

## **Notable Highlights:**

8<sup>th</sup> Grade Graduation involved 47 students moving on to be next year's freshmen. Also, Jeff Sitgreaves, as the highest ranking student, delivered a sound message to his classmates. The 8<sup>th</sup> grade students did a good job. Four of the students were recipients of the Presidential Education Award for Academic Excellence. These students had a 90 or above grade point average in the four core subject areas (Language Arts, Science, Math, Social Studies) for the 7<sup>th</sup> and 8<sup>th</sup> grade years. Listed alphabetically, they are: Brooklyn Gose, Julia Martinez, Jaleel Proulx, and Jeff Sitgreaves.

I would like to thank the following people who made the graduation ceremony a successful event: Mrs. Renken presented an admirable message to the graduates. Mrs. Petrosky played the piano beautifully, and Miss Bader called out the students' names perfectly. Mrs. Schroeder's Technology Classes did a top notch job with the video presentations and programs. The cafeteria staff did such a good job that no cake was left at the reception following the ceremony. Noe Maldonado and Eddie De La Rosa set up the sound system and video equipment. Lucy Wilson and Carol Sandoval had the auditorium in great condition.

## **Principal's General Narrative:**

I would like to thank the teachers and staff in both the Intermediate and Junior High for their diligence, patience, and commitment to educating students who are in some of the most difficult years of their growth. I have enjoyed being associated with both groups this past year.

I also wish to thank the school board members for the opportunity that was given to me to work with such fine professionals, and with the students in these grade levels.

Thanks to each of you as school board members for the efforts you make in behalf of the students, teachers, and staff members.

Respectfully submitted,  
Stoney Burks
