Independent Auditor's Report

To the Board of Education Livonia Public Schools

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Livonia Public Schools (the "School District") as of and for the year ended June 30, 2016 and the related notes to the financial statements, which collectively comprise Livonia Public Schools' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of Education Livonia Public Schools

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Livonia Public Schools as of June 30, 2016 and the respective changes in its financial position and cash flows, where applicable, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion analysis, major fund budgetary comparison schedules, schedule of Livonia Public Schools' proportionate share of the net pension liability for MPSERS determined as of the plan year ended September 30, and the schedule of Livonia Public Schools' contributions to MPSERS determined as of the year ended June 30, as identified on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Livonia Public Schools' basic financial statements. The other supplemental information, as identified in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

To the Board of Education Livonia Public Schools

The other supplemental information, as identified in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information, as identified in the table of contents, is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 26, 2016 on our consideration of Livonia Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Livonia Public Schools' internal control over financial reporting and compliance.

September 26, 2016

Management's Discussion and Analysis

This section of Livonia Public Schools' (the "School District") annual financial report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2016. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Livonia Public Schools financially as a whole. The government-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the government-wide financial statements by providing information about the School District's most significant fund - the General Fund, the 2013 Series I Bond Fund, and the 2013 Series II Bond Fund, with all other funds presented in one column as nonmajor funds. One of the remaining statements, the statement of fiduciary net position, presents financial information about activities for which the School District acts solely as an agent for the benefit of students and parents. The other remaining statements relate to the School District's internal service fund.

Management's Discussion and Analysis (Continued)

Reporting the School District as a Whole - Government-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid. These two statements report the School District's net position - the difference between assets and deferred outflows of resources versus liabilities and deferred inflows of resources, as reported in the statement of net position - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net position - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District. The statement of net position and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, athletics, and food services. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Most Significant Funds - Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Food Service and Special Education Center Program Funds are examples) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental Funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in reconciliations.

Management's Discussion and Analysis (Continued)

Proprietary Fund - Proprietary fund reporting focuses on economic resources measurement and an accounting method called full accrual accounting. The proprietary fund statements present a long-term view of operations and the services they provide to the other funds.

The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity funds. All of the School District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Table I provides a summary of the School District's net position as of June 30, 2016 and 2015:

| Table I | Governmental Activities | | | | |
|---|-------------------------|---------|------|---------|--|
| | June 30 | | | | |
| | | 2016 | 2015 | | |
| | | (in mi | | | |
| Assets | | | | | |
| Current and other assets | \$ | 176.2 | \$ | 130.3 | |
| Capital assets | - | 194.6 | | 154.7 | |
| Total assets | | 370.8 | | 285.0 | |
| Deferred Outflows of Resources - Deferred | | | | | |
| outflows related to pensions | | 29.7 | | 16.2 | |
| Total assets and deferred outflows of resources | | 400.5 | | 301.2 | |
| Liabilities | | | | | |
| Current liabilities | | 45.7 | | 44.0 | |
| Long-term liabilities | | 241.7 | | 167.2 | |
| Net pension liability | | 279.9 | | 254.4 | |
| Total liabilities | | 567.3 | | 465.6 | |
| Deferred Inflows of Resources | | | | | |
| Deferred charges on bond refunding | | 3.8 | | 4.2 | |
| Deferred inflows related to pensions | | | | | |
| and revenue contributions | | 10.2 | | 18.7 | |
| Total liabilities and deferred inflows of resources | | 581.3 | | 488.5 | |
| Net Position | | | | | |
| Net investment in capital assets | | 54.8 | | 51.3 | |
| Restricted | | 13.9 | | 12.2 | |
| Unrestricted (deficit) | | (249.5) | | (250.8) | |
| Total net position | \$ | (180.8) | \$ | (187.3) | |

Management's Discussion and Analysis (Continued)

The above analysis focuses on the net position (see Table 1). The change in net position (see Table 2) of the School District's governmental activities is discussed below. The School District's net position was (\$180.8) million at June 30, 2016. The School District experienced an increase in net position of \$6.5 million. Changes during the year resulted from several changes including current assets (cash) increasing \$45.9 million, long-term liabilities (bond debt), including deferred charges on refunding, increasing \$74.1 million, and net pension liability, including deferred inflows related to pensions and revenue contributions, increasing \$17.0 million. Further, capital assets net of depreciation increased approximately \$39.9 million and current liabilities increased \$1.7 million.

Net investment in capital assets totaling \$54.8 million, compares the original cost, less depreciation of the School District's capital assets, to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net position of \$13.9 million is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use that net position for day-to-day operations. The remaining amount of net position (\$249.5) million was unrestricted.

The (\$249.5) million in unrestricted net position of governmental activities represents the accumulated results of all past years' operations. This includes all of the different governmental fund types. Thus, it is important to note that not all unrestricted net position is set aside for day-to-day General Fund operations. It includes funds set aside to complete capital projects, provide for food service, and cover special education shortfalls. The negative unrestricted net position balance is attributed to the \$279.9 million net pension liability and pension related activity arising from the underfunded MPSERS pension obligation.

Management's Discussion and Analysis (Continued)

The change in net position of the School District's governmental activities is discussed below.

| Table 2 | Governmental Activities | | | | | | |
|------------------------------------|-------------------------|---------|---------|---------|--|--|--|

| Net Position - End of year | \$ (| (180.8) | \$ | (187.3) | | | |

Management's Discussion and Analysis (Continued)

As reported in the statement of activities, the cost of all of our governmental activities this year was \$181.4 million. Certain activities were partially funded from those who benefited from the programs with \$7.7 million of charges for services or by other governments and organizations that subsidized certain programs with grants and contributions of \$33.4 million. We paid for the remaining "public benefit" portion of our governmental activities with \$46.7 million in taxes, and \$99.1 million in State foundation allowance.

As discussed above, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of district operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with state-prescribed available unrestricted resources.

The School District's Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being held accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As the School District completed this year, the governmental funds reported a combined fund balance of \$129.6 million, which is an increase of \$46.5 million from last year. This is primarily a result of the issuance of the 2013 Bond Fund Series II bond, (\$86.8 million increase in bond fund balance as of year-end) and capital spending of proceeds related to the 2013 Series I Bond Fund. Other governmental funds increased in fund balance including the General Fund (\$4.0 million) and other nonmajor governmental funds increased by approximately \$4.0 million.

The School District's budget has been pressured for many years from the overall economic downturn in Michigan, as well as declining enrollment, increased costs for health care, and mandatory pension contributions. The district is pleased to report that in the General Fund, our principal operating fund, the fund balance increased from \$4.0 million to \$8.3 million. While it was the School District's budget plan for 2016 to utilize fund balance to meet budget targets, the School District continues to evaluate the budget and make reductions, increase revenues, and find cost-saving measures whenever possible.

While we are pleased with the increase to our General Fund fund balance, we are mindful that we still have financial challenges ahead of us. Declining enrollment presents a myriad of problems for school districts. The presence of a fund balance allows the district to better manage the decline. Fund balance also provides flexibility in dealing with unanticipated emergencies such as mid-year reductions in funding. Finally having an adequate fund balance allows the district to avoid drastic changes in educational programs and/or employee layoffs during the school year.

The 2013 Bond Series I Fund balance decreased by approximately \$48.3 million. This is a result of the continued capital project expenditures that included major upgrades to six additional schools and the continuation of technology infrastructure being upgraded throughout the

Management's Discussion and Analysis (Continued)

district. There are plans for the remaining voter-approved bond funds to be expended over the next three years.

The special revenue funds remained comparable to the prior year. The Food Service Fund and Special Education Fund experienced \$78,000 and \$419,000 increases, respectively, in fund balance. In addition, indirect costs in the Special Education Fund and Food Service Fund were transferred to the General Fund.

Combined, the Debt Service Funds showed a fund balance increase of approximately \$450,000. The School District millage rates decreased from the prior year to 4.54 mills. The millage rate for debt service results from the Construction Bond of \$195 million approved by the Livonia Public School voters in May 2013 and the 2014 Refunding Bonds of \$65 million refinanced in February 2014. Millage rates are determined annually to ensure that the School District accumulates sufficient resources to pay annual bond issue-related debt service. Debt service funds fund balances are restricted since they can only be used to pay debt service obligations.

The combined Capital Projects Funds (excluding the 2013 Bond Funds) fund balance increased approximately \$3.1 million mostly as a result of the School District's decreased sinking fund spending while the bonded capital project funds are expended. The School District collected \$4.6 million in voter-approved sinking fund millage and expended \$1.6 million on facility improvements. This millage is available to fund specific capital projects allowed by State law and approved by the voters. The Capital Projects Funds also include \$.9 million of fund balance in the Building and Site Technology Fund, which is used to upgrade and replace technology.

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. The final amendment to the budget was adopted just before year end. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in required supplemental information of these financial statements.

There were revisions made to the 2015-2016 General Fund original budget. The major change was an increase in budgeted revenues and expenditures to reflect the State of Michigan's UAAL rate stabilization transaction. The State increased the retirement rate for mandated pension costs for 2015-16 and also provided state aid payments to (generally) offset the increased costs. These amounts were not known when the budget was originally adopted and the budget was updated during the year to reflect the increased revenues and expenditures for the State UAAL rate stabilization transaction.

The final budgeted revenues increased \$2.8 million from the original budget. A large part of the increase in revenue was a result of the UAAL state aid payment mentioned above as well as a one-time payment made by Wayne County RESA to offset Special Education Transportation costs.

Management's Discussion and Analysis (Continued)

There were minor variances between the final budget and actual amounts received in revenues. The district recorded an additional \$620,000 in revenue over what we anticipated during the preparation of our final budget amendment. Two variances of note are an additional \$302,000 of Section 31a At-Risk funding recognized as well as a State Aid adjustment of \$247,000 related to a prior year Special Education reimbursement.

There were adjustments to the original expenditure budget of \$.4 million. This is primarily a result of the increased expenditures for employee benefit costs including the increase in retirement costs as discussed earlier offset by decreased expenditures in other areas such as salaries, purchased services, and supplies.

There were variances between the final budget and the actual expenditures. Overall expenditures were \$2.2 million less than anticipated. Salaries and benefits were less than budgeted by approximately \$965,000. Utility costs and other purchased services were approximately \$632,000 less than anticipated. Maintenance supplies and transportation supplies including fuel were also less than anticipated by approximately \$568,000 in the fiscal year.

This may impact the 2016-2017 budget and will be reviewed for any future budget amendment adjustments.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2016, the School District had \$325.0 million invested in a broad range of capital assets, including land, buildings, vehicles, furniture, and equipment. This amount represents a net increase (including additions, disposals, and depreciation) of approximately \$44.4 million, or 15.8 percent, from last year.

| | 2016 | | | 2015 | | |
|--|------|---|-----------|---|--|--|
| Land Construction in progress Buildings and building improvements Furniture and equipment Buses and other vehicles | \$ | 6,603,825 38,238,677 249,048,184 22,166,173 8,968,766 | \$ | 6,694,178 18,529,336 227,311,557 19,739,226 8,368,834 | | |
| Total capital assets | | 325,025,625 | | 280,643,131 | | |
| Less accumulated depreciation | | 130,451,080 | | 125,956,709 | | |
| Net capital assets | \$ | 194,574,545 | <u>\$</u> | 154,686,422 | | |

This year's net additions of \$44.4 million included primarily building renovations. This year marked the third year of major expenditures of the 2013 bond proceeds. Phase 2 projects that were completed in beginning of the school year included major renovation and upgrades to five schools: Hayes, Kennedy, Roosevelt Elementary schools, Riley Upper Elementary school, as well

Management's Discussion and Analysis (Continued)

as Emerson Middle School. Other ongoing Phase 2 projects included Franklin High School and technology infrastructure upgrades across the School District. Phase 3 projects include major renovation and upgrade to six schools, Grant, Hoover, and Randolph Elementary Schools, Johnson Upper Elementary School, Holmes Middle School, as well as Stevenson High School. Also continued this fiscal year were the technology infrastructure upgrades across the School District and the purchase of additional school buses. There were other upgrades and renovations utilizing the sinking fund proceeds during the year. We present more detailed information about our capital assets in the notes to the financial statements.

Debt

At the end of this year, the School District had \$217.0 million in bonds outstanding versus \$152.4 million in the previous year - a change of 42.4 percent. This increase is a result of the issuance of the 2013 Bond Fund Series II. Those outstanding bonds consist of the following:

 2016
 2015

 General obligation bonds
 \$ 216,990,000
 \$ 152,365,000

The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issues "qualified debt," i.e., debt backed by the State of Michigan, such obligations are not subject to this debt limit. The School District's outstanding unqualified general obligation debt of \$217.0 million is significantly below the statutorily imposed limit. Bond payments are due annually and extend through the year 2045. The annual property tax levy to extinguish current debt in 2015-2016 is 4.6 mills. Other long-term obligations include accrued vacation pay, sick leave, and severance pay. We present more detailed information about our long-term liabilities in the notes to the financial statements.

Management's Discussion and Analysis (Continued)

Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration consider many factors when setting the School District's 2016-2017 fiscal year budget. One of the most important factors affecting the budget is our student count. The State foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2017 fiscal year is 10 percent and 90 percent of the February 2016 and October 2016 student counts, respectively. The 2016-2017 budget was adopted in June 2016, based on an estimate of students that will be enrolled in September 2016. Almost 73 percent of total General Fund revenue is from the foundation allowance. Under State law, the School District cannot assess additional property tax revenue for general operations. As a result, the district funding is heavily dependent on the State's ability to fund local school operations. Based on early enrollment data at the start of the 2016-2017 school year, we anticipate that the fall student count will be less than the estimates used in creating the 2016-2017 budget. Once the final student count and related per pupil funding are validated, State law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations. The School District amends the budget two to three times per year to reflect the most accurate projections in revenue including state aid, local revenue, or other resources. We also analyze the budget for potential changes in staffing, healthcare costs, utilities, and other costs.

The 2016-2017 budget includes a decrease in revenue based on the estimated decline in enrollment in the School District, a trend that is continuing throughout the state of Michigan. In order to more closely match revenue to expenditures, the School District made revenue enhancements and cost reductions of approximately \$2.7 million. The District will review the budget assumptions in the fall and make recommendations and budget amendments to reflect any changes in the budget estimates. As in the past few years, budget adjustments in fiscal year 2017 will include changes in revenue and expenditures to match the state's change in retirement costs and revenue off set amounts.

Over the past several years, the School District has worked with all employee groups to provide savings in salaries and benefits including reduced salary schedules, changes to healthcare benefit plans, changes in healthcare providers, and changes in employee contributions to health care.

Each year, the School District considers critical budget issues including long-range planning, state aid funding, student enrollment, program reductions, and revenue enhancement - cost containment efforts.

Future year operating budgets will also be challenged as the ability of the State to provide funding for schools is in question due to state budget priorities. In addition, student enrollment is projected to continue to decline based on existing demographics, both in the School District and across the state. In future budget planning, the School District will also be challenged to continue efforts to provide a balanced budget without depleting all of the School District's fund equity.

Management's Discussion and Analysis (Continued)

Contacting the School District's Management

This financial report is intended to provide our taxpayers, parents, and investors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional information, we welcome you to contact the business office.

Note I - Nature of Business and Significant Accounting Policies

The accounting policies of Livonia Public Schools (the "School District") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the School District:

Reporting Entity

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate, component units of the School District. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and either (1) the School District's ability to impose its will over the component unit, or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the School District. Based on the application of the criteria, the School District does not contain any component units.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (I) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenues are reported instead as general revenue.

Note I - Nature of Business and Significant Accounting Policies (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When an expense is incurred for purposes for which both restricted and unrestricted net position or fund balance are available, the School District's policy is to first apply restricted resources. When an expense is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the School District's policy to spend funds in this order: committed, assigned, and unassigned.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provide and (2) operating grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes, unrestricted state aid, unrestricted federal funds.

Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenue not meeting this definition is classified as a deferred inflow of resources. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Note I - Nature of Business and Significant Accounting Policies (Continued)

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the School District.

Proprietary fund and fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting. Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The only proprietary fund maintained is an internal service fund, which is used to account for the financing of risk management services provided to other funds on a cost reimbursement basis. The internal service fund maintained by the School District is the Health and Welfare Fund, which includes transactions related to the School District's risk management programs for healthcare, workers' compensation, and disability claims. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

The School District reports the following major governmental funds:

General Fund - The General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund. The School District's General Funds include the General Fund, athletic activities, and funded projects.

2013 Bond Series I Fund - The 2013 Bond Series I Fund is used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for acquiring equipment and technology, and for remodeling and equipping school facilities. The fund operates until the purpose for which it was created is accomplished.

2013 Bond Series II Fund - The 2013 Bond Series II Fund is used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for acquiring equipment and technology, and for remodeling and equipping school facilities. The fund operates until the purpose for which it was created is accomplished.

Additionally, the School District reports the following fund types:

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or assigned to expenditures for specified purposes. The School District's special revenue funds include the Food Service and Center Program Funds. Any operating deficit generated by these activities is the responsibility of the General Fund.

Note I - Nature of Business and Significant Accounting Policies (Continued)

Debt Service Funds - Debt service funds are used to record tax, interest, and other revenue and the payment of interest, principal, and other expenditures on long-term bond debt.

Capital Projects Funds - The Building and Site Fund was used to record Durant plaintiff court settlement proceeds and other revenue. Disbursements are specifically for acquiring capital improvements, technology replacement, or other improvements determined by the Board of Education. The fund operates until the purpose for which it was created is accomplished.

The 2012 Capital Projects Fund is used to account for the proceeds derived from the sale of real estate. These proceeds will be held in trust in a special capital project fund identified separately from any other capital project funds which shall be used for purchasing other real estate for the district and/or for renovating, replacing, or developing real estate, facilities, or capital equipment as authorized by the Board of Education.

The Building and Repairs Fund is used to record the sinking fund property tax levy and other revenue and the disbursement of invoices specifically designated for acquiring new school sites and construction or repair of school buildings and sites.

Internal Service Fund - Internal service funds account for risk management services provided to other departments of the School District on a cost-reimbursement basis.

Fiduciary Funds - Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent. The Private Purpose Trust Fund is used to account for resources legally held in trust, including contributions received by the School District to be awarded in the form of scholarships. The Agency Fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operations. This fund is used to record the transactions of student groups for school and school-related purposes. The funds are segregated and held in trust for the students.

Assets, Liabilities, and Net Position or Equity

Cash and Investments - Cash and investments include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. Investment income is recorded in the fund for which the investment account was established.

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds."

Note I - Nature of Business and Significant Accounting Policies (Continued)

All trade and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 3 I and the related property taxes become a lien on December I of the following year. These taxes are billed on July I for approximately 50 percent of the taxes and on December I for the remainder of the property taxes. Taxes are considered delinquent on March I of the following year. At this time, penalties and interest are assessed and the total obligation is added to the county tax rolls.

Inventories and Prepaid Costs - Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid costs in both government-wide and fund financial statements.

Restricted Assets - The unspent bond proceeds and related interest of the Capital Projects Funds require amounts to be set aside for construction. In addition, the unspent property taxes levied in the Debt Service Funds, Building and Repairs Fund, and Capital Projects Fund are required to be set aside for future bond principal and interest, school building construction or repair, and capital projects, respectively. These amounts have been classified as restricted assets.

Capital Assets - Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

| Buildings and building additions | 20 to 50 years |
|----------------------------------|----------------|
| Buses and other vehicles | 5 to 10 years |
| Furniture and other equipment | 5 to 10 years |

Note I - Nature of Business and Significant Accounting Policies (Continued)

Employee Related Liabilities - The employment related liabilities reported in the government-wide statements consist of earned but unused accumulated vacation, sick leave benefits, and early retirement benefits. A liability for these amounts is reported in governmental funds as it comes due for payment. The liability for compensated absences has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments at normal retirement age and other employees who are expected to become eligible in the future to receive such payments upon normal retirement are included. The early retirement benefits consist of early retirement incentive cash payments provided to 40 employees over a three-year period. The cost of the obligation is reported in long term debt.

The liability for employment-related obligations also includes severance pay reported in the government-wide statements, which is calculated based on years of service multiplied by \$200 per year once employees reach 10 years of service and are eligible for retirement.

Long-term Obligations - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as debt service expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period.

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District only has one item that qualifies for reporting in this category. It is the deferred outflow related to the pension plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources

Note I - Nature of Business and Significant Accounting Policies (Continued)

(revenue) until that time. The School District has three types of deferred inflows of resources. The first arises only under a modified accrual basis of accounting, and is therefore only reported in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes that are not collected during the period of availability. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other two types of deferred inflow of resources relate to deferred bond charges on refunding and the pension plan and revenue contributions. These are reported only in the statement of net position. Deferred inflows at June 30, 2016 include \$7,598,079 for funding received through state appropriations for contributions to the MPSERS pension plan after the measurement date and \$2,631,373 related to the pension plan described in Note 13.

Fund Balance - In the fund financial statements, governmental funds report the following components of fund balance:

- Nonspendable: Amounts that are not in spendable form or are legally or contractually required to be maintained intact
- Restricted: Amounts that are legally restricted by outside parties, constitutional provisions or enabling legislation for use for a specific purpose
- Committed: Amounts that have been formally set aside by the Board of Education for use for use for specific purposes. Commitments are made and can be rescinded only via resolution of the Board of Education.
- Assigned: Intent to spend resources on specific purposes expressed by the Board of Education or superintendent, or finance committee, who is authorized by resolution approved by the Board of Education to make assignments.
- Unassigned: Amounts that do not fall into any other category above. This is the
 residual classification for amounts in the general fund and represents fund balance
 that has not been assigned to other funds and has not been restricted, committed
 or assigned to specific purposes in the general fund. In other governmental funds,
 only negative unassigned amounts are reported, if any, and represent expenditures
 incurred for specific purposes exceeding the amounts previously restricted,
 committed or assigned to those purposes.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Note I - Nature of Business and Significant Accounting Policies (Continued)

Comparative Data/Reclassifications - Comparative data is not included in the School District's financial statements.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. MPSERS uses the economic resources measurement focus and the full accrual basis of accounting. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized as expense when due and payable in accordance with the benefit terms. Related plan investments are reported at fair value.

Adoption of New Standard – As of June 30, 2016, the Organization adopted Governmental Accounting Standards Board ("GASB") Statements No. 72, Fair Value Measurement and Application and No. 79, Certain External Investment Pools and Pool Participants. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements. GASB Statement No. 79 provides guidance for determining whether certain investment pools can continue to be accounted for using amortized cost. The adoption did not have a significant impact on amounts reported in the financial statements.

Note 2 - Stewardship, Compliance, and Accountability

Budgetary Information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles and state law for the General Fund, Special Revenue Funds, Debt Retirement Funds, Capital Project Funds, and the Internal Service Fund, except that capital outlay expenditures are budgeted in other expenditure categories. All annual appropriations lapse at fiscal year end.

The General Fund budget is presented consistent with the original and amended budgets adopted. The budgets for funded projects and athletics were adopted separately and separate budgets for each of these activities have been presented accordingly. Capital outlay is budgeted and included in the functions for budget purposes and reported seperately on the statement of revenue, expenditures, and changes in fund balances at the fund level.

Note 2 - Stewardship, Compliance, and Accountability (Continued)

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the School District to have its budget in place by July I. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the budget was amended in a legally permissible manner. The School District amended budgeted amounts during the year to reflect the most up-to-date information available relative to student counts and government funding received along with the related budgetary cuts to align with updated funding amounts.

Encumbrance accounting is employed in governmental funds. Amounts encumbered for purchase orders, contracts, etc. are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

The School District did not have significant expenditure budget variances.

Note 3 - Deposits and Investments

State statutes (and the School District's investment policy) authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

The School District has designated three banks for the deposit of its funds.

There are no limitations or restrictions on participant withdrawals for approximately \$29,000,000 of the investment pools that are recorded at amortized costs except for a minimum one day investment period.

The School District's cash and investments are subject to several types of risk, which are examined in more detail below:

Note 3 - Deposits and Investments (Continued)

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District's investment policy requires that financial institutions be evaluated and only those with an acceptable risk level are used for the School District's deposits for custodial credit risk. At year end, the School District's deposit balance of \$27,512,863 had \$26,762,863 of bank deposits (certificates of deposit, checking and savings accounts) that were uninsured and uncollateralized. The School District believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the School District evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk of Investments - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's policy for custodial credit risk states custodial credit risk will be minimized by limiting investments to the types of securities allowed by state law, and by pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the School District will do business using the criteria established in the investment policy. The following investment securities were uninsured and unregistered and held in the following manner:

| Investment Type | Carry | ing Value | How Held |
|---------------------|-------|-----------|----------------------|
| U.S. Treasury notes | \$ 2 | 6,356,740 | Held by counterparty |

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's investment policy does not restrict investment maturities, other than commercial paper which can only be purchased with a 270-day maturity. The School District's policy minimizes interest rate risk by requiring the structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the School District's cash requirements.

Note 3 - Deposits and Investments (Continued)

Credit Risk - State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District's investment policy does not further limit its investment choices.

At year end, the maturities of investments and the credit quality ratings of debt securities (other than the U.S. government) are as follows:

| Investment | | Fair Value | Maturities | Rating | Rating Organization |
|--|----|-------------|------------------|--------|---------------------|
| U.S. Government Money Market Fund Capital Share Class* | \$ | 16,618,072 | N/A | AAAmf | Moody's |
| Federated Government Obligations Fund* | | 2,754,205 | N/A | AAAmf | Moody's |
| Commercial Paper | | 12,911,300 | Less than I year | P-I | Moody's |
| Michigan Liquid Asset Fund - Investment Pool* | | 29,038,767 | N/A | AAAm | S & P |
| U.S. Treasury notes | | 26,356,740 | Less than I year | Aaa | Moody's |
| Federal Agency Bond | | 39,386,519 | 3.44 years | AAA | Moody's |
| Total investments | \$ | 127,065,603 | | | |

^{*}Investment fair value reported at amortized cost

Concentration of Credit Risk - The School District places no limit on the amount the School District may invest in any one issuer. The School District's policy minimizes concentration of credit risk by requiring diversification of the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. More than 5 percent of the School District's investments are in two separate federal agency notes; these investments collectively are 12.4 percent of the School District's total investments, respectively.

Foreign Currency Risk - Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. State law and the School District's policy prohibit investment in foreign currency.

Note 4 - Fair Value Measurement

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level I inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

Note 4 - Fair Value Measurement (Continued)

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The School District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The School District has the following recurring fair value measurements as of June 30, 2016:

Assets and Liabilities Measured at Fair Value on a Recurring Basis

| | | | | Fair \ | Value M | easurement (| Jsing | |
|--|----|-----------------------------|----------|---|----------|---|-------------|---|
| | | Balance at June 30, 2016 | Active I | d Prices in Markets for cal Assets evel 1) | Obser | icant Other vable Inputs Level 2) | Unobse | gnificant ervable Inputs Level 3) |
| Debt securities | | | | | | | | |
| U.S. Treasury securities | \$ | 26,356,740 | \$ | - | \$ | 26,356,740 | \$ | - |
| Federal agency securities | | 39,386,519 | | - | | 39,386,519 | | - |
| Commercial paper | _ | 12,911,300 | 4 | <u> </u> | | 12,911,300 | | |
| Total debt securities | | 78,654,559 | | - | | 78,654,559 | | - |
| Total investments by fair value level | | 78,654,559 | \$ | | \$ | 78,654,559 | \$ | _ |
| value level | | 70,034,337 | <u> </u> | | <u> </u> | | | |
| Total investments measured at fair value | \$ | 78,654,559 | | | | | | |

The fair value of U.S. treasuries, federal agency securities, and commercial paper at June 30, 2016 was determined primarily based on Level 2 inputs. The School District estimates the fair value of these investments using other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Note 5 - Unavailable/Unearned Revenue

Governmental funds report unavailable revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also report unearned revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of unearned and unavailable revenue are as follows:

| | Governmental Funds | | | | |
|--|--------------------|---------|----|-------------|--|
| | Deferred | | | | |
| | Inflow - | | | Liability - | |
| | Unavailable | | | Unearned | |
| Delinquent property taxes | \$ | 975,785 | \$ | - | |
| Grant and categorical aid payment received prior to meeting all eligibility requirements | | - | | 1,345,661 | |

Notes to Financial Statements June 30, 2016

Note 5 - Unavailable/Unearned Revenue (Continued)

| Program fees and tuition | - | 129,505 |
|--------------------------|---------------|-----------------|
| Other | | 46,848 |
| Total | \$ 975,785 | \$ 1,522,014 |

Note 6 - Capital Assets

Capital asset activity of the School District's governmental activities is as follows:

| Capital asset activity of the School | District's gove | rnmentai acti | vicies is as ion | ows: |
|---|--|--------------------------------------|-----------------------------------|--|
| | Balance July 1, 2015 | Additions and Adjustments | Disposals and Adjustments | Balance June 30, 2016 |

| Total governmental activit | cies | | <u>\$</u> | 7,058,493 |

Note 6 - Capital Assets (Continued)

Construction Commitments - The School District has active construction projects at year end. At year end, the School District's commitments with contractors are as follows:

| | | Total | Remaining | | |
|--|--------------------------------|-----------------------|-------------------------|--|--|
| | _ | Contracts | Commitment | | |
| Building and Repairs Fund 2013 Bond Fund - Series I and II | \$ | 662,905 87,345,419 | \$ 91,630 34,667,209 | | |
| Total | \$ | <u> </u> | \$ 34,758,839 | | |
| i Otal | $\underline{\underline{\Psi}}$ | 00,000,321 | φ 31,730,037 | | |

Note 7 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

| | | | | Fund D | ue F | rom | | | | |
|-----------------------------|-----------|--------------|----|---------------|------|---------------|----|-------------|----|------------|
| | \ <u></u> | | | | | , i | | Nonmajor | | |
| | | | | 2013 Bond | | 2013 Bond | G | overnmental | | |
| Fund Due To | (| General Fund | | Fund Series I | F | und Series II | _ | Funds | _ | Total |
| General Fund | \$ | <u></u> | \$ | 14,530 | \$ | - | \$ | 32,723 | \$ | 47,253 |
| 2013 Bond Fund Series I | | _ | | - | | 41,000 | | - | | 41,000 |
| Internal Service Fund | | 5,089,993 | | - | | - | | - | | 5,089,993 |
| Private Purpose Trust Fund | | 1,992 | | - | | - | | - | | 1,992 |
| Agency Fund | | 834,899 | | - | | - | | - | | 834,899 |
| Nonmajor governmental funds | _ | 6,043,876 | _ | | _ | | _ | - | | 6,043,876 |
| Total | \$ | 11,970,760 | \$ | 14,530 | \$ | 41,000 | \$ | 32,723 | \$ | 12,059,013 |

These balances result from the time lag between the dates that goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made.

Interfund transfers reported in the fund financial statements are comprised of the following:

| | Fund Transferred From | | | | | |
|--|-----------------------|----------------|----------|----------------|----------|------------------------|
| | | | | Nonmajor | | |
| | Governmental | | | | | |
| Fund Transferred To | General Fund | | | Funds | | Total |
| General Fund Nonmajor governmental funds | \$ \$ | - 1,050,744 | \$ \$ | 2,656,039 - | \$ \$ | 2,656,039 1,050,744 |
| Total | | 1,050,744 | | 2,656,039 | | 3,706,783 |

Interfund transfers were made during the year between the General Fund and the Special Education Center Program to cover indirect costs and to transfer the State's

Note 7 - Interfund Receivables, Payables, and Transfers (Continued)

portion of LRE (least restrictive environment) paraprofessional costs. A transfer was made from the Food Service Fund to the General Fund to pay for indirect costs. Transfers were also made from the 2012 Capital Projects Fund to the General Fund for the proceeds from sale of land. Amounts transferred between the 2013 Bond Funds represent issuance costs paid between the funds.

Note 8 - State Aid Anticipation Note

On August 20, 2015, Livonia Public Schools borrowed \$6,500,000 on a state aid anticipation note from FirstMerit Bank. The note bears interest at 1.03 percent and is due on August 22, 2016. At June 30, 2016, Livonia Public Schools has accrued interest of \$57,837 on this note. This note was fully repaid subsequent to year end.

Note 9 - Long-term Debt

The School District issues bonds and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Other long-term obligations include employment related liabilities.

Long-term obligation activity can be summarized as follows:

| | Beginning Balance | _ | Additions | Reductions | _ <u>E</u> | nding Balance | Due Within One Year |
|---|--|----|------------------------------------|---|------------|---|--|
| Government obligation bonds Employee Related liabilities Premium on bonds Deferred inflows - Deferred charges on bond refunding | \$ 152,365,000 4,912,040 9,893,208 4,192,223 | \$ | 76,180,000 - 11,359,115 - | \$ 11,555,000 604,948 816,870 426,328 | \$ | 216,990,000 4,307,092 20,435,453 3,765,895 | \$ 7,970,000 1,047,431 1,076,501 426,328 |
| Total governmental entities | \$ 171,362,471 | \$ | 87,539,115 | \$ 13,403,146 | \$ | 245,498,440 | \$ 10,520,260 |

Annual debt service requirements to maturity for the above bonds and note obligations are as follows:

| | Governmental Activities | | | | | | | |
|--------------|-------------------------|------------|----|------------|----|------------|--|--|
| Years Ending | | | | | | | | |
| June 30 | | Principal | | Interest | | Total | | |
| 2017 | \$ | 7,970,000 | \$ | 11,318,865 | \$ | 19,288,865 | | |
| 2018 | | 8,315,000 | | 10,315,400 | | 18,630,400 | | |

Notes to Financial Statements June 30, 2016

Note 9 - Long-term Debt (Continued)

| 2037-2041 | 42,075,000 | 13,173,750 | 55,248,750 |
|-----------|----------------|----------------|----------------|
| 2042-2045 | 26,925,000 | 2,852,500 | 29,777,500 |
| Total | \$ 216,990,000 | \$ 158,473,415 | \$ 375,463,415 |

Governmental Activities

General obligation bonds consist of the following:

| \$65,025,000 refunding bonds due in annual installments of \$4,125,000 to \$7,810,000 through May 1, 2025; interest at 4.00 percent to 5.00 percent | \$ 54,110,000 |
|---|---------------|
| \$103,330,000 school building and site bonds due in annual installments of \$800,000 to \$5,675,000 through May 1, 2043; interest at 3.00 percent to 5.00 percent | 86,700,000 |
| \$76,180,000 school building and site bonds due in annual installments of \$1,000,000 to \$4,175,000 through May 1, 2045; interest at 3.00 | |
| percent to 5.00 percent | 76,180,000 |
| Total bonded debt | \$216,990,000 |

In prior years, the School District defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust accounts assets and liabilities for the defeased bonds are not included in the basic financial statements. At June 30, 2016, \$15,943,147 of bonds outstanding are considered defeased.

Note 10 - Restricted Assets

The balances for the restricted asset accounts are as follows:

| | Governmental Activities |
|--|-------------------------|
| Unspent bond proceeds and related interest | \$ 112,285,392 |
| Unspent sinking fund property taxes levied | 14,243,464 |
| Unspent debt service property taxes levied | 1,546,170 |
| Total restricted assets | \$ 128,075,026 |

Note II - Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, medical benefits provided to employees, and employee injuries (workers' compensation). The School District has purchased commercial insurance for health claims. The School District also participates in the Metropolitan Association for Improved School Legislation (M.A.I.S.L.) risk pool for claims relating to property loss, torts, and errors and omissions; the School District is self-insured for workers' compensation. Settled claims related to commercial insurance have not exceeded the amount of insurance coverage in any of the last three fiscal years.

The shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

The School District estimates the liability for workers' compensation that have been incurred through the end of the fiscal year, including both those claims that have been reported as well as those that have not yet been reported. These estimates are recorded in the Internal Service Fund. Changes in the estimated liability for the past two fiscal years were as follows:

| | 2016 | 2015 |
|--|---------------|---------------|
| Estimated liability - Beginning of year | \$ 629,452 | \$ 664,793 |
| Estimated claims incurred - Including changes in | | |
| estimates | 238,734 | 342,391 |
| Claim payments | (308,860) | (377,732) |
| Unpaid claims - End of year | \$ 559,326 | \$ 629,452 |

Note 12 - Contingent Liabilities

The School District is a defendant in claims related to alleged abuse to students. The School District is vigorously defending these claims and does not believe that there will be any liability to the School District. The School District is also a defendant in various other claims. Although the outcome of these claims is not presently determinable, in the opinion of the School District's attorneys, the resolution of these matters will not have a material adverse effect on the financial condition of the School District. The School District has not accrued for any potential losses related to these claims.

Notes to Financial Statements June 30, 2016

Note 13 - Michigan Public School Employees' Retirement System

Plan Description - The School District participates in the Michigan Public School Employees' Retirement System (MPSERS or System), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The System provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The System also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for the pension and postemployment healthcare plans. That report is available on the web at http://www.michigan.gov/orsschools, or by writing to the Office of Retirement System (ORS) at 7150 Harris Drive, P.O. Box 30171, Lansing MI 48909.

Contributions - Public Act 300 of 1980, as amended, required the School District to contribute amounts necessary to finance the coverage of pension benefits of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature. Under these provisions, each School District's contribution is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability.

School District's contributions are determined based on employee elections. There are seven different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS.

The range of rates are as follows:

School District

October 1, 2014 - September 30, 2015 18.76 to 23.07 percent October 1, 2015 - June 30, 2016 14.56 to 18.95 percent

Depending on the plan selected, plan member contributions range from 0 percent up to 7.0 percent of gross wages. Plan members electing into the defined contribution plan are not required to make additional contributions.

The School District's required and actual contributions to the plan for the year ended June 30, 2016 was \$26,257,664. The School District required and actual contributions include an allocation of \$7,598,079 revenue received from the State of Michigan, and remitted to the system, to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate for the year ended June 30, 2016.

Note 13 - Michigan Public School Employees' Retirement System (Continued)

Benefits Provided - Benefit provisions of the defined benefit pension plan are established by State statue, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan.

Depending on the plan option selected, member retirement benefits are calculated as final average compensation times years of service times a pension factor ranging from 1.25 percent to 1.50 percent. The requirements to retire range from attaining the age of 46 to 60 with years of service ranging from 5 to 30 years, depending on when the employee became a member. Early retirement is computed in the same manner as a regular pension, but is permanently reduced 0.50 percent for each full and partial month between the pension effective date and the date the member will attain age 60. There is no mandatory retirement age.

Members are eligible for non-duty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The disability benefits plus authorized outside earnings are limited to 100 percent of the participant's final average compensation with an increase of 2 percent each year thereafter.

Benefits may transfer to a beneficiary upon death and are determined in the same manner as retirement benefits, but with an actuarial reduction.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustment, if applicable, is 3 percent. For some members who do not receive an annual increase, they are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions.

Net Pension Liability, Deferrals, and Pension Expense - At June 30, 2016, the School District reported a liability of \$279,856,068 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2014, which used update procedures to roll forward the estimated liability to September 30, 2015. The School District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2015, the School District's proportion was 1.145776 percent.

Note 13 - Michigan Public School Employees' Retirement System (Continued)

For the year ended June 30, 2016, the School District recognized pension expense of \$23,338,956 exclusive of payments to fund the MPSERS UAAL Stabilization Rate. At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| De | Deferred Outflows | | Deferred Inflows | | |
|-----------|-------------------|------------|--|--------------------------------|--|
| | of Resources | | | Resources | |
| \$ | | <u> </u> | \$ | 926,965 | |
| | | 6,890,649 | | - | |
| | | | | | |
| | | 1,428,439 | | - | |
| | | | | | |
| | | | | | |
| 7 | | 533,372 | | 1,704,408 | |
| _ | | 20,807,208 | | | |
| <u>\$</u> | | 29,659,668 | \$ | 2,631,373 | |
| | \$ | of Re | of Resources \$ - 6,890,649 1,428,439 | of Resources \$ - \$ 6,890,649 | |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Years Ending June 30 | | Amount |
|-------------------------|-------|-----------------|
| 2017 | | \$ 470,427 |
| 2018 | | 470,427 |
| 2019 | | 96,626 |
| 2020 | | 5,183,607 |
| 2021 | | - |
| Thereafter | | - |
| | Total | \$ 6,221,087 |

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year.

Note 13 - Michigan Public School Employees' Retirement System (Continued)

Actuarial Assumptions - The total pension liability as of September 30, 2015 is based on the results of an actuarial valuation date of September 30, 2014 and rolled forward:

Actuarial cost method Entry age normal cost actuarial cost method

Investment rate of return 7.00 to 8.00 percent, net of investment expenses based on

the groups

Salary increases 3.5 to 12.3 percent, including wage inflation of 3.5 percent

Mortality basis RP2000 Combined Healthy Mortality Table, adjusted for

mortality improvements to 2025 using projection scale BB

Cost of living pension

adjustments 3% annual non-compounded for MIP members

The actuarial assumptions used for the September 30, 2014 valuation were based on the results of an actuarial experience study for the period from October 1, 2007 to September 30, 2012. As a result of this study, the actuarial assumptions were adjusted to more closely reflect actual experience.

Discount Rate - The discount rate used to measure the total pension liability was 7.00 to 8.00 percent depending on the plan option. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at contractually required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 13 - Michigan Public School Employees' Retirement System (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| | | Long-term |
|---|------------|----------------|
| | Target | Expected Real |
| Investment Category | Allocation | Rate of Return |
| Domestic equity pools | 28.0 % | 5.9 % |
| Private equity pools | 18.0 % | 9.2 % |
| International equity pools | 16.0 % | 7.2 % |
| Fixed-income pools | 10.5 % | 0.9 % |
| Real estate and infrastructure pools | 10.0 % | 4.3 % |
| Real return, opportunistic, and absolute pool | 15.5 % | 6.0 % |
| Short-term investment pools | 2.0 % | - % |
| Total | 100.0 % | |

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability of the School District calculated using the discount rate of 8.00 percent, depending on the plan option. The following also reflects what the School District's net pension liability would be if it were calculated using a discount rate that is 1.00 percentage point lower (7.00 percent) or 1.00 percentage point higher (9.00 percent) than the current rate:

| 1.1 | 00 Percent Decrease (7.00 Percent) | Current Discount Rate (8.00 Percent) | | 1.00 Percent Increase (9.00 Percent) |
|-----|---------------------------------------|--------------------------------------|----|---|
| \$ | 360,806,212 | \$ 279,856,068 | \$ | 211,611,782 |

Pension Plan Fiduciary Net Position - Detailed information about the pension plan's fiduciary net position is available in the separately issued MPSERS financial report.

Payable to the Pension Plan - At June 30, 2016, the School District reported a payable of \$3,342,987 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2016.

Note 13 - Michigan Public School Employees' Retirement System (Continued)

Postemployment Benefits Other Than Pensions (OPEB) - Under the MPSERS act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent, or 20 percent for those not Medicare eligible, of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. The employer contribution rate ranged from 5.52 percent to 6.45 percent of covered payroll for the period from July 1, 2014 to September 30, 2014, 2.20 percent to 2.71 percent of covered payroll for the period from October 1, 2014 to September 30, 2015, and from 6.40 percent to 6.83 percent of covered payroll for the period from October 1, 2015 through June 30, 2016 dependent upon the employee's date of hire and plan election as noted above. Members can choose to contribute 3 percent of their covered payroll to the Retiree Healthcare Fund and keep this premium subsidy benefit or they can elect not to pay the 3 percent contribution and instead choose the Personal Healthcare Fund, which can be used to pay healthcare expenses in retirement. Members electing the Personal Healthcare Fund will be automatically enrolled in a 2 percent employee contribution into their 457 account as of their transition date and create a 2 percent employer match into the employee's 403B account.

The School District's required and actual contributions to the plan for retiree healthcare benefits for the years ended June 30, 2016, 2015, and 2014 were \$5,410,024, \$3,683,053, and \$8,483,340, respectively. In addition, a portion ranging from 35 to 100 percent of the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate is considered a contribution to the retiree healthcare plan.

Note 14 - Upcoming Accounting Pronouncements

In June 2015, the GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which addresses reporting by governments that provide postemployment benefits other than pensions (OPEB) to their employees and for governments that finance OPEB for employees of other governments. This OPEB standard will require the District to recognize on the face of the financial statements its proportionate share of the net OPEB liability related to its participation in the MPSERS plan. The Statement also enhances accountability and transparency through revised note disclosures and required supplementary information (RSI). The District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the District's financial statements for the year ending June 30, 2018.
