUED DEVICES

A. “School-issued device” means hardware or software that the school district, acting independently or with a technology provider, provides to an individual student for that student’s dedicated personal use. A school-issued device includes a device issued through a one-to-one program.

B. Except as provided in paragraph C, the school district or a technology provider must not electronically access or monitor:

1. any location-tracking feature of a school-issued device;
2. any audio or visual receiving, transmitting, or recording feature of a school-issued device; or
3. student interactions with a school-issued device, including but not limited to keystrokes and web-browsing activity.

C. The school district or a technology provider may only engage in activities prohibited by paragraph B if:

1. the activity is limited to a noncommercial educational purpose for instruction, technical support, or exam-proctoring by school district employees, student teachers, staff contracted by the school district, a vendor, or the Minnesota Department of Education, and notice is provided in advance;
2. the activity is permitted under a judicial warrant;
3. the school district is notified or becomes aware that the device is missing or stolen;
4. the activity is necessary to respond to an imminent threat to life or safety and the access is limited to that purpose;
5. the activity is necessary to comply with federal or state law, including but not limited to Minnesota Statutes section 121A.031; or

6. the activity is necessary to participate in federal or state funding programs, including but not limited to the E-Rate program.

D. If the school district or a technology provider interacts with a school-issued device as provided in paragraph C, clause 4, it must, within 72 hours of the access, notify the student to whom the school-issued device was issued or that student's parent and provide a written description of the interaction, including which features of the device were accessed and a description of the threat. This notice is not required at any time when the notice itself would pose an imminent threat to life or safety, but must instead be given within 72 hours after that imminent threat has ceased.

XV. CELL PHONE USE

1. Students are prohibited from using cell phones and other electronic communication devices during instructional time. Students also are prohibited from using a cell phone or other electronic communication device to engage in conduct prohibited by school district policies including, but not limited to, cheating, bullying, harassment, and malicious and sadistic conduct.

2. If the school district has a reasonable suspicion that a student has violated a school policy, rule, or law by use of a cell phone or other electronic communication device, the school district may search the device. The search of the device will be reasonably related in scope to the circumstances justifying the search.

3. Students who use an electronic communication device during the school day and/or in violation of school district policies may be subject to disciplinary action pursuant to the school district's discipline policy. In addition, a student's cell phone or electronic communication device may be confiscated by the school district and, if applicable, provided to law enforcement. Cell phones or other electronic communication devices that are confiscated and retained by the school district will be returned in accordance with school building procedures.

XVI. LIMIT ON SCREEN TIME FOR CHILDREN IN PRESCHOOL AND KINDERGARTEN

A child in a publicly funded preschool or kindergarten program may not use an individual-use screen, such as a tablet, smartphone, or other digital media, without engagement from a teacher or other students. This section does not apply to a child for whom the school has an individualized family service plan, an individualized education program, or a 504 plan in effect.

XVII. IMPLEMENTATION; POLICY REVIEW

A. The school district administration may develop appropriate user notification forms, guidelines, and procedures necessary to implement this policy for submission to the school board for approval. Upon approval by the school board, such guidelines, forms, and procedures shall be an addendum to this policy.

B. The administration shall revise the user notifications, including student and parent notifications, if necessary, to reflect the adoption of these guidelines and procedures.

C. The school district Internet policies and procedures are available for review by all parents, guardians, staff, and members of the community.

D. Because of the rapid changes in the development of the Internet, the school board shall conduct an annual review of this policy.

526 HAZING PROHIBITION

I. PURPOSE

The purpose of this policy is to maintain a safe learning environment for students and staff that is free from hazing. Hazing activities of any type are inconsistent with the educational goals of the school district and are prohibited at all times.

II. GENERAL STATEMENT OF POLICY

A. No student, teacher, administrator, volunteer, contractor or other employee of the school district shall plan, direct, encourage, aid or engage in hazing.

B. No teacher, administrator, volunteer, contractor or other employee of the school district shall permit, condone or tolerate hazing.

C. Apparent permission or consent by a person being hazed does not lessen the prohibitions contained in this policy.

D. Retaliation against a victim, good faith reporter, or a witness of hazing is prohibited.

E. False accusations or reports of hazing against a student, teacher, administrator, volunteer, contractor, or other employee are prohibited.

F. A person who engages in an act of hazing, reprisal, retaliation, or false reporting of hazing or permits, condones, or tolerates hazing shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures.

Consequences for students who commit, tolerate, or are a party to prohibited acts of hazing may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion.

Consequences of employees who permit, condone, or tolerate hazing or engage in an act of reprisal or intentional false reporting of hazing may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging prohibited acts of hazing may include, but not be limited to, exclusion from school district property and events and/or termination of services and/or contracts.

G. This policy applies to hazing that occurs during and after school hours, on or off

school premises or property, at school functions or activities, or on school transportation.

H. A person who engages in an act that violates school policy or law in order to be initiated into or affiliated with a student organization shall be subject to discipline for that act.

I. The school district will act to investigate all complaints of hazing and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

A. "Hazing" means committing an act against a student, or coercing a student into committing an act, that creates a substantial risk of harm to a person, in order for the student to be initiated into or affiliated with a student organization, or for any other purpose. The term hazing includes, but is not limited to:

1. Any type of physical brutality such as whipping, beating, striking, branding, electronic shocking or placing a harmful substance on the body.
2. Any type of physical activity such as sleep deprivation, exposure to weather, confinement in a restricted area, calisthenics or other activity that subjects the student to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student.
3. Any activity involving the consumption of any alcoholic beverage, drug, tobacco product or any other food, liquid, or substance that subjects the student to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student.
4. Any activity that intimidates or threatens the student with ostracism, that subjects a student to extreme mental stress, embarrassment, shame or humiliation, that adversely affects the mental health or dignity of the student or discourages the student from remaining in school.
5. Any activity that causes or requires the student to perform a task that involves violation of state or federal law or of school district policies or regulations.

B. "Immediately" means as soon as possible but in no event longer than 24 hours.

C. "On school premises or school district property, or at school functions or activities, or on school transportation" means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for school district purposes, the area of entrance or departure from school

526-3 grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student's walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting hazing at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.

D. "Remedial response" means a measure to stop and correct hazing, prevent hazing from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of hazing.

E. "Student" means a student enrolled in a public school or a charter school.

F. "Student organization" means a group, club or organization having students as its primary members or participants. It includes grade levels, classes, teams, activities or particular school events. A student organization does not have to be an official school organization to come within the terms of this definition.

IV. REPORTING PROCEDURES

A. Any person who believes he or she has been the target or victim of hazing or any person with knowledge or belief of conduct which may constitute hazing shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report hazing anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.

B. The school district encourages the reporting party to use the report form available from the principal or building supervisor of each building or available from the school district office, but oral reports shall be considered complaints as well.

The building principal is the person responsible for receiving reports of hazing at the building level. Any adult school district personnel who receives a report of hazing prohibited by this policy shall inform the building principal immediately.

Any person may report hazing directly to a school district human rights officer or to the superintendent. If the complaint involves the building principal, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building principal shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as a primary contact on policy and procedural matters.

C. A teacher, administrator, volunteer, contractor, and other school employees shall be particularly alert to possible situations, circumstances or events which might include hazing. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct which may constitute hazing shall make reasonable efforts to address and resolve the hazing and shall inform the building principal immediately. School district personnel who fail to inform the building

principal of conduct that may constitute hazing or who fail to make reasonable efforts to address and resolve the hazing in a timely manner may be subject to disciplinary action.

D. Submission of a good faith complaint or report of hazing will not affect the complainant or reporter's future employment, grades, work assignments, or educational or work environment.

E. Reports of hazing are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building principal, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of hazing and the record of any resulting investigation.

F. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's legal obligations to investigate, to take appropriate action, and to comply with any discovery or disclosure obligations.

V. SCHOOL DISTRICT ACTION

A. Within three (3) days of the receipt of a complaint or report of hazing, the school district shall undertake or authorize an investigation by school district officials or a third party designated by the school district.

B. The building principal or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the hazing, the complainant, the reporter, and students, or others pending completion of an investigation of alleged hazing prohibited by this policy.

C. The alleged perpetrator of the hazing shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.

D. Upon completion of an investigation that determines hazing has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited behavior. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements, applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; and applicable school district policies and regulations.

E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets or victims of hazing and the parent(s) or guardian(s) of alleged

perpetrators of hazing who have been involved in a reported and confirmed hazing incident of the remedial or disciplinary action taken, to the extent permitted by law.

F. In order to prevent or to respond to hazing committed by or directed against a child with a disability, the school district shall, where determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in hazing.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged hazing, who provides information about hazing, who testifies, assists, or participates in an investigation, or who testifies, assists or participates in a proceeding or hearing relating to such hazing. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment or intentional disparate treatment.

Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct.

VII. DISSEMINATION OF POLICY

A. This policy shall appear in each school's student handbook and in each school's Building and Staff handbooks.

B. The school district will develop a method of discussing this policy with students and employees.

Minnesota Statutes, section 120B.31, subdivision 4a, requires the commissioner to create and publish a form for parents and guardians to complete if they refuse to have their student participate in state-required standardized assessments. Your student's district may require additional information. School districts must post this three page form on the district website and include it in district student handbooks.

Parent/Guardian Refusal for Student Participation in Statewide Assessments

To opt out of statewide assessments, the parent/guardian must complete this form and return it to the student's school.

*To best support school district planning, please submit this form to the student's school no later than January 15 of the academic school year. For students who enroll after a statewide testing window begins, please submit the form within two weeks of enrollment. A new refusal form is required **each year** parents/guardians wish to opt the student out of statewide assessments.*

I understand that by signing this form, my student will lose one opportunity to receive a qualifying score that could potentially save him/her time and money by not having to take remedial, non-credit courses at a Minnesota State college or university. My student will not receive an individual score and will be counted as "not proficient" for the purpose of school and district accountability. My school and I may lose valuable information about how well my student is progressing academically.
