

Lakeside Elementary  
 2009-2010 Campus Improvement Plan  
 Gema Hall, Principal

**Executive Summary:**

Lakeside Elementary will increase student engagement through the use of Thinking Maps. We will utilize data from various sources to drive our instruction and incorporate Thinking Maps as a way to increase student engagement, to facilitate learning at higher levels, and to improve academic performance. Our student population consists of: 4.1% African American, 8.4% Hispanic, 70% White, 17.5% Asian with 3.7% of our students classified as economically disadvantaged and 8.7% are classified as Limited English Proficiency (LEP) students.

In an effort to provide a visual representation of our CIP summary we will plot our initiatives as they align with the District Strategic plan using a Tree map. Our hope is that this will demonstrate the Lakeside commitment to support the mission of Coppell.
