Jessica Cox

Pre-Kindergarten Teacher

Waskom Elementary

To Whom It May Concern:

The past six years at Waskom Elementary School have been the best six years of my life for many reasons but my job has been one of the main reasons. The students that I have taught will always remain in my heart and I will always consider the staff my extended family.

However, after many months of planning and praying, my husband and I feel it is best for me to stay at home with my son, Garner. This job has been a blessing and I will miss walking into my classroom each day but I feel that at this time this is the best decision for my family. I know that I will forever regret not taking the time to be a stay at home mom when I had the opportunity. I am looking forward to educating the most important student I will ever have- my own child.

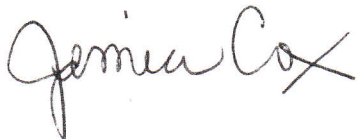

I plan to finish the 2013-2014 school year, clean my classroom thoroughly, and follow the necessary protocol for leaving my position.

During the next one to two years, I plan to continue my professional development through Region 7 where I can stay up to date with standardized testing, classroom management and the TEKS. I plan to focus on mathematics, reading, and science at the elementary level.

I am hopeful that Waskom ISD will rehire me when my son arrives for kindergarten.

I have truly enjoyed working for the Waskom Independent School District.

Sincerely,
