

April 2025 Special Education Board Report

April is always a busy time of year in the world of special education. We are busy trying to finalize up all of the referrals from the Infant and Toddler Program, PK Screenings, and RTI data from our general education colleagues. In addition many transition meetings have been held and continue to be held for students transitioning from PK to Kindergarten, Elementary to Middle School, and Middle School to High School. Through all of this work we also look forward to celebrating the success of the students with special needs that will be walking across the graduation stage in May completing their k-12 educational career and moving on to adulthood. What a wonderful and busy time of year.

Students by Status

Staffing:

We have had a few staffing resignations/retirements over the last month. These staff will be missed as they move on to new career adventures or to hopefully a life of relaxation. The resignations include 3 certified staff and 1 classified staff. The retirements include 2 classified staff.

25-26 School Year

The special education administrative office is working closely with business management personnel to look at how to balance the budget for the 25-26 school year. Preliminary figures have been considered and we continue to work together to build the budget for the June board meeting.

Special Education Financial Audit

On April 1st 2025 we were notified that COSSA was selected for a financial audit of the Special Education funding codes with a due date of April 18th, 2025. I would like to take a moment to give a huge shout out to Debbie Denney and Mandy Pascale for helping complete the Special Education Financial Audit upload for the State Department of Education. They were able to gather the financial data and information needed to upload the documents requested for this Audit by the short due date.
