

Measuring What Matters – 2023 Graduation Rates

Introduction

Graduation rate metrics are reviewed by the Eden Prairie School Board each year when Ends Policy 1.1 is monitored. This policy states: “Each student graduates and is academically prepared to progress to multiple opportunities after high school.” During the monitoring process the Superintendent must provide evidence that the district is making reasonable progress toward this goal.

Data

This data for the 2022-23 school year was presented to the Board on October 23, 2023.

Target Set for 2022-2023

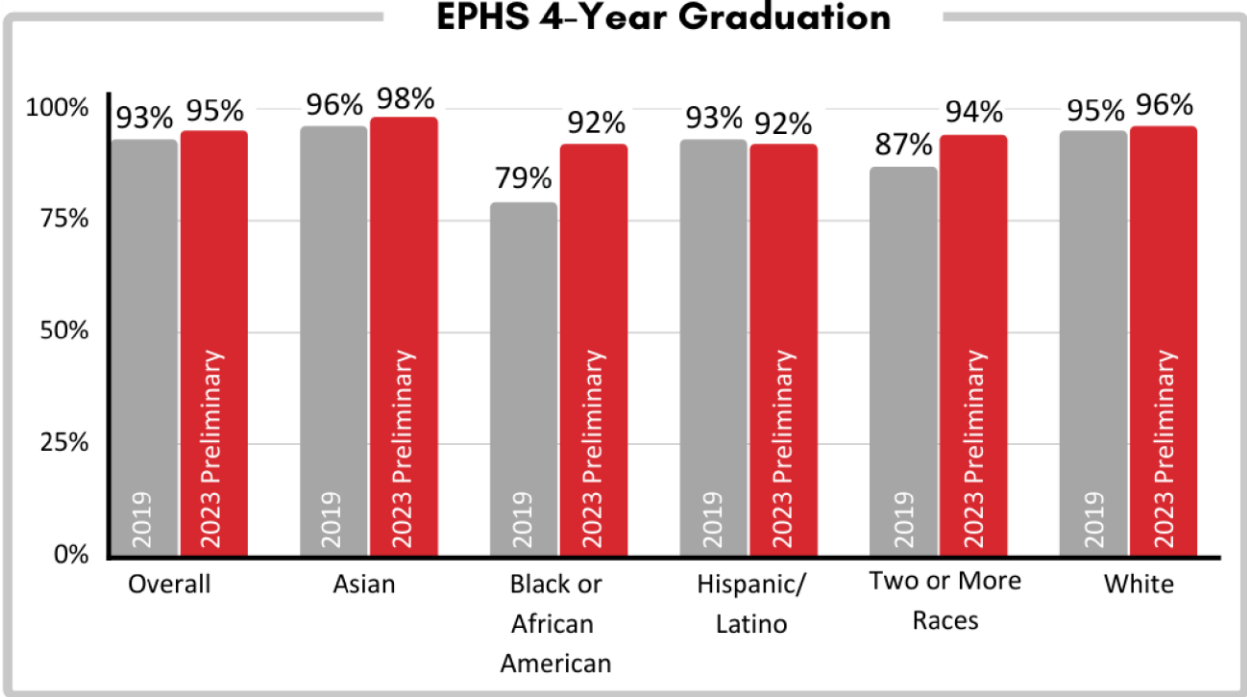

4-year: 95%

7-year: 97%

Level of Achievement

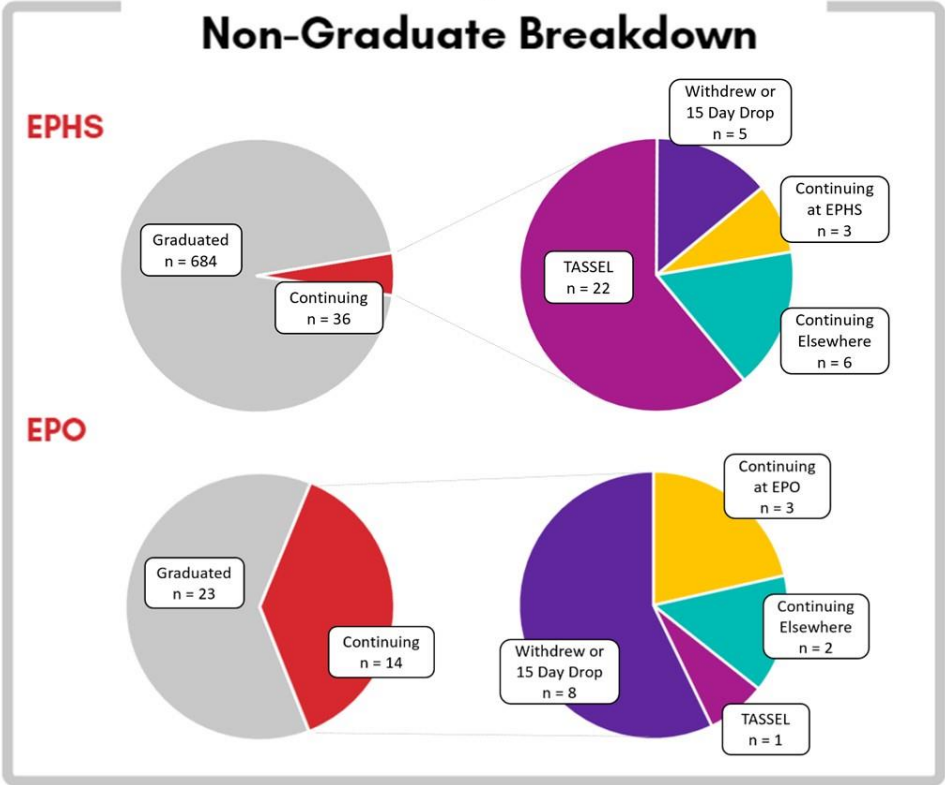

4-year: 95%

7-year: (2023 cohort not yet available)

School Board’s Perspective on the Data

On October 23, 2023, this policy was monitored by the School Board. The Superintendent asserted, and the board concurred, that reasonable progress had been made. Over the last five years, substantial progress has been made in graduation rates. Additionally, Eden Prairie Schools continue to make significant progress reducing disparities in graduation rates across demographic sub-groups. Eden Prairie Schools’ success can be attributed to a well-defined multi-year strategy, and accountability for results. We believe these outcomes are unique in Minnesota and demonstrate that each student can succeed when we work together to reduce/eliminate barriers to learning. We are proud of the district’s performance and look forward to further progress next year.
