Teacher and Student Survey

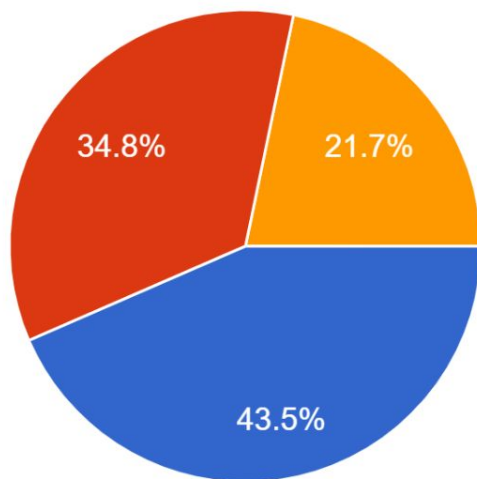

Do you believe a stylus would enhance the applications you already use (e.g., Canvas, Desmos, Kami, Canva, Google Apps, etc.)?

24 responses

If all students were to have styluses, would you increase the frequency at which you have students "show work," annotate texts, and draw diagrams digitally?

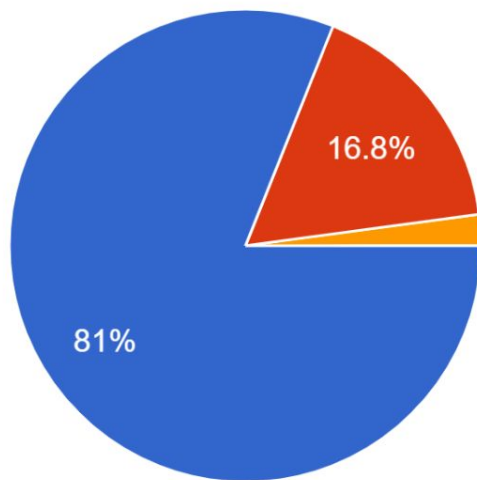

23 responses

- Yes, I would increase assignments completed digitally and require this.
- No, I would likely maintain my current practice.
- I am unsure at this time.

If you had a Chromebook with a built-in stylus, do you think you would use it?

422 responses

● Yes, I would use it often.

● Maybe, I might try it.

● No, I would stick to the keyboard.

Survey Summary

- The majority of teacher who answered the survey (54%) believe a stylus would enhance the work their students are able to do.
- The vast majority of students believe they would use the stylus often.

Conclusion

The best option is to purchase the more capable devices.

Teachers will have styluses available for use by their students
