

DU PAGE ELEMENTARY SCHOOL DISTRICT 13
BOARD OF EDUCATION
Bloomington, Illinois
Regular Meeting June 26, 2023

FOR ACTION

Subject: Approval of Intergovernmental Agreement with the Illinois Department of Healthcare.

In last week's *Thursday Letter*, I also mentioned that the ability to bill medicaid for school provided services is expanding. Previously, it was limited to services for students who were identified as receiving special education support. Due to changes in the law, it is being expanded to include general education students for services provided by the school nurse, social worker, etc. This has the potential to provide additional revenue for the District.

For this reason, an intergovernmental agreement with the Illinois Department of Healthcare is attached. The agreement must be in place prior to June 30, 2023 in order for the District to claim this reimbursement. This was discovered during the final operational board meeting for NDSEC earlier this month.

It is my recommendation to the Board to approve the intergovernmental agreement with the Illinois Department of Healthcare, as presented.

Recommendation: The Board approve the intergovernmental agreement with the Illinois Department of Healthcare, as presented.
