| Total Net Principal and Interest: | \$9,560,193 |  |  |  |  |  |

<sup>\*</sup> After receipt of the bids, certain maturities were adjusted. This caused a slight change in the True Interest Cost.

**NOTES:** The True Interest Cost of 3.55% is below the estimate of

4.16% in the Pre-Sale Report dated February 24, 2025. The winning bidder submitted a bid with a premium price (a price paid that is more than the principal amount). The

premium, favorable interest rates, and favorable

construction bids will provide the district with significantly lower financing cost. When compared with the pre-sale estimates from February 24, total principal and interest for the 2025A bonds is projected to be approximately \$1.1

million lower than estimated.

The Bonds maturing February 1, 2034 and thereafter are

callable February 1, 2033 or any date thereafter.

**CLOSING DATE:** April 17, 2025

<sup>1</sup> The underwriter of the bonds offered a premium for the bonds. They will retain a portion of the premium as their compensation, or underwriter's discount. The remainder of the premium was used to reduce the par amount of the bonds and deposited in the construction fund and used to fund a portion of the project costs toward the project.

<sup>2</sup> Estimated investment earnings are based on an average interest rate of 1.0%, and an average life of 6 months.

<sup>3</sup> The underwriter's discount is an estimate of the compensation taken by the underwriter who provides the lowest true interest cost as part of the competitive bidding process and purchases the bonds. Ehlers provides independent municipal advisory services as part of the bond sale process and is not an underwriting firm.

<sup>4</sup> Includes fees for municipal advisor, bond counsel, rating agency, paying agent, and county certificates.

- 1 Tax capacity value for taxes payable in 2024 is the actual value. Estimates for future years are based on the percentage changes as shown above.
- 2 Initial debt service levies (prior to subtracting debt equalization aid) are set at 105 percent of the principal and interest payments during the next fiscal year.
- 3 Debt excess adjustment for taxes payable in 2024 and 2025 are the actual amounts. The adjustment for 2026 is an estimate using the June 30, 2024 debt service fund balance. Debt excess for future years is estimated at 4% of the prior year's initial debt service levy.

Update to credit analysis

### **Summary**

Owatonna ISD 761, MN (A1) benefits from its sound financial position and solid economic base, balanced against its above average leverage. Reserves are expected to modestly narrow in fiscal 2025, but the district plans to balance operations beginning in fiscal 2026. Enrollment has been stable but is expected to modestly decline over the next several years, while overall leverage will remain above average.

## **Credit strengths**

- » Sound reserves
- » Strong resident income and full value per capita

## **Credit challenges**

- » While reserves have improved, structural imbalances are projected to continue in the near-term barring material budgetary changes or revenue enhancements
- » Above average leverage and fixed costs

### Rating outlook

We do not assign outlooks to local government issuers with this amount of debt.

### Factors that could lead to an upgrade

- » Consistently stable enrollment trend
- » Ability to structurally balance financial operations with an available fund balance ratio above 20% of revenue

## Factors that could lead to a downgrade

- » Larger than anticipated deficit in fiscal 2025 or the failure to structurally balance operations in fiscal 2026
- » An available fund balance ratio below 15% of revenue
- » Substantial growth in the long-term liabilities ratio to levels nearing 400% of revenue

#### **Profile**

Owatonna Independent School District 761, MN is situated about 60 miles southeast of the Twin Cities metropolitan area. The district provides pre-kindergarten to twelfth grade education to just under 5,000 students.

#### **Detailed credit considerations**

Owatonna ISD 761 benefits from a sound financial position supported by growing revenues and coronavirus stimulus funds. Reserves have strengthened to 19% in fiscal 2024 from a narrow 13% of revenue in fiscal 2019, which is attributed to the district utilizing its \$11 million in ESSER funds to partially offset operating expenses and retain staffing levels and programs. The district's voter-approved ten-year operating levy was renewed in 2020 and generates approximately \$2.9 million in annual revenue. The district's semirural economic base benefits from its strong resident income and full value per capita, with modest residential and commercial developments underway. Enrollment has remained stable recently, but is projected to modestly decline over the next several years mainly driven by declining birthrates. Favorably, the district runs an online learning program that currently accepts around 400 students from open enrollment and tuition agreements with other districts, helping offset open enrollment losses.

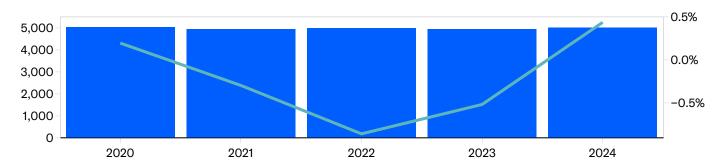

The district is on track to incur a \$2.5 million deficit across its operating funds in fiscal 2025 because of increased expenses and one-time capital projects. If the deficit is fully realized, reserves modestly decline to about 17% of fiscal 2024 operating revenue. Going into fiscal 2026, the district plans to enact \$1.8 million in expenditure reductions across staffing and other items, reducing the projected general fund deficit to around \$660,000. Management has indicated willingness to make further cuts if necessary to structurally balance operations. The district is in the process of issuing \$7.8 million in debt to finance capital improvements and facility maintenance projects from its ten-year facility plan, modestly raising leverage to around 305% of revenue. Leverage remains above average, though this is somewhat mitigated by the absence of major capital needs and additional debt plans.

#### Leverage

Minnesota school districts' ANPLs are primarily attributable to their participation in the Teachers Retirement Association of Minnesota (TRA). Based on TRA's reporting, we expect Minnesota school districts' ANPLs to decline by about 8% in fiscal 2024. While results will vary across US public pension systems, we generally expect local governments' fiscal year 2025 ANPLs to fall by another 20% based on our aggregate estimates, due to rising interest rates and above-target investment returns in 2024. As of the TRA's fiscal 2023 reporting, government contributions in aggregate amounted to almost 10% of payroll, below our tread water indicator, which amounted to around 13% of payroll.

#### **ESG** considerations

#### **Environmental**

Environmental risks are factored into our assessment of the district's credit quality, but are not major drivers at this time.

#### **Social**

Social considerations such as wealth, income, and enrollment, are factors in the district's credit quality and are discussed in the detailed credit considerations.

#### Governance

Governance is a credit consideration for all local government issuers. The district has a formal fund balance policy that requires the district to maintain between 8% and 10% of annual expenditures as unassigned general fund reserves, which the district has modestly exceeded. Transparency and disclosure practices are sound given the timely filing of audited financial statements and budgets, coupled with the publication of monthly financial reports on the district's website.

Minnesota school districts have an Institutional Framework score <sup>1</sup> of A. The state controls the bulk of school district revenue through a per-pupil funding formula. The state has provided for regular annual increases in the funding formula for several years but has occasionally delayed disbursements. Districts can generate a moderate amount of additional locally determined revenue and can go to voters for additional revenue up to the standard referendum cap.

# Rating methodology and scorecard factors

The US K-12 Public School Districts Methodology includes a scorecard, a tool providing a composite score of a school district's credit profile based on the weighted factors we consider most important, universal and measurable, as well as possible notching factors dependent on individual credit strengths and weaknesses. Its purpose is not to determine the final rating, but rather to provide a standard platform from which to analyze and compare school district credits.

The assigned rating is lower than the scorecard-indicated outcome because of the expectations that the district's available fund balance will narrow in fiscal 2025, but stabilize in fiscal 2026 because of planned expenditure reductions.

## **Endnotes**

1 The institutional framework score categorically assesses whether a district has the legal ability to raise the bulk of its operating revenue at the local level or if the state determines the bulk of its operating revenue. Beyond the local versus state categorization, the strength of the institutional framework score is a measure of the district's flexibility in raising additional locally determined operating revenue. See <u>US K-12 Public School Districts Methodology</u> for more details.
