PROPOSAL details --

1. What is something you want to do for or with your students but cannot currently afford to do it?

*I would like to purchase mosaic tiles, tools, and accessories for students in grades k-5<sup>th</sup>. There are benches throughout the school campus and 6 medium sized rocks in the front of the school that students would be able to cover with mosaic designs.*

2. In 200 words or less, describe this project, listing individual items' estimated costs totaling up to \$600.

*This project will be a community/cooperative art project. Projects like this force students to learn how to work together and problem-solve in a respectful manner. The project will also provide students a sense of pride to have created something so beautiful for their school. It would boost their confidence and allow them to feel ownership, in hopes of engraining respect towards public art.*

*Students will be involved in all stages of this project: design, creating clay pieces, glazing and installation. Left-over pieces will be used to start mosaic stepping stones and decorations for our new Keeling Garden.*
