Subject: Presentation of Attainment of Program Goal for Sexuality Education

State laws require districts to make available to the public the attainment of program goals established by the district's Sexuality Advisory Board relative to the sexuality education curriculum. During the 2009-10 school year, the district's Sexuality Advisory Board identified a program goal and pre and post student assessment data was collected. I am requesting an opportunity to present this data to our Board of Education. Please consider adding this agenda item to the Curriculum agenda of the October 4, 2010, Board of Education, Committee of the Whole Meeting.

Thank you for consideration of this request.
