Hi Matt,

Did the Wayne's roofing guy Jason ever come out to the school? He did not follow up with me, and I was a little disappointed in his effort. I went back to Rognlins who helped us out with the windows, and they have provided two options Metal Roof and TPO.

	Metal Roof	TPO
Subcontractor Cost	\$791,500	\$332,500
Total Cost (Design, DES, Sales Tax, Project Management)	\$1,266,700	\$598,000

Please let me know if you have any questions or if you want to discuss it in person, I can make a trip there with Rognlins to go over this in details.

Thank you,

Moe

Subject: RE: Mary M Knight Roofing Replacement ROM

Moe,

Please see attached updated proposal for reroofing the high school with metal panel roofing. If the school district is willing to consider TPO roofing like we quoted before, we could do that for \$636,500 (\$155K savings). Let me know if you have any questions or concerns. Have a great day.

Thanks,

Dave Brenton
