

# School Board Recognition

Our public schools exist to meet the educational needs of all students and to empower them to become capable, productive contributors to a democratic society and an ever-changing world. This mission is made possible through the leadership and dedication of our local school board members.

Our school board members are elected by the community to act in the best interests of students. They work collaboratively with parents, educators, and community partners to shape a shared vision for our schools and to ensure a strong foundation for our district's success. As advocates for public education, they help communicate the needs and priorities of our schools while representing the expectations of the community they serve.

In recognition of their commitment, service, and leadership, the Brackett Independent School District proudly recognizes **January 2026 as School Board Recognition Month**. We extend our sincere appreciation to the members of the Brackett ISD School Board for their dedication and hard work on behalf of our students, staff, and community.

We encourage our community to join us in thanking our school board members and in working together to support an educational system that meets the needs of today's learners and prepares them for the future.
