SUBJECT: Community Councils and School LAND Trust Plans

Dear Superintendent Butters and Weber School District Board Members,

All Weber School District schools have completed the school improvement process by submitting their School LAND Trust Plans online.

Each school has worked carefully with its faculty, Community Council, and PTSA/PTO to develop plans to enhance student achievement. Committees were formed at a district level to review School LAND Trust Plans before sharing them with the Board for review.

All secondary and elementary schools comply with Utah State Law, with all evidence sent to the appropriate directors.

We have invited the Board to review these plans and talk with principals if needed.

Based on your review, we request that the School LAND Trust Plans approve at the WSD Board meeting on May 3, 2023.
