Thank you for allowing TriMark the opportunity to provide pricing. Please be aware in this very unstable market; manufacturers are experiencing delays, pricing increases and additional freight surcharges and storage fees. ***As such, quotes will remain in effect for 30 days.*** TriMark reserves the right to make any corrections or adjustments due to cost increases, market fluctuations, supply chain disruptions, tariffs, third party supplier changes in cost, general contractor delays, or any other factors outside of TriMark’s control at any time prior to delivery. We apologize for the inconvenience.

For all custom fabricated equipment, exhaust hoods, walk-in coolers/freezers, and all items requiring owner selections of colors or laminate finishes, these prices are current estimates. We will re-quote those items based on the manufacturers’ prices in effect at the time when field measurements can be taken and/or color/laminate selections are made by the owner. This policy also applies to all items of standard manufacture that cannot be shipped immediately upon fabrication to an owner’s or general contractor’s facility.

****** Attention Dealer: Some items in AutoQuotes require a selection of a specific voltage for some equipment. EPI strives to adjust the quote to “Verify Electrical” for all line items. However, it is the dealer’s final responsibility to confirm the electrical specification (voltage, phase, cord/cap configuration) for all items quoted by EPI prior to the release of any purchase orders. EPI is **NOT**, responsible for items ordered with incorrect voltages. ******
