

Transportation Update

May 18, 2026

Daycare Routes

Daycares

Number of Daycares Served	7
Number of Students Served	147
Number of Routes/Buses Used	11

Summary

- This practice is not done in any surrounding districts.
- We are losing valuable minutes on routes picking up these students and they are causing some of the routes to become overcrowded which leads to adding additional routes.
- Crosby ISD does received funding on the state report for the miles traveled to pick up these students because they are on approved routes.

As of right now, the department is managing but as we grow it will cause us to have more issues in routing and time of routes.
