RELATION TO
ESSENTIAL
KNOWLEDGE AND
SKILLS

The District shall establish instructional objectives that relate to the essential knowledge and skills for grade-level subjects or courses. These objectives shall address the skills needed for successful performance in the next grade or next course in a sequence of courses.

Assignments, tests, projects, classroom activities, and other instructional activities shall be designed so that each student's performance indicates the level of mastery of the designated District objectives.

GUIDELINES FOR
GRADING

The Superintendent or designee shall ensure that each campus or instructional level develops guidelines for teachers to follow in determining grades for students. These guidelines shall ensure that grading reflects a student's relative mastery of an assignment and that a sufficient number of grades are taken to support the grade average assigned. Guidelines for grading shall be clearly communicated to students and parents.

The District shall permit a student who meets the criteria detailed in the grading guidelines a reasonable opportunity to redo an assignment or retake a test for which the student received a failing grade.

**END-OF-COURSE
ASSESSMENTS**

~~When required by state law, a student's score on the initial end-of-course (EOC) assessment shall count for 15 percent of the student's final grade for the course as reported on the student's transcript.~~

RETAKES

~~If a student retakes an EOC assessment during the summer after completion of the course, the District will include the retake score as 15 percent of the final course grade only if the retake score allows a student to gain credit for the course. The final course grade will not be above a 70 after the final grade is recalculated following the summer retake. Retakes after the first available retake offered in the summer following the course completion will not be used to recalculate the final grade.~~

SPECIAL
EDUCATION

A student's ARD committee shall determine the type of assessment to be administered and how the score on an EOC assessment shall be used for final course grades, credit decisions, and graduation requirements.

GRADING

Calculation of grades with EOC assessment scores shall be in accordance with the District's grading guidelines.

[See EKB for further information regarding EOC assessments]

In addition to conferences scheduled on the campus calendar, conferences may be requested by a teacher or parent as needed.

Academic dishonesty includes cheating or copying the work of another student, plagiarism, and unauthorized communication between students during an examination. The determination that a student has engaged in academic dishonesty shall be based on the judgment of the classroom teacher or another supervising professional employee, taking into consideration written materials, observation, or information from students.
