Re: Welding Exhaust – Chittim Center

Administrative Services request the approval of the purchasing additional exhaust ventilation equipment for the Welding Program at the Chittim Center. We had received a quote for \$52,985 for the equipment and installation of the equipment through a State Approved Vendor. However, we have just been notified that the location is out of the range for the vendor. We are looking for alternatives and hope to have a revised quote in time for the board meeting. We have attached the original quote for your review.
