

Myton Elementary School

Teacher Student Success Act Plan 2022-2023

One goal for the 2022-2023 school year at MES is to focus on social and emotional growth and its effect on academic performance from the past year (COVID). We would purchase and use the Second Step program in all grades K-5. Second Step will help our students to acquire and effectively apply the knowledge, attitudes, and skills to understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions. These SEL resources will be implemented into our school-wide RTI program integrating academics and SEL.

Another goal is to increase technology for students to utilize in the classroom. We currently have 20 chromebooks. We would like to purchase at least 15 more. Our students will be able to use them in their classrooms instead of only desktop computers in the computer lab.

Our plan to reach these goals for our students include the following strategies:

- 1- Purchase and train the staff in the Second Step Program.
- 2- Train our Student Success Coach to teach SEL lessons and work with student groups and individuals.
- 3- Establish or maintain Calming Corners in each classroom that will create a safe and comfortable space to help reduce stress, and teach positive self help skills that give the students and staff tools for their well being.
- 4- Purchase half a classroom set of chromebooks that can be used in the classroom.
- 5- Build relationships using personalized learning with each student to better support their social and emotional learning. Work towards having a PEP (Personalized Education Plan) for each student.

Budget Allocation = \$10,100 .

Second Step Program	\$3,200
15 Chromebooks	\$3,750
Equipment & Materials for Classroom Calming Corners	\$500
Materials for Personalized Education Plans	\$500
SEL PD for Staff	\$2,150
Total	\$10,100
