Advanced ALICE Training

The purpose of advanced ALICE training is to educate local and school-based law enforcement, as well as church, hospital, and workplace administrators and safety professionals about our researched-based, proactive response approach to Violent Intruder events.

The ALICE training program is designed to supplement current "Lock-down" or "Secure-in-Place" procedures used frequently in our public schools and institutions. Tragic historic events have dictated the need of enhanced response options to increase chances of surviving a horrific event.

Program Topic Areas Include:

Policy and Procedures Review
- Instruction on key components of an organized and thoughtful Active Shooter Emergency Operations Plan with emphasis on Survival Strategies.
- Elicit Active Shooter Readiness Status of their specific institutions, and determine where their strength and weaknesses lie.
- Distinguish between high and low priority issues when advising policy and procedure revisions.

Infrastructure Design
- Recognize potential Safety Hazards in building design.
- Design room layouts with priority on Active Shooter defense.
- Understand immediate methods to improve infra-structure hazards.

Proactive Use of Technology
- Current technology resources available to enhance building/occupant safety.
- Current accepted practices utilizing technology in building/occupant safety.
- Discuss proactive uses of technology for building/occupant safety by interfering with intruder's ability to locate targets.
- Review case studies of past events to determine functionality of technology usage.

Practical Scenario Training
- Conduct practical scenario training in order to experience, visualize, and reinforce course concepts.

Community Resource Assistance
- Locate and elicit community assistance before, during, and after event.
- Demonstrate ability to locate Community Rally Points.
- Discuss potential Community Partners, and the assistance they can provide.
- How to liaison with other local government agencies.

Mass Evacuations
- Discuss Rapid Mass Evacuation plans.
- Discuss tactical advantages associated with maintaining distance vs. securing-in-place and/or barricading.
- Identify non-conventional methods of mobilizing large numbers of people.

Trauma First Aid
- Techniques designed to prolong injury survival until medical assistance is available.

Lesson Preparation
- Participants will be required to build and present a 10 minute presentation to demonstrate material comprehension.
- Review and Exam

Accelerate ALICE Training with e-Learning

The ALICE Training Institute offers web-based e-Learning modules which supplement the physical active shooter response training it provides. The e-Learning courses provide benefits to organizations such as:

- Reduced ALICE Implementation time
- Overall Cost Reduction
- Flexible Learning Schedule - allows learning over a period of time
- Training Consistency - eliminate trainer variation
- Scalable Solution - train 10 to 500,000 people across multiple locations
- Auditing - Measure skills and confirm Compliance

The ALICE e-LEARNING modules were developed in collaboration with an advisory board including experts from various professions. ALICE offers e-Learning modules for businesses, healthcare facilities, a spanish translation, and K-12 organizations.

ABOUT ALICE

ALICE (Alert, Lockdown, Inform, Counter, Evacuate) is a set of proactive strategies that increase chances of survival during a violent intruder event. The ALICE Training Institute provides options-based active shooter response training and curriculum for staff, students, and employees. ALICE is supported by law enforcement with more than 2,300 police agencies, 2,300 public school districts, and 700 businesses implementing ALICE within their organizations. ALICE concepts are in line with recommendations from the White House, US Department of Education, Department of Homeland Security, and State Attorney Generals.

CONTENT & CURRICULUM

Content modules leverage multi-media to keep users engaged during the learning process.

TESTING & CERTIFICATION

Multi-tiered certification program provides quality while ensuring performance levels at the organization, instructor, and citizen levels.

IMPLEMENTATION

Enable an effective and timely implementation of the ALICE program with our project-plan-based implementation guide.

REPORTING

Gain visibility into your organization's training history and competency levels.

EASY DELIVERY

Course delivery through our learning portal or through your organization's existing Learning Management System (LMS).
