(870) 866-2769

Hours of Operation:

What is the mission of the non-profit/community organization?

To be a positive influence upon the children in our community.
To believe in them and to support them in way we can.

What service(s) does the non-profit/community organization provide?

Provide a forum for local organizations to present their programs & to inform the community on the benefits provided by their organizations. Also, it provides organizations with the ability to share what their financial needs are or what events they have coming up that require additional volunteers. Please describe the volunteer activities students will participate in at the non-profit/community organization and how those activities may connect to curriculum learning goals. (See the Act 648 Implementation Guide.)
The activities that Key Club students assist us with teach them how to communicate with business owners and professionals. At our weekly meetings they are required to speak to an entire group about what is going on at their school. They learn the value of fundraising and how to work with individuals of all diversities. They also learn to cook, serve, cleanup and interact with the general public when they assist us with an event. Pancake breakfasts

What are the procedures and policies in place to ensure the safety of student volunteers?
every event that students assist us with have ~~at least~~ adults or individuals from our local police and sheriff departments. We never have students at events without adult supervision.

List any special considerations of the non-profit/community organization.

Kiwanis Club of Camden AR	- can you tie the activities back to classroom learning? There are examples of what students will learn as a result of the volunteerism, but CSL is about applying classroom learning to service projects.	As per email 6/1/20: Students will have the opportunity to practice interpersonal and professional communication. Students will experience civic engagement in the community and learn its importance.
