- ➔ LPSD All sites Volleyball: November 12, Tuesday – November 15, Friday – Port Alsworth

Food Service Update

Communities and leadership entities across LPSD have been made aware of LPSD keeping the USDA food service proram going through December 2024 and transitioning to local control of food service January through the remainder of the school year since the Board meeting October 16, 2024.

Conversations among community entities are taking place and so far these are their tentative plans with work to continue to be done for implementation and support regarding regulations and kitchen/cook requirements.

Nondalton - locally supported menu and food provided by community

Newhalen/Iliamna - still making a determination

Port Alsworth - locally supported menu and food provided by community

Perryville - locally funding USDA food service program managed by LPSD

Chignik Lagoon - still making a determination

Port Heiden - locally supported menu and food provided by community

Chignik Lake - locally funding USDA food service managed by LPSD

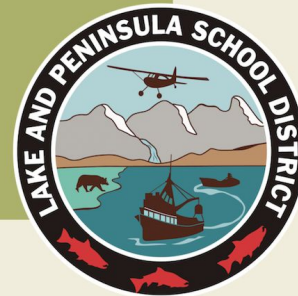

Kokhanok - locally supported menu and food provided by community

Levelock - locally funding USDA food service program managed by LPSD

Igiugig - locally supported menu and food provided by community

Once cost is determined for the continuation of the USDA food service program through December 2024, we will be putting forth a resolution for withdrawal from the Borough Assembly Endowment in support of funding this expense.

HB202 - Opioid Overdose Protection

House Bill 202 requires schools across the state to have naloxone kits available and trained staff ready to use them if needed. Naloxone is a medication that can reverse an opioid overdose.

We will present this policy to the Board for approval in our November meeting. This update follows the guidance from the Alaska Association of School Boards (AASB) and aligns with our current policy on alcohol and drugs.

Our public health nurse is helping to distribute naloxone kits to several locations, including Perryville, Chignik Lake, Chignik Lagoon, Newhalen, and Nondalton. We will make sure all schools are trained and have the necessary kits.

Training will cover important topics like:

- Recognizing signs of an overdose
- How to use naloxone nasal spray
- When to call 911
- Understanding Good Samaritan laws
