TO: Multnomah ESD Board of Directors

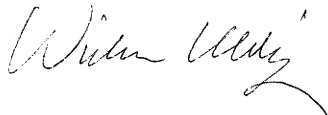

RE: Future of **mesd** Printing & Graphic  
SERVICES

After considerable thought, many hours of research and open and honest discussion, it is with a very heavy heart that we have come to the difficult conclusion that it is not feasible to become financially sustainable within the short six month time frame. We propose that our Printing & Graphics department be given until July 31, 2012 to complete the closing down of the department as we know it and to address the needs of our many dedicated clients. After July 31, our in house capabilities will be that of the High Speed black and white digital press, and Joni Müller as IRAs operator.

We would like to thank the Board for all of your time and energy in keeping engaged in our discussions, and lastly your support.

Carolee Iselin Supervisor

Bill Uhlig-Graphic Artist

Joni Müller-High Speed Digital Press Operator/Bindery

HR/Legal Services

Chief Operations Officer

Superintendent

Jeff Bassett-Color Press operator
