Coleman & Assoc. Land Surveying is pleased to provide you with this proposal for the surveying services required for your project at Wayne Ryan Elementary School in the City of Denton, Texas. We propose to provide our services on an hourly and reimbursable basis for time and materials expended on your project.

The assessment of your project needs, based on conversations, indicates that Coleman & Assoc. Land Surveying will provide a Replat Document for Wayne Ryan Elementary School. This proposal is for surveying products and services only.

The Replat Document will address all of the City of Denton's requirements as outlined in the Replat Checklist attached hereto. Regulations set forth by the Subdivision and Zoning Ordinances will be followed. The Replat Package will consist of one submission package, one resubmission package and one filing package. The filing package consists of two mylar copies, four signed originals and Notary Service for signatures. All electronic files prepared for submission will be delivered via email directly to the lead contact.

The total estimated cost to complete the tasks outlined above is \$3,000.00. Should unforeseen requirements arise, causing additional work beyond the basic scope of services, we will contact you before proceeding with the additional work. If you have any questions or require additional information do not hesitate to call. We are looking forward to working with you on this project.

Sincerely,

Marc G. DeGenaro, CST  
Project Manager
