BOARD REPORT 9.9

APPROVAL OF NEW INTERCOM SYSTEM AT ADLER, BUTTERFIELD, ROCKLAND & ENHANCEMENTS TO INTERCOM SYSTEM AT HIGHLAND

The administration is recommending a full replacement of the intercom and paging system at Adler Park, Butterfield, and Rockland Schools. This new system will replace an end-of-life system with new hardware and management software and will be in line with the system that was recently installed at Copeland. The proposed project includes hardware, management software/licensing, installation, and programming. The summer project will also include minor improvements to the existing Highland Middle School system.

ROLL CALL VOTE

POSSIBLE MOTION: I move that the Board of Education approve the purchase and installation contract with Modern Media Technology for the hardware, installation, and programming of a new intercom system for Adler Park, Butterfield, and Rockland, and enhancements to the intercom system at Highland, not to exceed \$560,000
