

**Bristol Public Schools**  
**Office of Teaching & Learning**

<b>Department</b>	Career and Technical Education (CTE)
<b>Department Philosophy</b>	Bristol schools believe in providing students with rich opportunities to ensure career and college readiness. These opportunities include development of skills, practices, and exploration within several career clusters and pathways, beginning at the middle school level. Each CTE curriculum enables students to acquire and strengthen leadership, literacy, numeracy, decision-making, computer skills, and technology skills through 11 career clusters and pathways: (1) architecture and construction, (2) business management, (3) education and training, (4) finance, (5) health science, (6) hospitality and tourism, (7) information technology, (8) manufacturing, (9) marketing, (10) transportation, distribution and logistics, and (11) STEM. Each career cluster provides students with access to hand-on experiences that will allow for students development of skills that will support successful transition to their post secondary experiences.
<b>Course</b>	Technology I: An introduction to Technology
<b>Course Description for Program of Studies</b>	The 6th grade Introduction to Technology class is an exploratory course designed to expose and inspire students to multiple career pathways. Students will be introduced to career pathways and the building blocks of society through project based learning content in Robotics & Coding, Digital Communications & Graphic Design, and Engineering & Technology. Students will gain knowledge and understanding of the world we live in and how their personal skill sets are invaluable and where they fit into society.
<b>Grade Level</b>	6th grade
<b>Pre-requisites</b>	None
<b>Credit (if applicable)</b>

## UNIT 1: MS CTE Google Site Portfolio Development

### Essential Questions

- How can I use Google Sites to organize and build a technology education exploration portfolio?

Throughout the course:

- What are the types of technology education offered by Bristol Public Schools?
- What careers are associated with each of the technology education pathways offered at Bristol Schools?
- What skills are required for entry into each career pathway explored?
- How can I use this portfolio to make decisions about my academic path through middle, high school and beyond?

CTE Standard	Learning Targets: I can	Summative Assessment Strategy	Lesson Progression and Connection to ELA/Math CCSS	Common Learning Experiences and Assessments								
ISTE	<ul style="list-style-type: none"> <li>• I can organize my Google Drive to ensure that my assignments are easily located.</li> <li>• I can create an online portfolio using Google Sites to track my progress throughout my middle school career.</li> </ul>	<table border="1"> <tr> <td></td> <td>Selected Response (SR)</td> </tr> <tr> <td></td> <td>Constructed Response (CR)</td> </tr> </table>		Selected Response (SR)		Constructed Response (CR)	<b>Lesson Progression and Standards Connection:</b> <ul style="list-style-type: none"> <li>• Each of the above standards should be found throughout the unit sequences.</li> <li>• (1a)-Students articulate and set personal learning goals, develop strategies leveraging technology to achieve them and reflect on the learning process itself to improve learning outcomes.</li> </ul>	<b>Mandatory Lessons/Activities:</b> <ul style="list-style-type: none"> <li>• Organize Google Drive</li> <li>• Introduction to Sites</li> <li>• Create a Google Site-General Components</li> </ul>

## UNIT 2: Introduction to Technology and Engineering

**Essential Questions:**

- How does technology change?
- What is the impact of the engineering design cycle on past and present technologies?
- How does the iterative process of engineering design improve outcomes?

Throughout the course:

- What are the types of technology education offered by Bristol Public Schools?
- What careers are associated with each of the technology education pathways offered at Bristol Schools?
- What skills are required for entry into each career pathway explored?
- How can I use this portfolio to make decisions about my academic path through middle, high school and beyond?

CTE Standard	Learning Targets: I can	Summative Assessment Strategy	Lesson Progression and Connection to ELA/Math CCSS	Common Learning Experiences and Assessments								
<a href="#">STEL</a>	<ul style="list-style-type: none"> <li>● I can compare technology from the past to current/future technology.</li> <li>● I can predict how the changes were made/designed to advance the technology.</li> </ul>	<table border="1" style="width: 100%;"> <tr> <td style="width: 20px;"></td> <td style="text-align: center;">Selected Response (SR)</td> </tr> <tr> <td style="text-align: center;">X</td> <td style="text-align: center;">Constructed Response (CR)</td> </tr> </table>		Selected Response (SR)	X	Constructed Response (CR)	<p><b>Lesson Progression and Standards Connection:</b></p> <ul style="list-style-type: none"> <li>● 5F. ## Module 4: Introduction to Tools and Materials

### Essential Questions:

- What are the safety requirements in the MakerSpace?
- What tools are used in the makerspace, and what is the function of each tool?
- What types of materials can be manipulated in a MakerSpace?
- How is a design plan used to create a project with an intended outcome?

Throughout the course:

- What are the types of technology education offered by Bristol Public Schools?
- What careers are associated with each of the technology education pathways offered at Bristol Schools?
- What skills are required for entry into each career pathway explored?
- How can I use this portfolio to make decisions about my academic path through middle, high school and beyond?

## UNIT 5: Introduction to Manufacturing

**Essential Questions:**

- What is manufacturing?
- What are the types of manufacturing?
- What types of products are manufactured in Connecticut?
- How can we use our makerspace to manufacture goods?
- What technologies are used in manufacturing?

Throughout the course:

- What are the types of technology education offered by Bristol Public Schools?
- What careers are associated with each of the technology education pathways offered at Bristol Schools?
- What skills are required for entry into each career pathway explored?
- How can I use this portfolio to make decisions about my academic path through middle, high school and beyond?

## UNIT 6: Introduction to Coding and Robotics

### Essential Questions:

- What are the core features of programming languages?
- How does programming enable creativity and individual expression?
- What practices and strategies will help me as I write programs?
- What is the relationship between coding and robotics?
- What are the functions of robots in today's society?
- What are the skills needed to work with robots?

Throughout the course:

- What are the types of technology education offered by Bristol Public Schools?
- What careers are associated with each of the technology education pathways offered at Bristol Schools?
- What skills are required for entry into each career pathway explored?
- How can I use this portfolio to make decisions about my academic path through middle, high school and beyond?

CTE Standard	Learning Targets: I can	Summative Assessment Strategy	Lesson Progression and Connection to ELA/Math CCSS	Common Learning Experiences and Assessments								
<a href="#">STEL</a>	<ul style="list-style-type: none"> <li>• I can understand the core features of computer coding.</li> <li>• I can make sense of the terms used in coding.</li> <li>• I can create the proper sequence of block code to complete a task.</li> </ul>	<table border="1" style="width: 100%;"> <tr> <td style="width: 20px;"></td> <td style="text-align: center;">Selected Response (SR)</td> </tr> <tr> <td style="text-align: center;">x</td> <td style="text-align: center;">Constructed Response (CR)</td> </tr> <tr> <td style="text-align: center;">x</td> <td style="text-align: center;">Performance (P)</td> </tr> <tr> <td></td> <td style="text-align: center;">Observation (O)</td> </tr> </table>		Selected Response (SR)	x	Constructed Response (CR)	x	Performance (P)		Observation (O)	<p><b>Lesson Progression and Standards Connection:</b></p> <ul style="list-style-type: none"> <li>• <i>TEP-7 (communication)-Exhibits effective technical, writing, graphic, and oral communication skills.</i></li> <li>• <i>3G.
