RE: Workers' Compensation Policy 2025-26

Recommendation

Administration recommends that the Board approve a one-year Workers' Compensation Insurance Policy renewal with *Accident Fund Insurance Company of America* for the premium amount of \$31,277.

Background

Under the Illinois Workers' Compensation Act, all employers are required to carry Workers' Compensation insurance. All job related injuries or diseases, with few exceptions, are covered by the Workers' Compensation Act. If an injury is caused by an accident that arose out of and in the course of the injured person's employment, then it is covered under the Illinois Workers' Compensation Act regardless of fault. The act provides for medical care, temporary and permanent disability, rehabilitation services, and death benefits.

Workers' Compensation premiums are based on industry wide rates of claims paid per dollar of payroll for different classifications of employees (for example, the rate for custodians is higher than that for teachers). These premiums are then subject to modification based on the experience of an individual employer. The district pays an estimated premium and then the amount is adjusted at year-end when final payroll numbers are known.

Current Situation

The District's broker, T.A. Cummings/Assured Partners, obtained three quotes – from *ICW*, *Employers* and *Accident Fund* – the *Accident Fund* renewal was the most competitive and represents a 4% decrease vs last year's premium (on a constant payroll basis) and a net flat cost. Our Experience Mod, an industry measure of risk based on our claims history, remained at 0.94.

Based on a positive experience with the insurance company and a competitive renewal, Administration recommends continuing our coverage with the Accident Fund.

We will continue to receive the TeleCompCare service at no additional cost. This service provides a toll free number for employees to call when they are injured. They will speak to a licensed nurse who will complete all the necessary information, provide treatment advice and direct them to the appropriate form of care, and complete all required paperwork and documentation. This service benefits employees by helping them receive the care they need and aids the employer by reducing administrative work, and keeping claim costs down through prompt and accurate record keeping and by recommending the most appropriate and cost effective form of care.

Our agencies typically receive compensation from insurers in the form of commissions paid as a percentage of the premiums due the applicable insurance companies. Commissions can vary by insurance company, by volume of business placed with that company or the profitability thereof, and other factors. In other cases and depending on various State laws and the capacity in which our agency is acting, our agencies may receive other forms of compensation from insurers, insurance intermediaries, premium finance companies and other vendors, such as contingents, overrides, profit-sharing, premium finance fees, expense reimbursements, producer subsidies, award trips, meetings and other incentives. We also earn interest on premiums we hold until it is time to pay the applicable insurance companies.
