

**Curriculum Director Report**  
**June 26, 2023**

**New Math Series**

I have met with Mr. Metzger and Mrs. Wysong to come up with a plan on how we are going to review the new Math Curriculum for K-5. Our goal is to have the same Math Curriculum for grades K-5 when we move into the new building. I am not sure if we will have a recommendation or not by the December Curriculum Committee Meeting.

**State Testing Results**

We do have some preliminary results back from IAR (grades 3-8), PSAT9, PSAT 10, and SAT (11th grade). We do not have detailed reports yet, so we don't know areas in math or reading that we did well on. All results are under embargo until Report Card release at the end of October. We will be sharing the Report Card Data with you at the November Board Meeting. SAT students do get their scores on the College Board website. For SAT we have the percentage that Met according to College Board. ISBE uses their own cut scores, and ISBE hasn't released that yet.

**Consolidated Plan**

This replaced the Title Plan about 4 years ago. They combined the Title Grants with other grants, and requirements. For example they put in their The Youth In Care this includes homeless foster care students. This year they added English Learners. We have to fill out the paperwork for these 3 students every year. Now it is in this Consolidated Plan. Other than the English Learners we didn't add anything new to the plan.
