Paras Thrive Webinar Set Description

Agenda Location: Consideration to Approve: Action Items

Rationale:

Professional development is essential to ensure we have qualified and trained paraprofessionals to support our students with disabilities. Love Your Classroom provides a webinar series that focuses on skills for paraprofessionals. This 6-hour workshop is divided into 7 habits to be taught via webinar learning; when implemented, these habits can help paras thrive. The content is research-based, divided into digestible pieces, and delivered in a way that enables paras to implement it immediately. This professional development will be allocated through the district's IDEA grant.

Recommendation/Motion:

The administration recommends that the Board approve the Love Your Classroom, LLC Agreement Contract for paraprofessional professional development during the 25-26 school year for \$12,474.00.
