PAGE 1 of 2

School transportation may be used in connection with the operation and support of extracurricular and student activities upon approval of the superintendent or designee. A use charge will be charged against the activity or sponsoring student-group requesting the transportation.

Students riding to an activity in a school bus/district owned vehicle are expected to return on it. (The principal alone can make an exception.) Students on such trips are required to comply with the rules and regulations governing daily school transportation and follow all school district policy and school handbook regulations.

Non-participating students or children of chaperones and/or district staff are <u>not</u> allowed to travel on school, district, or board-approved tours, excursions, or overnight trips. Refer Policy 577.
