# VENUS ATHLETICS

## Program Updates:

### **Middle School Athletics**

Middle School boys and girls have begun preparation for track seasons. They had their first meet at the Clif White Invitational March. 2nd. Both 7th and 8th grade girls took first place and competed at a high level. The boys also competed well coming away with 1st in 8th grade and 2nd in 7th. Coaches are working to grow athletes' individual athletic ability while still teaching concepts of teamwork during this season.

### **High School Athletics**

**Boys and Girls Soccer** are finishing up district play going into March. The boys team has faced some struggles with a young group but have grown as a group, competing to win no matter the result. The girls are one win away from securing a playoff spot for the third year in a row. More details to come on playoff information.

**Powerlifting** is entering into their regional competitions the first couple weekends of March. We have multiple student-athletes in each group with a real chance of advancing to the state meet.

### **Spring Sports**

**Softball and Baseball** entered district competition the first week of March. Baseball has already seen significant improvement from last year. They

have collected several tournament wins and played Kennedale to the end in their first district game. Softball also has a young group who is growing, they went 3-2 in our tournament and look to carry the momentum into district play.

**Track and Field** High school track is underway. We have had several athletes place in both of their first meets. They look to have a strong performance at the Clif White Bulldog Relays this Thursday March 5th.

**Tennis** has seen all kinds of success competing all over the metroplex. They are gearing up for the district tournament at the end of the month. There have been over twenty student-athletes consistently play which almost doubles prior participation.

**Golf** had their first tournament on March 3rd where all returners shot lows. Issac Gonzales led the way for the boys. Kaitlyn Wise led the way for the girls helping them place second in their first tournament. They will compete in a tournament each week of the month preparing for the district tournament in April.
